**Item 2.02 Results of Operations and Financial Condition.****Item 7.01 Regulation FD Disclosure.**

The information in this report furnished pursuant to Items 2.02 and 7.01, including Exhibit 99.1 and 99.2 attached hereto, shall not be deemed “filed” for the purposes of Section 18 of the Securities and Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liabilities of that section. It may only be incorporated by reference in another filing under the Exchange Act or the Securities Act of 1933, as amended, if such subsequent filing specifically references the information furnished pursuant to Items 2.02 and 7.01 of this report.

On April 18, 2013, Advanced Micro Devices, Inc. (the “Company”) announced its financial position and results of operations as of and for its fiscal quarter ended March 30, 2013 in a press release that is attached hereto as Exhibit 99.1. Attached hereto as Exhibit 99.2 is financial information and commentary by Devinder Kumar, Senior Vice President and Chief Financial Officer of the Company, regarding the Company’s fiscal quarter ended March 30, 2013.

To supplement the Company’s financial results presented on a U.S. GAAP (“GAAP”) basis, the Company’s earnings release contains non-GAAP financial measures, including non-GAAP gross margin, non-GAAP operating expenses, non-GAAP operating income (loss), non-GAAP net income (loss), non-GAAP earnings (loss) per share, Adjusted EBITDA, and non-GAAP free cash flow. The Company believes that this non-GAAP presentation makes it easier for investors to compare current and historical periods’ operating results and that it assists investors in comparing the Company’s performance across reporting periods on a consistent basis by excluding items that it does not believe are indicative of its core operating performance.

To derive non-GAAP gross margin for the Company for the fourth fiscal quarter of 2012, the Company excluded a lower of cost or market charge related to GLOBALFOUNDRIES’ (“GF”) waiver of the Company’s take-or-pay obligations for the fourth fiscal quarter of 2012 (the “LCM Charge”).

To derive non-GAAP gross margin for the Company for the first fiscal quarter of 2012, the Company excluded a charge related to the limited waiver of exclusivity from GF.

To derive non-GAAP operating expenses for the Company for all periods presented, the Company excluded the amortization of acquired intangible assets and net restructuring and other special charges.

To derive non-GAAP operating expenses for the Company for the first fiscal quarter of 2012, the Company also excluded costs related to the acquisition of SeaMicro, Inc. (“SeaMicro”).

To derive non-GAAP operating loss for the Company for the first fiscal quarter of 2013, the Company excluded the amortization of acquired intangible assets and net restructuring and other special charges.

To derive non-GAAP operating loss for the Company for the fourth fiscal quarter of 2012, the Company excluded the LCM Charge, the amortization of acquired intangible assets and net restructuring and other special charges.

To derive non-GAAP operating income for the Company for the first fiscal quarter of 2012, the Company excluded a charge related to the limited waiver of exclusivity from GF, the amortization of acquired intangible assets, net restructuring and other special charges, and costs related to the SeaMicro acquisition.

To derive non-GAAP net loss and non-GAAP loss per share for the Company for the first fiscal quarter of 2013, the Company excluded the amortization of acquired intangible assets and net restructuring and other special charges.

To derive non-GAAP net loss and non-GAAP loss per share for the Company for the fourth fiscal quarter of 2012, the Company excluded the LCM Charge, the amortization of acquired intangible assets, net restructuring and other special charges and an impairment charge for certain marketable securities.

To derive non-GAAP net income and non-GAAP earnings per share for the Company for the first fiscal quarter of 2012, the Company excluded a charge related to the limited waiver of exclusivity from GF, the amortization of acquired intangible assets, net restructuring and other special charges, costs related to the SeaMicro acquisition, and a tax benefit related to the SeaMicro acquisition.

Specifically, these non-GAAP financial measures reflect adjustments based on the following:

Lower of cost or market charge related to GF take-or-pay obligation: Pursuant to the third amendment to the Wafer Supply Agreement (the “WSA”), dated December 6, 2012, between the Company and GF, GF agreed to waive a portion of the Company’s existing take-or-pay production wafer purchase commitments for the fourth fiscal quarter of

2012. In consideration of this waiver, the Company agreed to pay GF a termination fee of \$320 million. As a result, the Company recorded a “lower of cost or market,” or LCM charge, of \$273 million for the write-down of inventory to its market value. The Company excluded this item from the Company’s GAAP gross margin, GAAP operating loss, GAAP net loss and GAAP loss per share for the fourth fiscal quarter of 2012 because the Company believes it is not indicative of ongoing operating performance and because the Company believes exclusion of this item enables investors to better evaluate the Company’s current operating performance compared with prior periods.

