These forward-looking statements are based on current expectations and beliefs and involve numerous risks and uncertainties that could cause actual results to differ materially from expectations. These forward-looking statements should not be relied upon as predictions of future events as we cannot assure you that the events or circumstances reflected in these statements will be achieved or will occur. You can identify forward-looking statements by the use of forward-looking terminology including “believes,” “expects,” “may,” “will,” “should,” “seeks,” “intends,” “plans,” “pro forma,” “estimates,” “anticipates” or the negative of these words and phrases or other variations of these words and phrases or comparable terminology. The forward-looking statements relate to, among other things: demand for our products; the growth, change and competitive landscape of the markets in which we participate; the nature and extent of our future payments to GLOBALFOUNDRIES Inc. (“GF”) and the materiality of these payments; the materiality of our future purchases from GF; sales patterns of our semi-custom System-on-Chip products for game consoles; consumer PC market conditions; the success of our transformation strategy; our ability to transform our business to attain revenue from high-growth adjacent markets; the level of international sales as compared to total sales; our ability to reduce our unrecognized tax benefits over the next 12 months; that our cash, cash equivalents and marketable securities balances and our senior secured asset based line of credit will be sufficient to fund our operations including capital expenditures over the next 12 months; our ability to obtain sufficient external financing on favorable terms, or at all; our dependence on a small number of customers; our hedging strategy; and our expenditures related to environmental compliance and conflict minerals disclosure requirements. Material factors and assumptions that were applied in making these forward-looking statements include, without limitation, the following: the expected rate of market growth and demand for our products and technologies (and the mix thereof); GF’s manufacturing yields and wafer volumes; our expected market share; our expected product costs and average selling price; our overall competitive position and the competitiveness of our current and future products; our ability to introduce new products, consistent with our current roadmap; our ability to make additional investment in research and development and that such opportunities will be available; the expected demand for computers; and the state of credit markets and macroeconomic conditions. Material factors that could cause actual results to differ materially from current expectations include, without limitation, the following: that Intel Corporation’s pricing, marketing and rebating programs, product bundling, standard setting, new product introductions or other activities may negatively impact our plans; that we will require additional funding and may be unable to raise sufficient capital on favorable terms, or at all; that customers stop buying our products or materially reduce their operations or demand for our products; that we may be unable to develop, launch and

ramp new products and technologies in the volumes that are required by the market at mature yields on a timely basis; that our third-party foundry suppliers will be unable to transition our products to advanced manufacturing process technologies in a timely and effective way or to manufacture our products on a timely basis in sufficient quantities and using competitive process technologies; that we will be unable to obtain sufficient manufacturing capacity or components to meet demand for our products or will not fully utilize our projected manufacturing capacity needs at GF's microprocessor manufacturing facilities; that our requirements for wafers will be less than the fixed number of wafers that we agreed to purchase from GF or GF encounters problems that significantly reduce the number of functional die we receive from each wafer; that we are unable to successfully implement our long-term business strategy; that we inaccurately estimate the quantity or type of products that our customers will want in the future or will ultimately end up purchasing, resulting in excess or obsolete inventory; that we are unable to manage the risks related to the use of our third-party distributors and add-in-board ("AIB") partners or offer the appropriate incentives to focus them on the sale of our products; that we may be unable to maintain the level of investment in research and development that is required to remain competitive; that there may be unexpected variations in market growth and demand for our products and technologies in light of the product mix that we may have available at any particular time; that global business and economic conditions will not improve or will worsen; that PC market conditions will not improve or will worsen; that demand for computers will be lower than currently expected; and the effect of political or economic instability, domestically or internationally, on our sales or supply chain.

See "Risk factors" in this prospectus, as well as such other risks and uncertainties as are detailed in our other documents incorporated by reference in this prospectus, for a discussion of the factors that could cause actual results to differ materially from the forward-looking statements. You are cautioned not to place undue reliance on forward-looking statements, which reflect management's analysis only. We assume no obligation to update forward-looking statements.

Risk factors

An investment in our notes involves a high degree of risk. In deciding whether to exchange your private notes for exchange notes in the exchange offer, you should carefully following factors, in addition to the other information and data contained in or incorporated by reference into this prospectus. The risk factors set forth below are generally applicable to the private notes as well as the exchange notes. The risks described below are not the only risks facing us. Additional risks and uncertainties not currently known to us or those we currently deem to be immaterial may also materially and adversely affect our business, financial condition or results of operations. In such case, our ability to make payments on the notes could be impaired, the trading price of the notes could decline, and you could lose all or part of your investment.

Risks related to our business

Intel Corporation's dominance of the microprocessor market and its aggressive business practices may limit our ability to compete effectively.

Intel Corporation has dominated the market for microprocessors for many years. Intel's market share, margins and significant financial resources enable it to market its products aggressively, to target our customers and our channel partners with special incentives and to discipline customers who do business with us. These aggressive activities have in the past and are likely in the future to result in lower unit sales and a lower average selling price for our products and adversely affect our margins and profitability.

Intel exerts substantial influence over computer manufacturers and their channels of distribution through various brand and other marketing programs. As a result of Intel's dominant position in the microprocessor market, Intel has been able to control x86 microprocessor and computer system standards and benchmarks and to dictate the type of products the microprocessor market requires of us. Intel also dominates the computer system platform, which includes core logic chipsets, graphics chips, motherboards and other components necessary to assemble a computer system. OEMs that purchase microprocessors for computer systems are highly dependent on Intel, less innovative on their own and, to a large extent, are distributors of Intel technology. Additionally, Intel is able to drive de facto standards for x86 microprocessors that could cause us and other companies to have delayed access to such standards.

Intel has substantially greater financial resources than we do and accordingly spends substantially greater amounts on marketing and research and development than we do. We expect Intel to maintain its dominant position and to continue to invest heavily in marketing, research and development, new manufacturing facilities and other technology companies. To the extent Intel manufactures a significantly larger portion of its microprocessor products using more advanced process technologies, or introduces competitive new products into the market before we do, we may be more vulnerable to Intel's aggressive marketing and pricing strategies for microprocessor products. For example, Intel recently introduced microprocessors for low-cost notebooks, similar to products that we offer for low-cost notebooks.

Intel could also take actions that place our discrete GPUs at a competitive disadvantage, including giving one or more of our competitors in the graphics and visual solutions market, such as Nvidia Corporation, preferential access to its proprietary graphics interface or other useful information.

As long as Intel remains in this dominant position, we may be materially adversely affected by Intel's:

- business practices, including rebating and allocation strategies and pricing actions, designed to limit our market share and margins;
- product mix and introduction schedules;
- product bundling, marketing and merchandising strategies;
- exclusivity payments to its current and potential customers and channel partners;

Table of Contents

- control over industry standards, PC manufacturers and other PC industry participants, including motherboard, memory, chipset and BIOS suppliers and software companies as well as the graphics interface for Intel platforms; and
- marketing and advertising expenditures in support of positioning the Intel brand over the brand of its OEM customers.

Intel's dominant position in the microprocessor market and integrated graphics chipset market, its introduction of competitive new products, its existing relationships with top-tier OEMs and its aggressive marketing and pricing strategies could result in lower unit sales and a lower average selling price for our products, which could have a material adverse effect on us.

The success of our business is dependent upon our ability to introduce products on a timely basis with features and performance levels that provide value to our customers while supporting and coinciding with significant industry transitions.

Our success depends to a significant extent on the development, qualification, implementation and acceptance of new product designs and improvements that provide value to our customers. Our ability to develop, qualify and distribute, and have manufactured, new products and related technologies to meet evolving industry requirements, at prices acceptable to our customers and on a timely basis are significant factors in determining our competitiveness in our target markets. For example, form factors have increasingly shifted from desktop PCs and notebooks to tablets, and tablets have been one of the fastest growing form factors. Historically, a significant portion of our Computing Solutions revenue has been related to desktop PCs. Currently, a significant portion of our business is focused on the consumer PC portions of the market, and we believe that consumer PC market conditions will continue to remain challenging. As consumers adopt new form factors, have new product feature preferences or have different requirements than those consumers in the PC market, PC sales could be negatively impacted, which could negatively impact our business. If we fail to or are delayed in developing, qualifying or shipping new products or technologies that provide value to our customers and address these new trends or if we fail to predict which new form factors consumers will adopt, we may lose competitive positioning, which could cause us to lose market share and require us to discount the selling prices of our products. Although we make substantial investments in research and development, we cannot be certain that we will be able to develop, obtain or successfully implement new products and technologies on a timely basis.