Limited waiver of exclusivity from GF: Pursuant to the second amendment to the WSA, dated as of March 4, 2012, between the Company and GF, the Company was granted certain rights to contract with another wafer foundry supplier with respect to specified products for a specified period. In consideration for these rights, the Company agreed to pay GF \$425 million in cash and transferred to GF all of the capital stock of GF that the Company owned, which had a carrying and fair value of \$278 million. As a result, the Company recorded a charge of \$703 million in the first fiscal quarter of 2012. The Company excluded this item from the Company’s GAAP gross margin, GAAP operating loss, GAAP net loss and GAAP loss per share for first fiscal quarter of 2012 because the Company believes it is not indicative of ongoing operating performance and because the Company believes exclusion of this item enables investors to better evaluate the Company’s current operating performance compared with prior periods.

Amortization of acquired intangible assets: Amortization of acquired intangible assets represents amortization expenses of acquired identifiable intangible assets in connection with the Company’s acquisitions of ATI Technologies and SeaMicro. The Company excluded this item from the Company’s GAAP operating expenses, GAAP operating loss, GAAP net loss and GAAP loss per share for all periods presented because these expenses are not indicative of ongoing operating performance.

Restructuring and other special charges, net: Restructuring and other special charges, net, recorded in the first fiscal quarter of 2013 primarily consisted of a loss associated with the sale and leaseback of the Company’s facility in Austin, Texas, partially offset by a gain on the sale and leaseback of one of the Company’s buildings in Markham, Canada. The net charge primarily represented the difference between the sales proceeds and the carrying values of the properties sold. Restructuring and other special charges, net, recorded in the fourth fiscal quarter of 2012 and the first fiscal quarter of 2012 represented costs that the Company incurred from its restructuring plans implemented to reduce operating expenses and better position the Company competitively. The charges reflected in these periods were primarily associated with a reduction of the Company’s global workforce. The Company excluded net restructuring and other special charges from the Company’s GAAP operating expenses, GAAP operating loss, GAAP net loss and GAAP loss per share for all periods presented because they are not indicative of ongoing performance.

SeaMicro acquisition costs: In March 2012, the Company acquired SeaMicro, a privately held company that develops and sells energy-efficient, high-bandwidth microservers. The Company incurred certain costs related to this acquisition, which primarily consisted of advisory and other professional service fees. The Company excluded this item from the Company’s GAAP operating expenses, GAAP operating loss, GAAP net loss and GAAP loss per share for the first fiscal quarter of 2012 because they are not indicative of ongoing operating performance and because the Company believes exclusion of this item enables investors to better evaluate the Company’s current operating performance compared with prior periods.

Tax Benefit related to SeaMicro acquisition: The acquisition of SeaMicro was treated as a stock purchase for income tax purposes and accordingly, tax amortization of the acquired identifiable intangible assets is not allowed. As a result, the Company established a deferred tax liability of approximately \$36 million for the book/tax difference. This reduced the Company’s existing valuation allowance against its deferred tax asset by providing an additional source of future taxable income. The reduction in valuation allowance resulted in a discrete income tax provision benefit of approximately \$36 million in the first fiscal quarter of 2012. The Company excluded this item from the Company’s GAAP net loss and GAAP loss per share for first fiscal quarter of 2012 because it is not indicative of ongoing operating performance and because the Company believes exclusion of this item enables investors to better evaluate the Company’s current operating performance compared with prior periods.

Impairment charge related to certain marketable securities: During the fourth fiscal quarter of 2012, the Company wrote down certain marketable securities to their fair value. The Company excluded this item from the Company’s GAAP net loss and GAAP loss per share for the fourth fiscal quarter of 2012 because it is not indicative of ongoing operating performance and because the Company believes exclusion of this item enables investors to better evaluate the Company’s current operating performance compared with prior periods.

In addition to the above non-GAAP financial measures, the Company presented Adjusted EBITDA in the earnings release as a supplemental measure of its performance. The Company determines its Adjusted EBITDA by adjusting

operating income (loss) for depreciation and amortization, employee stock-based compensation expense and amortization of acquired intangible assets. In addition, the Company also included the following adjustments for the applicable period: for all periods presented, the Company included an adjustment for net restructuring and other special charges; for the fourth quarter of 2012, the Company included an adjustment for the LCM Charge related to the GF take-or-pay obligation; and for the first quarter of 2012, the Company included adjustments for the limited waiver of exclusivity from GF and SeaMicro acquisition costs.

The Company calculates and communicates Adjusted EBITDA in the financial schedules because the Company's management believes it is of importance to investors and lenders in relation to its overall capital structure and its ability to borrow additional funds. In addition, the Company presents Adjusted EBITDA because it believes this measure assists investors in comparing its performance across reporting periods on a consistent basis by excluding items that the Company does not believe are indicative of its core operating performance.

The Company's calculation of Adjusted EBITDA may or may not be consistent with the calculation of this measure by other companies in the same industry. Investors should not view Adjusted EBITDA as an alternative to the GAAP operating measure of operating income (loss) or GAAP liquidity measures of cash flows from operating, investing and financing activities. In addition, Adjusted EBITDA does not take into account changes in certain assets and liabilities as well as interest and income taxes that can affect cash flows.

The Company also presents non-GAAP free cash flow in the earnings release as a supplemental measure of its performance. Non-GAAP free cash flow for the Company was determined by adjusting GAAP net cash provided by (used in) operating activities for capital expenditures. The Company calculates and communicated non-GAAP free cash flow in the financial schedules because the Company's management believes it is of importance to investors to understand the nature of these cash flows. The Company's calculation of non-GAAP free cash flow may or may not be consistent with the calculation of this measure by other companies in the same industry. Investors should not view non-GAAP free cash flow as an alternative to GAAP liquidity measures of cash flows from operating activities. The Company has provided reconciliations within the press release and financial schedules of these non-GAAP financial measures to the most directly comparable GAAP financial measures.

### AMD Reports 2013 First Quarter Results

#### Q1 2013 Results

- AMD revenue \$1.09 billion, decreased 6 percent sequentially and 31 percent year-over-year
- Gross margin 41 percent
- Operating loss of \$98 million, net loss of \$146 million, loss per share of \$0.19
- Non-GAAP<sup>(1)</sup> operating loss of \$46 million, net loss of \$94 million, loss per share of \$0.13

**SUNNYVALE, Calif. – April 18, 2013** – **AMD** (NYSE:AMD) today announced revenue for the first quarter of 2013 of \$1.09 billion, an operating loss of \$98 million and a net loss of \$146 million, or \$0.19 per share. The company reported a non-GAAP operating loss of \$46 million and a non-GAAP net loss of \$94 million, or \$0.13 per share.

“Our first quarter results reflect our disciplined operational execution in a difficult market environment,” said Rory Read, AMD president and CEO. “We have largely completed our restructuring and are now focused on delivering a powerful set of new products that will accelerate our business in 2013. We will continue to diversify our portfolio and attack high-growth markets like dense server, ultra low-power client, embedded and semi-custom solutions to create the foundation for sustainable financial returns.”

#### GAAP Financial Results

	Q1-13	Q4-12	Q1-12
Revenue	\$1.09B	\$1.16B	\$1.59B

#2013036

## Quarterly Financial Summary

- Gross margin was 41 percent.
  - Gross margin increased sequentially due to a \$20 million benefit from sales of inventory that had been previously reserved which positively impacted gross margin by 2 percentage points.
- Cash, cash equivalents and marketable securities balance, including long-term marketable securities, was \$1.2 billion at the end of the quarter.
  - First quarter cash was bolstered by the closing of a sale and leaseback transaction of the “Lone Star Campus” in Austin, Texas generating cash proceeds of approximately \$164 million, net of certain fees.
- Computing Solutions segment revenue decreased 9 percent sequentially and 38 percent year-over-year. The sequential decrease was primarily due to lower desktop, notebook and chipset unit shipments. The year-over-year decline was driven primarily by lower unit shipments.
  - Operating loss was \$39 million, compared with an operating loss of \$323 million in Q4 2012 and operating income of \$124 million in Q1 2012. The Q4 2012 operating loss included the impact of a GLOBALFOUNDRIES-related “lower of cost or market” (LCM) charge of \$273 million.
  - Microprocessor Average Selling Price (ASP) increased sequentially and decreased year-over-year.
- Graphics segment revenue increased 3 percent sequentially and decreased 12 percent year-over-year. Graphics processor unit (GPU) revenue was flat sequentially and down year-over-year.
  - Operating income was \$16 million, compared with \$22 million in Q4 2012 and \$34 million in Q1 2012.
  - GPU ASP increased sequentially and year-over-year.

## Recent Highlights

- Sony announced a semi-custom AMD APU would power its upcoming [PS4 gaming console](#). The APU combines AMD’s “Jaguar” processor cores and next-generation AMD Radeon™ graphics, integrating a combination of x86 processor cores and advanced graphics IP unique to AMD.
- Highlighting AMD’s commitment to optimizing the world’s top PC titles for AMD Radeon™ graphics cards, the company launched the “[Never Settle: Reloaded](#)” promotion. The current program bundles up to five of the year’s most anticipated PC games – “BioShock® Infinite” by 2K Games and Irrational Games, “Crysis® 3” by Electronic Arts and Crytek, “DmC Devil May Cry™” by Capcom®, “Tomb Raider®” by Square Enix and Crystal Dynamics™ and most recently, “Far Cry® 3 Blood Dragon” by Ubisoft® – with the purchase of select AMD Radeon™ HD 7900 Series, HD 7800 Series as well as HD 7790 and HD 7770 graphics cards.<sup>(2)</sup>
- AMD ushered in the new frontier of gaming realism with the introduction of [TressFX Hair](#) – a collaboration with Crystal Dynamics to deliver the world’s first real-time hair rendering technology that can react to forces like gravity, wind and head movement in a playable game. The technology uses the DirectCompute programming language to unlock the capabilities of the AMD Graphics Core Next architecture and is featured heavily in the newly launched PC version of [Tomb Raider](#).
- AMD expanded its server graphics solutions with the introduction of the [AMD FirePro™ R5000](#) remote graphics card supporting remote 3D-graphics workflows and full computing experiences over IP networks.
- AMD moved into cloud gaming with [AMD Radeon™ Sky Graphics](#), based on AMD Graphics Core Next architecture. Working with CiiNow, G-Cluster, Otoy and Ubitus,