Delays in developing, qualifying or shipping new products can also cause us to miss our customers' product design windows or, in some cases, breach contractual obligations or cause us to pay penalties. If our customers do not include our products in the initial design of their computer systems or products, they will typically not use our products in their systems or products until at least the next design configuration. The process of being qualified for inclusion in a customer's system or product can be lengthy and could cause us to further miss a cycle in the demand of end-users, which also could result in a loss of market share and harm our business.

Moreover, market demand requires that products incorporate new features and performance standards on an industry-wide basis. Over the life of a specific product, the sale price is typically reduced over time. The introduction of new products and enhancements to existing products is necessary to maintain the overall corporate average selling price. If we are unable to introduce new products with sufficiently high sale prices or to increase unit sales volumes capable of offsetting the reductions in the sale prices of existing products over time, our business could be materially adversely affected.

If we cannot generate sufficient revenue and operating cash flow or obtain external financing, we may face a cash shortfall and be unable to make all of our planned investments in research and development or other strategic investments.

Our ability to fund research and development expenditures depends on generating sufficient revenue and cash flow from operations and the availability of external financing, if necessary. Our research and development expenditures, together with ongoing operating expenses, will be a substantial drain on our cash flow and may

[Table of Contents](#)

decrease our cash balances. If new competitors, technological advances by existing competitors or other competitive factors require us to invest significantly greater resources than anticipated in our research and development efforts, our operating expenses would increase. If we are required to invest significantly greater resources than anticipated in research and development efforts without an increase in revenue, our operating results could decline.

We regularly assess markets for external financing opportunities, including debt and equity financing. Additional debt or equity financing may not be available when needed or, if available, may not be available on satisfactory terms. The health of the credit markets may adversely impact our ability to obtain financing when needed. Any downgrades from credit rating agencies such as Moody's or Standard & Poor's may adversely impact our ability to obtain external financing or the terms of such financing. In addition, credit agency downgrades or concerns regarding our credit worthiness may impact relationships with our suppliers, who may limit our credit lines. Our inability to obtain needed financing or to generate sufficient cash from operations may require us to abandon projects or curtail planned investments in research and development or other strategic initiatives. If we curtail planned investments in research and development or abandon projects, our products may fail to remain competitive and our business would be materially adversely affected.

We rely on GF to manufacture most of our microprocessor and APU products and certain of our GPU and semi-custom products. If GF is not able to satisfy our manufacturing requirements, our business could be adversely impacted.

The Wafer Supply Agreement ("WSA") governs the terms by which we purchase products manufactured by GF. Pursuant to the WSA, we are required to purchase all of our microprocessor and APU product requirements from GF with limited exceptions. If GF is unable to achieve anticipated manufacturing yields, remain competitive using or implementing advanced leading-edge process technologies needed to manufacture future generations of our products, manufacture our products on a timely basis at competitive prices or meet our capacity requirements, then we may experience delays in product launches, supply shortages for certain products or increased costs and our business could be materially adversely affected.

On March 30, 2014, we entered into a fourth amendment to the WSA with GF. The primary effect of the fourth amendment was to establish volume purchase commitments and fixed pricing for the 2014 calendar year as well as to modify certain other terms of the WSA applicable to wafers for some of our microprocessor, graphics processor and semi-custom game console products to be delivered by GF to us during the 2014 calendar year. If our requirements are less than the number of wafers that we committed to purchase, we could have excess inventory or higher inventory unit costs, both of which will adversely impact our gross margin and our results of operations.

In addition, GF has relied on Mubadala Technology Investments LLC ("Mubadala Tech"), formerly known as Advanced Technology Investment Company, for its funding needs. If Mubadala Tech fails to adequately fund GF on a timely basis, or at all, GF's ability to manufacture products for us could be materially adversely affected.

We rely on third parties to manufacture our products, and if they are unable to do so on a timely basis in sufficient quantities and using competitive technologies, our business could be materially adversely affected.

We rely on third-party wafer foundries to fabricate the silicon wafers for all of our products. We also rely on third-party manufacturers to assemble, test, mark and pack certain of our products. It is important to have reliable relationships with all of these third-party manufacturing suppliers to ensure adequate product supply to respond to customer demand.

We cannot assure you that these manufacturers or our other third-party manufacturing suppliers will be able to meet our near-term or long-term manufacturing requirements. If we experience supply constraints from our third-party manufacturing suppliers, we may be required to allocate the affected products amongst our customers,

[Table of Contents](#)

which could have a material adverse effect on our relationships with these customers and on our financial condition. In addition, if we are unable to meet customer demand due to fluctuating or late supply from our manufacturing suppliers, it could result in lost sales and have a material adverse effect on our business.

We do not have long-term commitment contracts with some of our third-party manufacturing suppliers. We obtain some of these manufacturing services on a purchase order basis and these manufacturers are not required to provide us with any specified minimum quantity of product beyond the quantities in an existing purchase order. Accordingly, we depend on these suppliers to allocate to us a portion of their manufacturing capacity sufficient to meet our needs, to produce products of acceptable quality and at acceptable manufacturing yields and to deliver those products to us on a timely basis and at acceptable prices. The manufacturers we use also fabricate wafers and assemble, test and package products for other companies, including certain of our competitors. They could choose to prioritize capacity for other users, increase the prices that they charge us on short notice or reduce or eliminate deliveries to us, which could have a material adverse effect on our business.

Other risks associated with our dependence on third-party manufacturers include limited control over delivery schedules and quality assurance, lack of capacity in periods of excess demand, misappropriation of our intellectual property, dependence on several small undercapitalized subcontractors and limited ability to manage inventory and parts. Moreover, if any of our third-party manufacturers suffer any damage to facilities, lose benefits under material agreements, experience power outages, lack sufficient capacity to manufacture our products, encounter financial difficulties, are unable to secure necessary raw materials from their suppliers or suffer any other disruption or reduction in efficiency, we may encounter supply delays or disruptions. If we are unable to secure sufficient or reliable supplies of products, our ability to meet customer demand may be adversely affected and this could materially affect our business.

If we transition the production of some of our products to new manufacturers, we may experience delayed product introductions, lower yields or poorer performance of our products. If we experience problems with product quality or are unable to secure sufficient capacity from a particular third-party manufacturer, or if we for other reasons cease utilizing one of those suppliers, we may be unable to secure an alternative supply for any specific product in a short time frame. We could experience significant delays in the shipment of our products if we are required to find alternative third-party manufacturers, which could have a material adverse effect on our business.

Failure to achieve expected manufacturing yields for our products could negatively impact our financial results.

Semiconductor manufacturing yields are a result of both product design and process technology, which is typically proprietary to the manufacturer, and low yields can result from design failures, process technology failures or a combination of both. Our third-party foundries, including GF, are responsible for the process technologies used to fabricate silicon wafers. If our third-party foundries experience manufacturing inefficiencies or encounter disruptions, errors or difficulties during production, we may fail to achieve acceptable yields or experience product delivery delays. We cannot be certain that our third-party foundries will be able to develop, obtain or successfully implement leading-edge process technologies needed to manufacture future generations of our products profitably or on a timely basis or that our competitors will not develop new technologies, products or processes earlier. Moreover, during periods when foundries are implementing new process technologies, their manufacturing facilities may not be fully productive. A substantial delay in the technology transitions to smaller process technologies could have a material adverse effect on us, particularly if our competitors transition to more cost effective technologies before us. Any decrease in manufacturing yields could result in an increase in per unit costs, which would adversely impact our gross margin and/or force us to allocate our reduced product supply amongst our customers, which could harm our relationships with our customers and reputation and materially adversely affect our business.

We may not be able to successfully implement our long-term business strategy.