-more-

#2013036

AMD developed a flexible cloud gaming technology that enables developers and service providers to deliver excellent gaming experiences through PCs, tablets, smart TVs and mobile devices.

- AMD announced [AMD Turbo Dock Technology](#)<sup>(3)</sup> which automatically adjusts performance of the AMD accelerated processing unit (APU) higher while a hybrid PC is docked and being used for more complex tasks like content creation.
- AMD began shipping the next generation of [AMD Elite A-Series APUs](#), codenamed “Richland,” which combine improved performance and battery life<sup>(4,5)</sup> with advanced user experiences like AMD Face Login<sup>(6)</sup> and AMD Gesture Control.<sup>(7)</sup>
- AMD extended its commitment to drive the development of accelerated applications that tap into the full compute performance of the APU through collaboration with [Aviary](#) to bring an optimized version of its popular photo editing tool to Windows 8 PCs and tablets powered by AMD APUs.
- AMD announced that the [SeaMicro SM15000™ server is now certified for CDH4](#), Cloudera’s Distribution, creating a “Hadoop-in-a-Box” solution. [Red 5](#), [Livestream](#) and [Wayfair](#) also announced they have deployed SeaMicro-powered microservers across their businesses.
- AMD launched the [AMD Open 3.0 server platform](#), a radical rethinking of the server motherboard designed to the standards developed by the Open Compute Project. The AMD Open 3.0 server enables substantial gains in computing flexibility, efficiency and operating cost by simplifying motherboard design.
- Aligned with the company’s strategy to reduce investments and capital in non-core parts of the business, AMD announced that it sold and leased-back its “Lone Star Campus” in Austin, Texas, generating approximately \$164 million in cash, net of certain fees.

#### **Current Outlook**

AMD’s outlook statements are based on current expectations. The following statements are forward-looking, and actual results could differ materially depending on market conditions and the factors set forth under “Cautionary Statement” below.

For the second quarter of 2013, AMD expects revenue to increase 2 percent, plus or minus 3 percent, sequentially.

For additional details regarding AMD’s results and outlook please see the CFO commentary posted at [quarterlyearnings.amd.com](#).

#### **AMD Teleconference**

AMD will hold a conference call for the financial community at 2 p.m. PT (5 p.m. ET) today to discuss its first quarter financial results. AMD will provide a real-time audio broadcast of the teleconference on the [Investor Relations](#) page of its web site at [www.amd.com](#). The webcast will be available for 12 months after the conference call.

**About AMD**

AMD (NYSE: AMD) is a semiconductor design innovator leading the next era of vivid digital experiences with its groundbreaking AMD Accelerated Processing Units (APUs) that power a wide range of computing devices. AMD's server computing products are focused on driving industry-leading cloud computing and virtualization environments. AMD's superior graphics technologies are found in a variety of solutions ranging from game consoles, PCs to supercomputers. For more information, visit [www.amd.com](http://www.amd.com).

**Cautionary Statement**

This document contains forward-looking statements concerning AMD, its second quarter of 2013 revenue, the pace of the company's business in 2013, the company's opportunities in high-growth markets, and the potential for sustainable financial returns in the future, which are