We are implementing a long-term business strategy to refocus our business to address markets beyond our core PC market to the faster growing ultra low-power client, embedded, professional graphics, semi-custom and dense server markets. Currently, a significant portion of our business is focused on the consumer PC portions of the market, and we believe that the consumer PC market will continue to remain challenging. The goal of our long-term strategy is to derive approximately 50% of our revenue from high growth adjacent markets by the end of 2015. As part of our long-term business strategy, effective as of July 1, 2014, we realigned our organizational structure to create a Computing and Graphics Business Group and an Enterprise, Embedded and Semi-Custom Business Group. However, if demand for products from high growth adjacent markets is below our expectations or if we are not able to improve cost or operational efficiencies of this business model, we may not realize benefits from our long-term business strategy. Despite our efforts, we may not be able to effectively implement our strategy in a timely manner to exploit potential market opportunities, achieve the goals of our long-term business strategy or meet competitive challenges.

Moreover, our business strategy is dependent on creating products that anticipate customer requirements and emerging industry trends. For example, in our first quarter of 2014, we began sampling “Seattle,” our first 64-bit ARM server processor, and in May 2014, we announced 64-bit ARM architectural license for the development of custom high-performance cores for high-growth adjacent markets. We cannot assure you that our new strategic direction, including our efforts to address markets beyond our core PC market and our efforts to create ARM-based products will result in innovative products and technologies that provide value to our customers. In addition, we may be entering markets where current and new competitors may be able to adapt more quickly to customer requirements and emerging technologies. We cannot assure you that we will be able to compete successfully against current or new competitors who may have stronger positions in these new markets. We may face delays or disruptions in research and development efforts, or we may be required to significantly invest greater resources in research and development than anticipated.

Global economic uncertainty may adversely impact our business and operating results.

Uncertain global economic conditions have in the past and may in the future adversely impact our business. Uncertainty in the worldwide economic environment may negatively impact consumer confidence and spending causing our customers to postpone purchases. In addition, during challenging economic times, our current or potential future customers may experience cash flow problems and as a result may modify, delay or cancel plans to purchase our products. Additionally, if our customers are not successful in generating sufficient revenue or are unable to secure financing, they may not be able to pay, or may delay payment of, accounts receivable that they owe us. The risk related to our customers’ potentially defaulting on or delaying payments to us is increased because we expect that a small number of customers will continue to account for a substantial part of our revenue. Any inability of our current or potential future customers to pay us for our products may adversely affect our earnings and cash flow. Moreover, our key suppliers may reduce their output or become insolvent, thereby adversely impacting our ability to manufacture our products. In addition, uncertain economic conditions may make it more difficult for us to raise funds through borrowings or private or public sales of debt or equity securities.

We may not be able to generate sufficient cash to service our debt obligations or meet our working capital requirements.

Our ability to make payments on and to refinance our debt will depend on our financial and operating performance, which may fluctuate significantly from quarter to quarter, and is subject to prevailing economic conditions and financial, business and other factors, many of which are beyond our control. We cannot assure you that we will be able to generate cash flow or that we will be able to borrow funds, including under our Secured Revolving Line of Credit, in amounts sufficient to enable us to service our debt or to meet our working capital requirements. If we are not able to generate sufficient cash flow from operations or to borrow sufficient

[Table of Contents](#)

funds to service our debt, we may be required to sell assets or equity, reduce expenditures, refinance all or a portion of our existing debt or obtain additional financing. We cannot assure you that we will be able to refinance our debt, sell assets or equity, borrow funds under our Secured Revolving Line of Credit or borrow more funds on terms acceptable to us, if at all.

The markets in which our products are sold are highly competitive.

The markets in which our products are sold are very competitive and delivering the latest and best products to market on a timely basis is critical to achieving revenue growth. We believe that the main factors that determine our product competitiveness are timely product introductions, product quality (including enabling state of the art visual experience), power consumption (including battery life), reliability, selling price, processor clock speed, size (or form factor), cost, adherence to industry standards (and the creation of open industry standards), level of integration, software and hardware compatibility and stability and brand awareness.

We expect that competition will continue to be intense due to rapid technological changes, frequent product introductions by our competitors or new competitors of products that may provide better performance/experience or may include additional features that render our products uncompetitive. We may also face aggressive pricing by competitors, especially during challenging economic times. Some competitors may have greater access or rights to companion technologies, including interface, processor and memory technical information. With the introduction of our APU products and other competing solutions, we believe that demand for additional discrete graphic cards may decrease in the future due to both the improvement of the quality of our competitor's integrated graphics and the graphics performance of our APUs. If competitors introduce competitive new products into the market before us, demand for our products could be adversely impacted and our business could be adversely affected.

We are implementing a long-term business strategy to refocus our business to address markets beyond our core PC market to the high-growth adjacent ultra low-power client, embedded, professional graphics, semi-custom and dense server markets. However, we are entering markets with new and different competitors who may be able to adapt more quickly to customer requirements and emerging technologies. We cannot assure you that we will be able to compete successfully against current or new competitors who may have stronger positions in these new markets or superior ability to anticipate customer requirements and emerging industry trends.

The loss of a significant customer may have a material adverse effect on us.

Collectively, our top five customers accounted for approximately 60% of our net revenue in the second quarter of 2014. On a segment basis, during the second quarter of 2014, five customers accounted for approximately 56% of the net revenue of our Computing Solutions segment and five customers accounted for approximately 81% of the net revenue of our Graphics and Visual Solutions segment. We expect that a small number of customers will continue to account for a substantial part of revenues of our businesses in the future. If one of our key customers decides to stop buying our products, or if one of these customers materially reduces its operations or its demand for our products, our business would be materially adversely affected.

Our receipt of revenue from our semi-custom SoC products is dependent upon our technology being designed into third-party products and the success of those products.

The revenue that we receive from our semi-custom SoC products is in the form of non-recurring engineering fees charged to third parties for design and development services and revenue received in connection with sales of our semi-custom SoC products to these third parties. As a result, our ability to generate revenue from our semi-custom products depends on our ability to secure customers for our semi-custom design pipeline and our semi-custom SoC products being incorporated into those customer's products. Any revenue from sales of our semi-custom SoC products is directly related to sales of the third-party's products and reflective of their success in the market. Moreover, we have no control over the marketing efforts of these third parties, and we cannot make any

[Table of Contents](#)

assurances that sales of their products will be successful in current or future years. Consequently, the semi-custom SoC product revenue expected by us may not be fully realized and our operating results may be adversely affected.

The demand for our products depends in part on the market conditions in the industries into which they are sold. Fluctuations in demand for our products or a market decline in any of these industries could have a material adverse effect on our results of operations.

A significant portion of our business is currently dependent upon the market for desktop PCs and notebooks. Form factors have increasingly shifted from desktop PCs and notebooks to tablets, with tablets being one of the fastest growing form factors. Historically, a significant portion of our Computing Solutions revenue has been related to desktop PCs. Currently, a significant portion of our business is focused on the consumer PC portions of the market, and we believe that consumer PC market conditions will continue to remain challenging. Industry-wide fluctuations in the computer marketplace have materially adversely affected us in the past and may materially adversely affect us in the future. The success of our semi-custom SoC products is dependent on securing customers for our semi-custom design pipeline and consumer market conditions, including the success of the Sony PlayStation®4 and Microsoft Xbox One game console systems.

Our ability to design and introduce new products in a timely manner is dependent upon third-party intellectual property.

In the design and development of new products and product enhancements, we rely on third-party intellectual property such as software development tools and hardware testing tools. Furthermore, certain product features may rely on intellectual property acquired from third parties. The design requirements necessary to meet consumer demand for more features and greater functionality from semiconductor products may exceed the capabilities of the third-party intellectual property or development tools available to us. If the third-party intellectual property that we use becomes unavailable, is not available in the time frame or price point needed for our new products or fails to produce designs that meet customer demands, our business could be materially adversely affected.

We depend on third-party companies for the design, manufacture and supply of motherboards, BIOS software and other computer platform components to support our microprocessor and graphics businesses.

We depend on third-party companies for the design, manufacture and supply of motherboards, BIOS software and other components that our customers utilize to support our microprocessor, GPU and APU offerings. We also rely on our AIBs to support our GPU and APU businesses. In addition, our microprocessors are not designed to function with motherboards and chipsets designed to work with Intel microprocessors. If the designers, manufacturers, AIBs and suppliers of motherboards and other components decrease their support for our product offerings, our business could be materially adversely affected.

If we lose Microsoft Corporation's support for our products or other software vendors do not design and develop software to run on our products, our ability to sell our products could be materially adversely affected.

Our ability to innovate beyond the x86 instruction set controlled by Intel depends partially on Microsoft designing and developing its operating systems to run on or support our x86-based microprocessor products. With respect to our graphics products, we depend in part on Microsoft to design and develop its operating system to run on or support our graphics products. Similarly, the success of our products in the market, such as our APU products, is dependent on independent software providers designing and developing software to run on our products. If Microsoft does not continue to design and develop its operating systems so that they work with our x86 instruction sets or does not continue to develop and maintain their operating systems to support our graphics products, independent software providers may forego designing their software applications to take advantage of our innovations and customers may not purchase PCs with our products. In addition, some software drivers sold

[Table of Contents](#)

with our products are certified by Microsoft. If Microsoft did not certify a driver, or if we otherwise fail to retain the support of Microsoft or other software vendors, our ability to market our products would be materially adversely affected.

We may incur future impairments of goodwill.

We perform our annual goodwill impairment analysis as of the first day of the fourth quarter of each year. Subsequent to our annual goodwill impairment analysis, we monitor for any events or changes in circumstances, such as significant adverse changes in business climate or operating results, changes in management's business strategy, an inability to successfully introduce new products in the marketplace, an inability to successfully achieve internal forecasts or significant declines in our stock price, which may represent an indicator of impairment. The occurrence of any of these events may require us to record future goodwill impairment charges.

Our inability to continue to attract and retain qualified personnel may hinder our product development programs.

Much of our future success depends upon the continued service of numerous qualified engineering, marketing, sales and executive personnel. If we are not able to continue to attract, train and retain qualified personnel necessary for our business, the progress of our product development programs could be hindered, and we could be materially adversely affected. To help attract, retain and motivate qualified personnel, we use share-based incentive awards such as employee stock options and non-vested share units (restricted stock units). If the value of such stock awards does not appreciate as measured by the performance of the price of our common stock, or if our share-based compensation otherwise ceases to be viewed as a valuable benefit, our ability to attract, retain and motivate personnel could be weakened, which could harm our results of operations. In addition, our recent and any future restructuring plans may adversely impact our ability to attract and retain key employees.

The semiconductor industry is highly cyclical and has experienced severe downturns that have materially adversely affected, and may continue to materially adversely affect, our business in the future.

The semiconductor industry is highly cyclical and has experienced significant downturns, often in conjunction with constant and rapid technological change, wide fluctuations in supply and demand, continuous new product introductions, price erosion and declines in general economic conditions. We have incurred substantial losses in recent downturns, due to:

- substantial declines in average selling prices;
- the cyclical nature of supply/demand imbalances in the semiconductor industry;
- a decline in demand for end-user products (such as PCs) that incorporate our products; and
- excess inventory levels.

Industry-wide fluctuations in the computer marketplace have materially adversely affected us in the past and may materially adversely affect us in the future. Currently, a significant portion of our business is focused on the consumer PC portions of the market, and we believe that consumer PC market conditions will continue to remain challenging.

Global economic uncertainty and weakness have also impacted the semiconductor market as consumers and businesses have deferred purchases, which negatively impacted demand for our products. Our financial performance has been, and may in the future be, negatively affected by these downturns.

The growth of our business is also dependent on continued demand for our products from high-growth adjacent emerging global markets. Our ability to be successful in such markets depends in part on our ability to establish adequate local infrastructure, as well as our ability to cultivate and maintain local relationships in these markets. If demand from these markets is below our expectations, sales of our products may decrease, which would have a material adverse effect on us.

[Table of Contents](#)

Our operating results are subject to quarterly and seasonal sales patterns.

A substantial portion of our quarterly sales have historically been made in the last month of the quarter. This uneven sales pattern makes prediction of revenues for each financial period difficult and increases the risk of unanticipated variations in quarterly results and financial condition. In addition, our operating results tend to vary seasonally. For example, historically, first quarter PC product sales are generally lower than fourth quarter sales. In addition, with respect to our semi-custom SoC products for game consoles, we expect sales patterns to follow the seasonal trends of a consumer business with sales in the first half of the year being lower than sales in the second half of the year. Many of the factors that create and affect quarterly and seasonal trends are beyond our control.

If essential equipment or materials are not available to manufacture our products, we could be materially adversely affected.

We purchase equipment and materials for our internal back-end manufacturing operations from a number of suppliers and our operations depend upon obtaining deliveries of adequate supplies of equipment and materials on a timely basis. Our third-party suppliers also depend on the same timely delivery of adequate quantities of equipment and materials in the manufacture of our products. Certain equipment and materials that are used in the manufacture of our products are available only from a limited number of suppliers, or in some cases, a sole supplier. We also depend on a limited number of suppliers to provide the majority of certain types of integrated circuit packages for our microprocessors, including our APU products. Similarly, certain non-proprietary materials or components such as memory, printed circuit boards (“PCBs”), substrates and capacitors used in the manufacture of our products are currently available from only a limited number of sources. Because some of the equipment and materials that we and our third-party manufacturing suppliers purchase are complex, it is sometimes difficult to substitute one supplier for another.

From time to time, suppliers may extend lead times, limit supply or increase prices due to capacity constraints or other factors. Also, some of these materials and components may be subject to rapid changes in price and availability. Interruption of supply or increased demand in the industry could cause shortages and price increases in various essential materials. Dependence on a sole supplier or a limited number of suppliers exacerbates these risks. If we are unable to procure certain of these materials for our back-end manufacturing operations, or our third-party foundries or manufacturing suppliers are unable to procure materials for manufacturing our products, our business would be materially adversely affected.

If our products are not compatible with some or all industry-standard software and hardware, we could be materially adversely affected.

Our products may not be fully compatible with some or all industry-standard software and hardware. Further, we may be unsuccessful in correcting any such compatibility problems in a timely manner. If our customers are unable to achieve compatibility with software or hardware, we could be materially adversely affected. In addition, the mere announcement of an incompatibility problem relating to our products could have a material adverse effect on our business.

Costs related to defective products could have a material adverse effect on us.

Products as complex as those we offer may contain defects or failures when first introduced or when new versions or enhancements to existing products are released. We cannot assure you that, despite our testing procedures, errors will not be found in new products or releases after commencement of commercial shipments in the future, which could result in loss of or delay in market acceptance of our products, material recall and replacement costs, delay in recognition or loss of revenues, writing down the inventory of defective products, the diversion of the attention of our engineering personnel from product development efforts, defending against litigation related to defective products or related property damage or personal injury and damage to our reputation in the industry and could adversely affect our relationships with our customers. In addition, we may

[Table of Contents](#)

have difficulty identifying the end customers of the defective products in the field. As a result, we could incur substantial costs to implement modifications to correct defects. Any of these problems could materially adversely affect our business. We could be subject to potential product liability claims if one of our products causes, or merely appears to have caused, an injury. Claims may be made by consumers or others selling our products, and we may be subject to claims against us even if an alleged injury is due to the actions of others. A product liability claim, recall or other claim with respect to uninsured liabilities or for amounts in excess of insured liabilities could have a material adverse effect on our business.

If we fail to maintain the efficiency of our supply chain as we respond to changes in customer demand for our products, our business could be materially adversely affected.

Our ability to meet customer demand for our products depends, in part, on our ability to deliver the products our customers want on a timely basis. Accordingly, we rely on our supply chain for the manufacturing, distribution and fulfillment of our products. As we continue to grow our business, expand to high-growth adjacent markets, acquire new customers and strengthen relationships with existing customers, the efficiency of our supply chain will become increasingly important because many of our customers tend to have specific requirements for particular products, and specific time-frames in which they require delivery of these products. If we are unable to consistently deliver the right products to our customers on a timely basis in the right locations, our customers may reduce the quantities they order from us, which could have a material adverse effect on our business.

We outsource to third parties certain supply-chain logistics functions, including portions of our product distribution, transportation management and information technology support services.