-more-

made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are commonly identified by words such as “believes,” “expects,” “may,” “will,” “should,” “seeks,” “intends,” “pro forma,” “estimates,” “anticipates,” “plans,” “projects,” and other terms with similar meaning. Investors are cautioned that the forward-looking statements in this release are based on current beliefs, assumptions and expectations, speak only as of the date of this release and involve risks and uncertainties that could cause actual results to differ materially from current expectations. Risks include the possibility that Intel Corporation’s pricing, marketing and rebating programs, product bundling, standard setting, new product introductions or other activities may negatively impact the company’s plans; the company may be unable to develop, launch and ramp new products and technologies in the volumes that are required by the market at mature yields on a timely basis; that the company’s third party foundry suppliers will be unable to transition its products to advanced manufacturing process technologies in a timely and effective way or to manufacture the company’s products on a timely basis in sufficient quantities and using competitive technologies; the company will be unable to obtain sufficient manufacturing capacity or components to meet demand for its products; the company’s requirements for wafers are less than the fixed number of wafers that it agreed to purchase from GLOBALFOUNDRIES (GF) or GF encounters problems that significantly reduce the number of functional die the company receives from each wafer; that the company is unable to successfully implement its long-term business strategy; that customers stop buying the company’s products or materially reduce their operations or demand for the company’s products; that the company may be unable to maintain the level of investment in research and development that is required to remain competitive; that there may be unexpected variations in the market growth and demand for its products and technologies in light of the product mix that the company may have available at any particular time or a decline in demand; that the company will require additional funding and may be unable to raise sufficient capital on favorable terms, or at all; that global business and economic conditions will not improve or will worsen; that demand for computers will be lower than currently expected; and the effect of political or economic instability, domestically or internationally, on the company’s sales or supply chain. Investors are urged to review in detail the risks and uncertainties in the company’s Securities and Exchange Commission filings, including but not limited to the Annual Report on Form 10-K for the year ended December 29, 2012.

- (1) In this press release, in addition to GAAP financial results, the Company has provided non-GAAP financial measures including non-GAAP gross margin, non-GAAP operating income (loss), non-GAAP net income (loss) and non-GAAP earnings (loss) per share. These non-GAAP financial measures reflect certain adjustments as presented in the tables in this press release. The Company also provided Adjusted EBITDA and non-GAAP free cash flow as supplemental measures of its performance. These items are defined in the footnotes to the selected corporate data tables provided at the end of this press release. The Company is providing these financial measures because it believes this non-GAAP presentation makes it easier for investors to compare its operating results for current and historical periods and also because the Company believes it assists investors in comparing the Company’s performance across reporting periods on a consistent basis by excluding items that it does not believe are indicative of its core operating performance and for the other reasons described in the footnotes to the selected data tables. Refer to corresponding tables at the end of this press release for additional AMD data.
- (2) Offer may vary by geographic region. See [www.amd.com/neversettlereloadedoffer](http://www.amd.com/neversettlereloadedoffer) for complete details.
- (3) AMD Turbo Dock technology allows a tablet device to boost its performance when connected with a compatible base unit. AMD Turbo Dock-compatible base units provide supplemental APU cooling beyond what is available solely in the slate. Actual performance increases using AMD Turbo Dock technology will vary based on the manufacturer’s tablet, base unit and supplemental cooling solution design. AMD Turbo Dock technology is currently available only on the 2013 AMD A6-1450 APU, and is not available on all tablet models - check with the manufacturer for specific models that support this feature.

All configs used 4G DDR3-1600 (Dual Channel) Memory and Windows 7 Home Premium 64-bit. RIN-2
- (5) Testing and projections develop by AMD Performance Labs. The score for the 2012 AMD A10-4600M on the Cinebench Multi CPU benchmark was 2.0 and the 2012 AMD A8-4555M was 1.30, while the “Richland” 2013 AMD A10-5750M was 2.35 and the 2013 AMD A8-5545M was 1.55. PC configs based on the “Pumori” reference design with the 2012 AMD A10-4600M with Radeon™ HD 7660G graphics, the 2012 AMD A8-4555M with AMD Radeon™ HD 7600G graphics, the 2013 AMD A10-5750M with AMD Radeon™ HD 8650G graphics and the 2013 AMD A8-5545M with AMD Radeon™ 8510G Graphics. All configs used 4G DDR3-1600 (Dual Channel) Memory and Windows 7 Home Premium 64-bit. RIN-3
- (6) AMD Face Login is designed as a convenient tool to help you log into Windows and many popular web sites quickly. It should not be used to protect your computer and personal information from unwanted access. Only available on upcoming AMD A10 and A8 APUs codenamed “Richland” and upcoming AMD A6 and A4 APUs codenamed “Temash.” Requires a webcam, and will only operate on PCs running Windows 7 or Windows 8 operating system and Internet Explorer version 9 or 10. Internet connection is required for website login and use of other online features.
- (7) AMD Gesture Control is designed to enable gesture recognition as a tool for controlling certain applications on your PC. Only available on upcoming AMD A10 and A8 APUs codenamed “Richland” and upcoming AMD A6 and A4 APUs codenamed “Temash.” Requires a web camera, and will only operate on PCs running Windows 7 or Windows 8 operating system. Supported Windows desktop apps include: Windows Media Player, Windows Photo Viewer, Microsoft PowerPoint and Adobe Acrobat Reader. Supported Windows Store apps include: Microsoft Photos, Microsoft Music, Microsoft Reader and Kindle. Performance may be degraded in low lighting or intensely-focused lighting environments.