We rely on third-party providers to operate our regional product distribution centers and to manage the transportation of our work-in-process and finished products among our facilities, to our manufacturing suppliers and to our customers. In addition, we rely on third parties to provide certain information technology services to us, including help desk support, desktop application services, business and software support applications, server and storage administration, data center operations, database administration and voice, video and remote access. We cannot guarantee that these providers will fulfill their respective responsibilities in a timely manner in accordance with the contract terms, in which case our internal operations and the distribution of our products to our customers could be materially adversely affected. Also, we cannot guarantee that our contracts with these third-party providers will be renewed, in which case we would have to transition these functions in-house or secure new providers, which could have a material adverse effect on our business if the transition is not executed appropriately.

Our business is dependent upon the proper functioning of our internal business processes and information systems and modification or interruption of such systems may disrupt our business, processes and internal controls.

We rely upon a number of internal business processes and information systems to support key business functions, and the efficient operation of these processes and systems is critical to our business. Our business processes and information systems need to be sufficiently scalable to support the growth of our business and may require modifications or upgrades that expose us to a number of operational risks. We are currently pursuing initiatives to transform and optimize our business operations through the reengineering of certain processes, investment in automation and engagement of strategic partners or resources to assist with certain business functions. These changes may be costly and disruptive to our operations and could impose substantial demands on management time.

These changes may also require changes in our information systems, modification of internal control procedures and significant training of employees and third-party resources. We are currently implementing an initiative to transition certain key information technology applications and business systems from various development locations to centralized consolidated data centers. There can be no assurance that our business and operations

[Table of Contents](#)

will not experience any disruption in connection with this transition. Our information technology systems, and those of third-party information technology providers or business partners, may also be vulnerable to damage or disruption caused by circumstances beyond our control including catastrophic events, power anomalies or outages, natural disasters, viruses or malware, and computer system or network failures. There can be no assurance that our business systems or those of our third-party business partners would not be subject to similar incidents, including cyber-security incidents, exposing us to significant cost, reputational harm and disruption or damage to our business.

Data breaches and cyber-attacks could compromise our intellectual property or other sensitive information and cause significant damage to our business and reputation.

In the ordinary course of our business, we maintain sensitive data on our networks, including our intellectual property and proprietary or confidential business information relating to our business and that of our customers and business partners. The secure maintenance of this information is critical to our business and reputation. We believe that companies in the technology industry have been increasingly subject to a wide variety of security incidents, cyber-attacks and other attempts to gain unauthorized access. Our network and storage applications may be subject to unauthorized access by hackers or breached due to operator error, malfeasance or other system disruptions. In some cases, it is difficult to anticipate or immediately detect such incidents and the damage caused thereby. These data breaches and any unauthorized access or disclosure of our information or intellectual property could compromise our intellectual property and expose sensitive business information. Cyber-attacks could also cause us to incur significant remediation costs, disrupt key business operations and divert attention of management and key information technology resources. These incidents could also subject us to liability, expose us to significant expense and cause significant harm to our reputation and business.

Uncertainties involving the ordering and shipment of our products could materially adversely affect us.

We typically sell our products pursuant to individual purchase orders. We generally do not have long-term supply arrangements with our customers or minimum purchase requirements except that orders generally must be for standard pack quantities. Generally, our customers may cancel orders for standard products more than 30 days prior to shipment without incurring significant fees. We base our inventory levels in part on customers' estimates of demand for their products, which may not accurately predict the quantity or type of our products that our customers will want in the future or ultimately end up purchasing. Our ability to forecast demand is even further complicated when we sell indirectly through distributors, as our forecasts for demand are then based on estimates provided by multiple parties.

PC and consumer markets are characterized by short product lifecycles, which can lead to rapid obsolescence and price erosion. In addition, our customers may change their inventory practices on short notice for any reason. We may build inventories during periods of anticipated growth, and the cancellation or deferral of product orders or overproduction due to failure of anticipated orders to materialize, could result in excess or obsolete inventory, which could result in write-downs of inventory and an adverse effect on gross margins.

Factors that may result in excess or obsolete inventory, which could result in write-downs of the value of our inventory, a reduction in the average selling price or a reduction in our gross margin include:

- a sudden or significant decrease in demand for our products;
- a production or design defect in our products;
- a higher incidence of inventory obsolescence because of rapidly changing technology and customer requirements;
- a failure to accurately estimate customer demand for our products, including for our older products as our new products are introduced; or
- our competitors taking aggressive pricing actions.

[Table of Contents](#)

Because market conditions are uncertain and because we believe that consumer PC market conditions will continue to remain challenging, these and other factors could materially adversely affect our business.

Our reliance on third-party distributors and AIB partners subjects us to certain risks.

We market and sell our products directly and through third-party distributors and AIB partners pursuant to agreements that can generally be terminated for convenience by either party upon prior notice to the other party. These agreements are non-exclusive and permit both our distributors and AIBs to offer our competitors' products. We are dependent on our distributors and AIBs to supplement our direct marketing and sales efforts. If any significant distributor or AIB or a substantial number of our distributors or AIBs terminated their relationship with us, decided to market our competitors' products over our products or decided not to market our products at all, our ability to bring our products to market would be impacted and we would be materially adversely affected. If we are unable to manage the risks related to the use of our third-party distributors and AIB partners or offer the appropriate incentives to focus them on the sale of our products, our business could be materially adversely affected.

Additionally, distributors and AIBs typically maintain an inventory of our products. In most instances, our agreements with distributors protect their inventory of our products against price reductions, as well as provide return rights for any product that we have removed from our price book and that is not more than 12 months older than the manufacturing code date. Some agreements with our distributors also contain standard stock rotation provisions permitting limited levels of product returns. Our agreements with AIBs protect their inventory of our products against price reductions. We defer the gross margins on our sales to distributors and AIBs, resulting from both our deferral of revenue and related product costs, until the applicable products are re-sold by the distributors or the AIBs. However, in the event of a significant decline in the price of our products, the price protection rights we offer would materially adversely affect us because our revenue and corresponding gross margin would decline.

Acquisitions could disrupt our business, harm our financial condition and operating results or dilute, or adversely affect the price of, our common stock.

Our success will depend, in part, on our ability to expand our product offerings and grow our business in response to changing technologies, customer demands and competitive pressures. In some circumstances, we may pursue growth through the acquisition of complementary businesses, solutions or technologies rather than through internal development. The identification of suitable acquisition candidates can be difficult, time-consuming and costly, and we may not be able to successfully complete identified acquisitions. Moreover, if such acquisitions require us to seek additional debt or equity financing, we may not be able to obtain such financing on terms favorable to us or at all. Even if we successfully complete an acquisition, we may not be able to assimilate and integrate effectively or efficiently the acquired business, technologies, solutions, assets, personnel or operations, particularly if key personnel of the acquired company decide not to work for us. Acquisitions may also involve the entry into geographic or business markets in which we have little or no prior experience. Consequently, we may not achieve anticipated benefits of the acquisitions which could harm our operating results. In addition, to complete an acquisition, we may issue equity securities, which would dilute our stockholders' ownership and could adversely affect the price of our common stock, as well as incur debt, assume contingent liabilities or have amortization expenses and write-downs of acquired assets, which could adversely affect our results of operations. Acquisitions may also reduce our cash available for operations and other uses, which could harm our business.

Our worldwide operations are subject to political, legal and economic risks and natural disasters, which could have a material adverse effect on us.

We maintain operations around the world, including in the United States, Canada, Europe and Asia. We rely on third-party wafer foundries in Europe and Asia. Nearly all product assembly and final testing of our products is performed at manufacturing facilities, operated by us as well as third-party manufacturing facilities, in China,

[Table of Contents](#)

Malaysia and Taiwan. We also have international sales operations. International sales, as a percent of net revenue, were 82% in the second quarter of 2014. We expect that international sales will continue to be a significant portion of total sales in the foreseeable future.

The political, legal and economic risks associated with our operations in foreign countries include, without limitation:

- expropriation;
- changes in a specific country's or region's political or economic conditions;
- changes in tax laws, trade protection measures and import or export licensing requirements;
- difficulties in protecting our intellectual property;
- difficulties in managing staffing and exposure to different employment practices and labor laws;
- changes in foreign currency exchange rates;
- restrictions on transfers of funds and other assets of our subsidiaries between jurisdictions;
- changes in freight and interest rates;
- disruption in air transportation between the United States and our overseas facilities;
- loss or modification of exemptions for taxes and tariffs; and
- compliance with U.S. laws and regulations related to international operations, including export control and economic sanctions laws and regulations and the Foreign Corrupt Practices Act.