\* The Company presents Adjusted EBITDA as a supplemental measure of its performance. Adjusted EBITDA for the Company is determined by adjusting operating income (loss) for depreciation and amortization, employee stock-based compensation expense and amortization of acquired intangible assets. In addition, the Company also included the following adjustments for the applicable period: for all periods presented, the Company included an adjustment for net restructuring and other special charges; for the fourth quarter of 2012, the Company also included an adjustment for the lower of cost or market charge (LCM Charge) related to GF take-or-pay obligation; and for the first quarter of 2012, the Company also included adjustments for the limited waiver of exclusivity from GF and SeaMicro acquisition costs. The Company calculates and communicates Adjusted EBITDA in the financial schedules because the Company's management believes it is of importance to investors and lenders in relation to its overall capital structure and its ability to borrow additional funds. In addition, the Company presents Adjusted EBITDA because it believes this measure assists investors in comparing its performance across reporting periods on a consistent basis by excluding items that the Company does not believe are indicative of its core operating performance. The Company's calculation of Adjusted EBITDA may or may not be consistent with the calculation of this measure by other companies in the same industry. Investors should not view Adjusted EBITDA as an alternative to the GAAP operating measure of operating income (loss) or GAAP liquidity measures of cash flows from operating, investing and financing activities. In addition, Adjusted EBITDA does not take into account changes in certain assets and liabilities as well as interest and income taxes that can affect cash flows.

\*\* The Company also presents non-GAAP free cash flow in the earnings release as a supplemental measure of its performance. Non-GAAP free cash flow is determined by adjusting GAAP net cash provided by (used in) operating activities for capital expenditures. The Company calculates and communicates non-GAAP free cash flow in the financial schedules because the Company's management believes it is of importance to investors to understand the nature of these cash flows. The Company's calculation of non-GAAP free cash flow may or may not be consistent with the calculation of this measure by other companies in the same industry. Investors should not view non-GAAP free cash flow as an alternative to GAAP liquidity measures of cash flows from operating activities. The Company has provided reconciliations within the press release and financial schedules of these non-GAAP financial measures to the most directly comparable GAAP financial measures.

## AMD Reports First Quarter 2013 Results – CFO Commentary

April 18, 2013

*Reconciliation for all non-GAAP financial measures discussed in this commentary to the most directly comparable GAAP financial measures is included below and in our financial tables that accompany our earnings press release available on [quarterlyearnings.amd.com](http://quarterlyearnings.amd.com).*

### Q1 2013 Results

- AMD revenue \$1.09 billion, down 6% sequentially and down 31% year-over-year
- Gross margin of 41%
- Operating loss of \$98 million, net loss of \$146 million, loss per share of \$0.19
- Non-GAAP operating loss of \$46 million, net loss of \$94 million, loss per share of \$0.13

### Q1 2013 Commentary

**Revenue** was \$1.09 billion, down 6% sequentially. Sequential revenue decline in the Computing Solutions segment of 9% was due to lower desktop, notebook and chipset unit shipments primarily driven by a weak consumer buying environment. Graphics segment revenue increased 3% sequentially primarily due to higher game console royalties and channel sales.

**Gross margin** was 41% and included a \$20 million benefit from sales of inventory that had been previously reserved which positively impacted gross margin by approximately 2 percentage points.

**Operating expenses** were \$543 million. **Non-GAAP operating expenses** were \$491 million, in line with previous guidance of \$495 million primarily due to continued tight spending controls in the quarter as we drive towards our operating expense goal of \$450 million per quarter by Q3 2013.

- **R&D** was \$312 million, 29% of net revenue.
- **SG&A** was \$179 million, 16% of net revenue.

To derive non-GAAP operating expenses, we excluded the impact of:

- Amortization of acquired intangible assets of \$5 million, and
- Restructuring and other special charges, net of \$47 million.
  - These other special charges primarily included a \$52 million loss associated with the sale and leaseback of the “Lone Star Campus” in Austin, Texas, partially offset by a gain from the sale and leaseback of a building in Markham, Canada.

**Non-GAAP operating loss** was \$46 million and **non-GAAP net loss** was \$94 million.

To derive non-GAAP operating loss and non-GAAP net loss, we excluded the impact of:

- Amortization of acquired intangible assets of \$5 million, and
- Restructuring and other special charges, net of \$47 million.

**Interest expense** was \$44 million, flat compared to the prior quarter.

**Tax provision** was \$2 million in the quarter, compared to \$4 million in the prior quarter.

**Non-GAAP loss per share** was \$0.13, calculated using 749 million basic shares. This includes the \$20 million benefit from sales of previously reserved products. Basic shares are used in the net loss per share calculation.

**Adjusted EBITDA** was \$40 million, up from \$30 million in the prior quarter.

#### **Q1 2013 Segment Results – Computing Solutions**

**Computing Solutions segment revenue** was \$751 million, down 9% sequentially due to lower desktop, notebook and chipset unit shipments primarily driven by a weak consumer buying environment.