In addition, our worldwide operations (or those of our business partners) could be subject to natural disasters such as earthquakes, tsunamis, flooding, typhoons and volcanic eruptions that disrupt manufacturing or other operations. For example, our Sunnyvale operations are located near major earthquake fault lines in California. Any conflict or uncertainty in the countries in which we operate, including public health issues (for example, an outbreak of a contagious disease such as Avian Influenza), safety issues, natural disasters, fire, disruptions of service from utilities, nuclear power plant accidents or general economic or political factors, could have a material adverse effect on our business. Any of the above risks, should they occur, could result in an increase in the cost of components, production delays, general business interruptions, delays from difficulties in obtaining export licenses for certain technology, tariffs and other barriers and restrictions, longer payment cycles, increased taxes, restrictions on the repatriation of funds and the burdens of complying with a variety of foreign laws, any of which could ultimately have a material adverse effect on our business.

Worldwide political conditions may adversely affect demand for our products. Worldwide political conditions may create uncertainties that could adversely affect our business. The United States has been and may continue to be involved in armed conflicts that could have a further impact on our sales and our supply chain. The consequences of armed conflict, political instability or civil or military unrest are unpredictable, and we may not be able to foresee events that could have a material adverse effect on us. Terrorist attacks or other hostile acts may negatively affect our operations, or adversely affect demand for our products, and such attacks or related armed conflicts may impact our physical facilities or those of our suppliers or customers. Furthermore, these attacks or hostile acts may make travel and the transportation of our products more difficult and more expensive, which could materially adversely affect us. Any of these events could cause consumer spending to decrease or result in increased volatility in the United States economy and worldwide financial markets.

Unfavorable currency exchange rate fluctuations could adversely affect us.

We have costs, assets and liabilities that are denominated in foreign currencies, primarily the Canadian dollar and Chinese renminbi. As a consequence, movements in exchange rates could cause our foreign currency denominated expenses to increase as a percentage of revenue, affecting our profitability and cash flows.

[Table of Contents](#)

Whenever we believe appropriate, we hedge a portion of our short-term foreign currency exposure to protect against fluctuations in currency exchange rates. We determine our total foreign currency exposure using projections of long-term expenditures for items such as payroll. We cannot assure you that these activities will be effective in reducing foreign exchange rate exposure. Failure to do so could have an adverse effect on our business, financial condition, results of operations and cash flow. In addition, the majority of our product sales are denominated in U.S. dollars. Fluctuations in the exchange rate between the U.S. dollar and the local currency can cause increases or decreases in the cost of our products in the local currency of such customers. An appreciation of the U.S. dollar relative to the local currency could reduce sales of our products.

Our inability to effectively control the sales of our products on the gray market could have a material adverse effect on us.

We market and sell our products directly to OEMs and through authorized third-party distributors. From time to time, our products are diverted from our authorized distribution channels and are sold on the “gray market.” Gray market products result in shadow inventory that is not visible to us, thus making it difficult to forecast demand accurately. Also, when gray market products enter the market, we and our distribution channels compete with these heavily discounted gray market products, which adversely affects demand for our products and negatively impact our margins. In addition, our inability to control gray market activities could result in customer satisfaction issues because any time products are purchased outside our authorized distribution channels there is a risk that our customers are buying counterfeit or substandard products, including products that may have been altered, mishandled or damaged, or are used products represented as new.

If we cannot adequately protect our technology or other intellectual property in the United States and abroad, through patents, copyrights, trade secrets, trademarks and other measures, we may lose a competitive advantage and incur significant expenses.

We rely on a combination of protections provided by contracts, including confidentiality and nondisclosure agreements, copyrights, patents, trademarks and common law rights, such as trade secrets, to protect our intellectual property. However, we cannot assure you that we will be able to adequately protect our technology or other intellectual property from third-party infringement or from misappropriation in the United States and abroad. Any patent licensed by us or issued to us could be challenged, invalidated or circumvented or rights granted there under may not provide a competitive advantage to us. Furthermore, patent applications that we file may not result in issuance of a patent or, if a patent is issued, the patent may not be issued in a form that is advantageous to us. Despite our efforts to protect our intellectual property rights, others may independently develop similar products, duplicate our products or design around our patents and other rights. In addition, it is difficult to monitor compliance with, and enforce, our intellectual property on a worldwide basis in a cost-effective manner. In jurisdictions where foreign laws provide less intellectual property protection than afforded in the United States and abroad, our technology or other intellectual property may be compromised, and our business would be materially adversely affected.

We are party to litigation and may become a party to other claims or litigation that could cause us to incur substantial costs or pay substantial damages or prohibit us from selling our products.

From time to time, we are a defendant or plaintiff in various legal actions. For example, on January 15, 2014 and March 20, 2014, complaints were filed against us seeking damages for alleged securities law violations, which are described in Note 10 of our unaudited condensed consolidated financial statements in our Quarterly Report on Form 10-Q for the quarterly period ended June 28, 2014. We also sell products to consumers, which could increase our exposure to consumer actions such as product liability claims. On occasion, we receive claims that individuals were allegedly exposed to substances used in our former semiconductor wafer manufacturing facilities and that this alleged exposure caused harm. Litigation can involve complex factual and legal questions, and its outcome is uncertain. Any claim that is successfully asserted against us, including claims in the January 15, 2014 and March 20, 2014 complaints filed against us, may result in the payment of damages that could be material to our business.

[Table of Contents](#)

With respect to intellectual property litigation, from time to time, we have been notified of, or third parties may bring or have brought, actions against us and/or against our customers based on allegations that we are infringing the intellectual property rights of others, contributing to or inducing the infringement of the intellectual property rights of others or otherwise improperly using the intellectual property of others. If any such claims are asserted, we may seek to obtain a license under the third parties' intellectual property rights. We cannot assure you that we will be able to obtain all of the necessary licenses on satisfactory terms, if at all. In the event that we do not obtain a license, these parties may file lawsuits against us or our customers seeking damages (potentially up to and including treble damages) or an injunction against the sale of products that incorporate allegedly infringed intellectual property or against the operation of our business as presently conducted, which could result in our having to stop the sale of some of our products or to increase the costs of selling some of our products or which could damage our reputation. The award of damages, including material royalty payments, or the entry of an injunction against the manufacture and sale of some or all of our products could have a material adverse effect on us. We could decide, in the alternative, to redesign our products or to resort to litigation to challenge such claims. Such challenges could be extremely expensive and time-consuming regardless of their merit, could cause delays in product release or shipment and/or could have a material adverse effect on us. We cannot assure you that litigation related to our intellectual property rights or the intellectual property rights of others can always be avoided or successfully concluded.

Even if we were to prevail, any litigation could be costly and time-consuming and would divert the attention of our management and key personnel from our business operations, which could have a material adverse effect on us.

A variety of environmental laws that we are subject to could result in additional costs and liabilities.

Our operations and properties have in the past and continue to be subject to various United States and foreign environmental laws and regulations, including those relating to materials used in our products and manufacturing processes, discharge of pollutants into the environment, the treatment, transport, storage and disposal of solid and hazardous wastes and remediation of contamination. These laws and regulations require us to obtain permits for our operations, including the discharge of air pollutants and wastewater. Although our management systems are designed to maintain compliance, we cannot assure you that we have been or will be at all times in complete compliance with such laws, regulations and permits. If we violate or fail to comply with any of them, a range of consequences could result, including fines, suspension of production, alteration of manufacturing processes, import/export restrictions, sales limitations, criminal and civil liabilities or other sanctions. We could also be held liable for any and all consequences arising out of exposure to hazardous materials used, stored, released, disposed of by us or located at, under or emanating from our facilities or other environmental or natural resource damage.