- Client product revenue declined 9% sequentially primarily due to lower unit shipments in the quarter for desktop and notebook microprocessors.
- Client microprocessor ASP increased sequentially primarily due to a richer product mix at Original Equipment Manufacturers (OEMs) and in the channel.
- Server microprocessor revenue increased sequentially due to higher ASP. Server unit shipments were flat quarter-over-quarter.
- Chipset revenue declined sequentially primarily due to lower unit shipments.

AMD started shipping its next generation APU code-named “Kabini” in the quarter.

- “Kabini” targets ultrathin notebooks with exceptional battery life and offers impressive levels of performance in both dual- and quad-core options. “Kabini” is expected to deliver an increase of more than 50 percent in performance<sup>1</sup> over the previous generation of AMD essential computing APUs (codenamed “Brazos 2.0.”)

**Computing Solutions operating loss** was \$39 million, an improvement from an operating loss of \$323 million in the previous quarter, which included the impact of a GLOBALFOUNDRIES (GF) related “lower of cost or market” (LCM) charge of \$273 million.

#### **Q1 2013 Segment Results – Graphics**

**Graphics segment revenue** was \$337 million, up 3% compared to the prior quarter.

- Graphics segment revenue was up 3% sequentially due to record workstation graphics sales and higher channel and game console royalties.
- Graphics segment ASP was up compared to the prior quarter.

**Graphics segment operating income** was \$16 million, down from \$22 million from the prior quarter primarily due to lower GPU sales to OEMs.

#### **Balance Sheet**

**Cash, cash equivalents and marketable securities, including long term marketable securities** were \$1.2 billion as of the end of Q1 2013 and flat compared to the end of Q4 2012. First quarter cash was bolstered by the successful closing of a sale and leaseback transaction of the “Lone Star Campus” in Austin, Texas generating cash proceeds of approximately \$164 million, net of certain fees and expenses.

**Accounts Receivable** at the end of the quarter was \$645 million, up \$15 million compared to the end of Q4 2012.

**Inventory** was \$613 million exiting the quarter, up \$51 million compared to the end of Q4 2012 as microprocessor product inventory grew as expected in preparation of upcoming product introductions.

**Payable to GLOBALFOUNDRIES (GF)** line item on the Balance Sheet includes all amounts due to GF by AMD. AMD will make a \$40 million cash payment to GF in Q2 2013, related to the reduction of wafer purchase commitments in 2012, as provided in the Third Amendment to the Wafer Supply Agreement (WSA). The remaining balance of payments related to the wafer commitment reduction is \$200 million which will be paid in Q1 2014.

**Long-term debt and capital lease obligations, including current portion** as of the end of the quarter was \$2.04 billion, unchanged from Q4 2012.

**Net cash used by operations** was \$155 million. **Non-GAAP free cash flow** was negative \$175 million.

**Outlook**

The following statements concerning AMD are forward-looking and actual results could differ materially from current expectations. Investors are urged to review in detail the risks and uncertainties in AMD's Securities and Exchange Commission filings, including but not limited to the Annual Report on Form 10-K for the year ended December 29, 2012.

**Q2 2013 we expect:**

- Revenue to increase 2% sequentially, +/-3%.
- Operating expenses to be approximately \$480 million.
- Inventory to continue to increase sequentially in preparation for new product introductions.

**For 2013 we expect:**

- Quarterly operating expenses to be at \$450 million by third quarter of 2013.
- Capital expenditures of approximately \$150 million for the year.
- Taxes of approximately \$4 million per quarter.
- Positive Free Cash Flow by the second half of 2013.
- To maintain cash balances in the optimal zone of \$1.1 billion for the year and well above the target minimum of \$700 million.

\*\*\*\*\*

**Non-GAAP Measures:**

To supplement the Company's financial results presented on a U.S. GAAP ("GAAP") basis, this commentary contains non-GAAP financial measures, including non-GAAP gross margin, non-GAAP operating expenses, non-GAAP operating income (loss), non-GAAP net income (loss), non-GAAP earnings (loss) per share, Adjusted EBITDA, and non-GAAP free cash flow. These non-GAAP financial measures reflect certain adjustments, and the Company has presented a reconciliation of GAAP to non-GAAP financial measures in the tables below.