Certain environmental laws, including the U.S. Comprehensive, Environmental Response, Compensation and Liability Act of 1980, or the Superfund Act, impose strict or, under certain circumstances, joint and several liability on current and previous owners or operators of real property for the cost of removal or remediation of hazardous substances and impose liability for damages to natural resources. These laws often impose liability even if the owner or operator did not know of, or was not responsible for, the release of such hazardous substances. These environmental laws also assess liability on persons who arrange for hazardous substances to be sent to disposal or treatment facilities when such facilities are found to be contaminated. Such persons can be responsible for cleanup costs even if they never owned or operated the contaminated facility. We have been named as a responsible party at three Superfund sites in Sunnyvale, California. Although we have not yet been, we could be named a potentially responsible party at other Superfund or contaminated sites in the future. In addition, contamination that has not yet been identified could exist at our other facilities.

Environmental laws are complex, change frequently and have tended to become more stringent over time. For example, the EU and China are two among a growing number of jurisdictions that have enacted restrictions on the use of lead and other materials in electronic products. These regulations affect semiconductor devices and

[Table of Contents](#)

packaging. As regulations restricting materials in electronic products continue to increase around the world, there is a risk that the cost, quality and manufacturing yields of products that are subject to these restrictions, may be less favorable compared to products that are not subject to such restrictions, or that the transition to compliant products may produce sudden changes in demand, which may result in excess inventory.

Recent U.S. legislation includes disclosure and reporting requirements for companies who use “conflict” minerals that originate from the Democratic Republic of Congo or adjoining countries. We will likely incur additional costs associated with complying with these requirements, such as costs related to determining the source of any conflict minerals used in our products, auditing the process and reporting to our customers and the U.S. government. Also, since our supply chain is complex, we may face reputational challenges if we are unable to sufficiently verify the origins of the subject minerals. Moreover, we are likely to encounter challenges to satisfy those customers who require that all of the components of our products are certified as “conflict free,” and if we cannot satisfy these customers, they may choose a competitor’s products. In May 2014, Intel reported that all of its client microprocessor and chipset products are “conflict free.”

A number of jurisdictions including the EU, Australia and China are developing or have finalized market entry or public procurement regulations for computers and servers based on ENERGY STAR specifications as well as additional energy consumption limits. There is the potential for certain of our products being excluded from some of these markets which could materially adversely affect us.

While we have budgeted for foreseeable associated expenditures, we cannot assure you that future environmental legal requirements will not become more stringent or costly in the future. Therefore, we cannot assure you that our costs of complying with current and future environmental and health and safety laws, and our liabilities arising from past and future releases of, or exposure to, hazardous substances will not have a material adverse effect on us.

Our business is subject to potential tax liabilities.

We are subject to income taxes in the United States, Canada and other foreign jurisdictions. Significant judgment is required in determining our worldwide provision for income taxes. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. Although we believe our tax estimates are reasonable, we cannot assure you that the final determination of any tax audits and litigation will not be materially different from that which is reflected in historical income tax provisions and accruals. Should additional taxes be assessed as a result of an audit or litigation, there could be a material adverse effect on our cash, income tax provision and net income in the period or periods for which that determination is made.

Risks related to the notes

If you do not exchange your private notes pursuant to this exchange offer, you may never be able to sell your notes.

It may be difficult for you to sell notes that are not exchanged in the exchange offer. Those notes may not be offered or sold unless they are registered or there are exemptions from the registration requirements under the Securities Act and applicable state securities laws.

If you do not tender your private notes or if we do not accept some of your private notes, those notes will continue to be subject to the transfer and exchange restrictions in:

- the Indentures;
- the legend on the private notes; and
- the offering memorandums relating to the private notes.

[Table of Contents](#)

The restrictions on transfer of your private notes arise because we issued the private notes pursuant to an exemption from the registration requirements of the Securities Act and applicable state securities laws. In general, you may only offer or sell the private notes if they are registered under the Securities Act and applicable state securities laws, or offered and sold pursuant to an exemption from such requirements. We do not intend to register the private notes under the Securities Act. To the extent private notes are tendered and accepted in the exchange offer, the trading market, if any, for the private notes would be adversely affected.

We have a substantial amount of indebtedness which could adversely affect our financial position and prevent us from implementing our strategy or fulfilling our obligations under the notes and our other contractual obligations.

We currently have, and following this exchange offer will continue to have, a substantial amount of indebtedness. Our debt and capital lease obligations as of June 28, 2014 were approximately \$2.2 billion, which reflects the debt discount adjustment on our 6.00% Convertible Senior Notes due 2015 (the "6.00% Notes"). As of June 28, 2014, we had consolidated debt of approximately \$2.2 billion (\$2.2 billion principal amount), and up to \$445 million of unused commitments under our Secured Revolving Line of Credit.

Our substantial indebtedness may:

- make it difficult for us to satisfy our financial obligations, including making scheduled principal and interest payments;
- limit our ability to borrow additional funds for working capital, capital expenditures, acquisitions and general corporate and other purposes;
- limit our ability to use our cash flow or obtain additional financing for future working capital, capital expenditures, acquisitions or other general corporate purposes;
- require us to use a substantial portion of our cash flow from operations to make debt service payments;
- place us at a competitive disadvantage compared to our less leveraged competitors; and
- increase our vulnerability to the impact of adverse economic and industry conditions.

The notes are unsecured and effectively subordinated to our existing and future secured indebtedness.

The notes are unsecured obligations, ranking effectively junior in right of payment to all of our existing and future secured debt, including amounts outstanding or available to borrow under our Secured Revolving Line of Credit. The Indentures permit the incurrence of additional debt, some of which may be secured. In the event that we are declared bankrupt, become insolvent or are liquidated or reorganized, any secured indebtedness will be entitled to be paid in full to the extent of the assets securing such debt before any payment is made with respect to the notes. As a result, holders of the notes may receive less from our assets, ratably, than holders of our secured indebtedness. As of June 28, 2014, after giving effect to this exchange, we would have had \$69 million total secured debt, which includes \$14 million of our subsidiaries' capital lease obligations and \$55 million of borrowings under our Secured Revolving Line of Credit. In addition, as of June 28, 2014, we had up to \$445 million of unused commitments under our Secured Revolving Line of Credit.

The notes are structurally subordinated to all indebtedness and other liabilities, including trade payables, of our subsidiaries.

We conduct a substantial portion of our operations, including our international operations, through our subsidiaries. In the event of our bankruptcy or the bankruptcy of any of our subsidiaries, the holders of their liabilities, indebtedness and trades payables will generally be entitled to payment of their claim from the assets of the affected subsidiaries before those assets are made available for distribution to us. As a result, the claims of holders of the notes will rank effectively junior to the claims of all of the creditors of our subsidiaries, including

[Table of Contents](#)

trade creditors and holders of debt guaranteed by such subsidiaries. As of June 28, 2014, our subsidiaries had \$14 million of indebtedness outstanding, which consisted of our subsidiaries' capital lease obligations. If any indebtedness of our subsidiaries were to be accelerated, we cannot assure you that the assets of such subsidiaries remaining after payment of such indebtedness and other liabilities would be sufficient to repay our indebtedness in full, including the notes. In addition, the indentures governing the exchange notes permit, subject to certain limitations, our subsidiaries to incur additional indebtedness and does not contain any limitation on the amount of other liabilities, such as trade payables, that may be incurred by these subsidiaries.

We and our subsidiaries may be able to incur substantially more debt, including secured debt, in the future.

We and our subsidiaries may incur significant additional debt, including secured debt, in the future. Although the indentures governing the exchange notes contains restrictions on the incurrence of additional debt, these restrictions are subject to a number of important exceptions, and debt incurred in compliance with these restrictions could be substantial. The additional debt that we and our subsidiaries expect to obtain in the future could intensify the risk that we may not be able to fulfill our obligations under the notes.

We may not be able to generate sufficient cash to service our debt obligations, including our obligations under the notes.

Our ability to make payments on and to refinance our debt will depend on our financial and operating performance, which may fluctuate significantly from quarter to quarter, and is subject to prevailing economic conditions and financial, business and other factors, many of which are beyond our control. We cannot assure you that we will be able to generate cash flow or that we will be able to borrow funds, including under our Secured Revolving Line of Credit, in amounts sufficient to enable us to service our debt or to meet our working capital requirements. If we are not able to generate sufficient cash flow from operations or to borrow sufficient funds to service our debt, we may be required to sell assets or equity, reduce expenditures, refinance all or a portion of our existing debt or obtain additional financing. We cannot assure you that we will be able to refinance our debt, sell assets or equity, borrow funds under our Secured Revolving Line of Credit or borrow more funds on terms acceptable to us, if at all.