The Company presented "Adjusted EBITDA" in the commentary as a supplemental measure of its performance. Adjusted EBITDA for the Company is determined by adjusting operating income (loss) for depreciation and amortization, employee stock-based compensation expense and amortization of acquired intangible assets. In addition, the Company also included the following adjustments for the applicable period: for all periods presented, the Company included an adjustment for net restructuring and other special charges; for the fourth quarter of 2012, the Company included an adjustment for the lower of cost or market charge (LCM) related to GF take-or-pay obligation; and for the first quarter of 2012 the Company included adjustments for the limited waiver of exclusivity from GF and SeaMicro acquisition costs. The Company calculates and communicates Adjusted EBITDA because the Company's management believes it is of importance to investors and lenders in relation to its overall capital structure and its ability to borrow additional funds. In addition, the Company presents Adjusted EBITDA because it believes this measure assists investors in comparing its performance across reporting periods on a consistent basis by excluding items that the Company does not believe are indicative of its core operating performance. The Company's calculation of Adjusted EBITDA may or may not be consistent with the calculation of this measure by other companies in the same industry. Investors should not view Adjusted EBITDA as an alternative to the GAAP operating measure of operating income (loss) or GAAP liquidity measures of cash flows from operating, investing and financing activities. In addition, Adjusted EBITDA does not take into account changes in certain assets and liabilities as well as interest and income taxes that can affect cash flows.

The Company also presents non-GAAP free cash flow in this commentary as a supplemental measure of its performance. Non-GAAP free cash flow for the Company was determined by adjusting GAAP net cash provided by (used in) operating activities for capital expenditures. The Company calculates and communicates non-GAAP free cash flow because the Company's management believes it is of importance to investors to understand the nature of this cash flow. The Company's calculation of non-GAAP free cash flow may or may not be consistent with the calculation of this measure by other companies in the same industry. Investors should not view non-GAAP free cash flow as an alternative to GAAP liquidity measures of cash flows from operating activities. The Company has provided reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures.

The Company is providing these financial measures because it believes this non-GAAP presentation makes it easier for investors to compare its operating results for current and historical periods and also because the Company believes it assists investors in comparing the Company's performance across reporting periods on a consistent basis by excluding items that it does not believe are indicative of its core operating performance and for the other reasons described in the footnotes to the selected data tables.

### Cautionary Statement

This document contains forward-looking statements concerning AMD, our financial outlook for the second quarter of 2013 and fiscal 2013, including revenue, operating expenses, inventory, capital expenditures, and taxes; our optimal and minimum cash balance; our ability to achieve our target quarterly operating expenses by the third quarter of 2013; our ability to achieve positive free cash flow by the second half of 2013; and the features and functionalities of AMD products which are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are commonly identified by words such as “believes,” “expects,” “may,” “will,” “should,” “seeks,” “intends,” “plans,” “estimates,” “anticipates,” “projects,” “would,” and other terms with similar meaning. Investors are cautioned that the forward-looking statements in this document are based on current beliefs, assumptions and expectations, speak only as of the date of this document and involve risks and uncertainties that could cause actual results to differ materially from current expectations. Risks include the possibility that Intel Corporation’s pricing, marketing and rebating programs, product bundling, standard setting, new product introductions or other activities may negatively impact the company’s current plans; the company may be unable to develop, launch and ramp new products and technologies in the volumes that are required by the market and at mature yields on a timely basis; that its third party wafer foundry suppliers will be unable to transition the company’s products to advanced manufacturing process technologies in a timely and effective way or to manufacture the company’s products on a timely basis in sufficient quantities and using competitive technologies; the company will be unable to obtain sufficient manufacturing capacity or components to meet demand for its products; the company’s requirements for wafers are less than the fixed number of wafers that it agreed to purchase from GF or GF encounters problems that significantly reduce the number of functional die the company receives from each wafer; that the

company is unable to successfully implement its long-term business strategy; that customers stop buying the company's products or materially reduce their operations or demand for the company's products; that the company may be unable to maintain the level of investment in research and development that is required to remain competitive; that there may be unexpected variations in market growth and demand for the company's products and technologies in light of the product mix that it may have available at any particular time or a decline in demand; the company will require additional funding and may be unable to raise sufficient capital on favorable terms, or at all; that global business and economic conditions will not continue to improve or will worsen; that demand for computers will be lower than currently expected; and the effect of political or economic instability, domestically or internationally, on the company's sales or supply chain. Investors are urged to review in detail the risks and uncertainties in the company's Securities and Exchange Commission filings, including but not limited to the Annual Report on Form 10-K for the year ended December 29, 2012.

<sup>1</sup> Test conducted in AMD Performance Labs measuring productivity performance with PCMark Vantage. The "Kabini" A6 APU-based system scored 5271 while the "Brazos" APU-based system scored 2807. "Kabini" PC config is based off the "Larne" reference design with 2013 AMD A6-5200 APU with AMD Radeon HD 8400 graphics, 4G DDR3 1600, and Windows 8 64bit. "Brazos" PC config is based off the "Renmore" reference design with 2012 AMD E2-1800 APU with AMD Radeon HD 7340 graphics, 4G DDR3 1333 and Windows 7 Ultimate. KBN-3