Changes in the financial and credit markets or in our credit ratings could adversely affect the market prices of the notes.

The future market prices of the notes will depend on a number of factors, including:

- the prevailing interest rates being paid by companies similar to us;
- our ratings with major credit rating agencies; and
- the overall condition of the financial and credit markets.

The condition of the financial and credit markets and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future. Fluctuations in these factors could have an adverse effect on the market prices of the notes. In addition, credit rating agencies continually revise their ratings for companies that they follow, including us. Credit ratings are not recommendations to purchase, hold or sell the notes. We cannot assure you that any credit rating agencies that rate the notes will maintain their ratings on the notes. A negative change in our rating could have an adverse effect on the market price of the notes.

Table of Contents

The agreements governing our notes and our Secured Revolving Line of Credit impose restrictions on us that may adversely affect our ability to operate our business.

The indentures governing our 7.75% Senior Notes due 2020 (the “7.75% Notes”), 7.50% Senior Notes due 2022 (the “7.50% Notes”), 7.00% Notes and 6.75% Notes contain various covenants which limit our ability to, among other things:

- incur additional indebtedness;
- pay dividends and make other restricted payments;
- make certain investments, including investments in our unrestricted subsidiaries;
- create or permit certain liens;
- create or permit restrictions on the ability of certain restricted subsidiaries to pay dividends or make other distributions to us;
- use the proceeds from sales of assets;
- enter into certain types of transactions with affiliates; and
- consolidate or merge or sell our assets as an entirety or substantially as an entirety.

Our Secured Revolving Line of Credit also contains various covenants which limit our ability to, among other things, make certain investments, merge or consolidate with other entities and permit certain subsidiaries from incurring indebtedness. In addition, during a domestic cash trigger period (a “Domestic Cash Trigger Period”), which occurs (i) upon an event of default or (ii) when the amount of domestic cash or cash equivalents held in certain accounts is at any time less than \$500 million, and ends when both (a) no event of default has existed for 45 days and (b) the amount of domestic cash or cash equivalents held in such accounts has been equal to or greater than \$500 million for 45 days, we will become subject to various additional covenants which limit our ability to, among other things:

- allow certain subsidiaries that manufacture or process inventory for us or our subsidiary AMD International Sale & Service, Ltd. (together, the “Borrowers”) to borrow secured debt or unsecured debt beyond a certain amount;
- create any liens upon any of the Borrowers’ property (other than customary permitted liens and liens on up to \$1.5 billion of secured credit facilities debt (which amount includes our Secured Revolving Line of Credit));
- declare or make any distributions;
- create any encumbrance on the ability of a subsidiary to make any upstream payments;
- make asset dispositions other than certain ordinary course dispositions;
- make certain loans, make payments with respect to subordinated debt or certain borrowed money prior to its due date;
- become a party to certain agreements restricting the Borrowers’ ability to incur or repay debt, grant liens, make distributions; and
- modify loan agreements or enter into any non-arm’s-length transaction with an affiliate.

During a Domestic Cash Trigger Period, we also would be required to maintain a fixed charge coverage ratio each four-fiscal quarter period ending on and after June 28, 2014.

The agreements governing our notes and our Secured Revolving Line of Credit contain cross-default provisions whereby a default under one agreement would likely result in cross defaults under agreements covering other borrowings. For example, the occurrence of a default with respect to any indebtedness or any failure to repay debt when due in an amount in excess of \$50 million would cause a cross default under the indentures governing

[Table of Contents](#)

our 7.75% Notes, 7.50% Notes, 7.00% Notes, 6.75% Notes and 6.00% Notes, as well as under our Secured Revolving Line of Credit. The occurrence of a default under any of these borrowing arrangements would permit the applicable note holders or the lenders under our Secured Revolving Line of Credit to declare all amounts outstanding under those borrowing arrangements to be immediately due and payable. If the note holders or the trustee under the indentures governing our 7.75% Notes, 7.50% Notes, 7.00% Notes, 6.75% Notes or 6.00% Notes or the lenders under our Secured Revolving Line of Credit accelerate the repayment of borrowings, we cannot assure you that we will have sufficient assets to repay those borrowings.

In the event of a change of control, we may not be able to repurchase the notes as required by the indentures governing the notes, which would result in a default under such indentures.

Upon a change of control under the Indentures, we will be required to offer to repurchase all of our 7.75% Notes, 7.50% Notes, 7.00% Notes and 6.75% Notes then outstanding at 101% of the principal amount thereof, plus accrued and unpaid interest, if any, up to, but excluding, the repurchase date, and to offer to repurchase all of our 6.00% Notes then outstanding at 100% of the principal amount thereof, plus accrued and unpaid interest, if any, up to, but excluding the repurchase date. Certain change of control events will also be a default under the Secured Revolving Line of Credit, which will permit the lenders thereunder to accelerate the maturity of all borrowings thereunder and terminate commitments to lend thereunder, as well as trigger cross-default provisions under the Indentures. Moreover, the Indentures require us to offer to repurchase these securities upon certain change of control events. As of June 28, 2014, \$55 million was outstanding under our Secured Revolving Line of Credit and the aggregate principal amount of our outstanding notes was approximately \$2.1 billion. Future debt agreements may contain similar provisions. We may not have the financial resources to repurchase your notes, particularly if that change of control event triggers a similar repurchase requirement for, or results in the acceleration of, our outstanding notes or other indebtedness.

You cannot be sure that an active trading market will develop for the notes.

There is no public market for the notes. The initial purchasers have informed us that they intend to make a market in the notes, but they may cease their market-making activities at any time.

In addition, the liquidity and the market price of the notes may be adversely affected by changes in the overall market for high yield securities and by changes in our financial performance or prospects, or in the prospects of the companies in our industry. The market price of the notes may also be significantly affected by wide fluctuations in response to a variety of factors, including those described in this “Risk factors” section.

Certain covenants contained in the indentures are not applicable during any period in which the notes are rated investment grade.

The indentures governing the notes provides that certain covenants will not apply to us during any period in which the notes are rated investment grade by both Standard & Poor’s and Moody’s and no default has otherwise occurred and is continuing under the indenture. The covenants that would be suspended include, among others, limitations on and our restricted subsidiaries’ ability to pay dividends, incur indebtedness, sell certain assets and enter into certain other transactions. Any actions that we take while these covenants are not in force will be permitted even if the notes are subsequently downgraded below investment grade and such covenants are subsequently reinstated. There can be no assurance that the notes will ever be rated investment grade, or that if they are rated investment grade, the notes will maintain such ratings. See “Description of the notes—Certain covenants—Covenant suspension.”

The exchange offer

Purpose of the exchange offer

We issued \$600 million aggregate principal amount of the private 6.75% Notes on February 26, 2014 to Merrill Lynch, Pierce, Fenner & Smith Incorporated and J.P. Morgan Securities Inc., the initial purchasers, pursuant to a purchase agreement. The initial purchasers subsequently sold the private 6.75% Notes to “qualified institutional buyers,” as defined in Rule 144A under the Securities Act, in reliance on Rule 144A, and outside the United States under Regulation S of the Securities Act. As a condition to the sale of the private 6.75% Notes, we entered into a registration rights agreement with the initial purchasers on February 26, 2014 (the “6.75% Registration Rights Agreement”).

We issued \$500 million aggregate principal amount of the private 7.00% Notes on June 16, 2014 to J.P. Morgan Securities Inc., representing the initial purchasers, pursuant to a purchase agreement. The initial purchasers subsequently sold the private 7.00% Notes to “qualified institutional buyers,” as defined in Rule 144A under the Securities Act, in reliance on Rule 144A, and outside the United States under Regulation S of the Securities Act. As a condition to the sale of the private 7.00% Notes, we entered into a registration rights agreement with the initial purchasers on June 16, 2014 (the “7.00% Registration Rights Agreement” and together with the 6.75% Registration Rights Agreement, the “Registration Rights Agreements”).

Pursuant to the Registration Rights Agreements, we agreed that we would:

- (1) file an exchange offer registration statement with the SEC;
- (2) use our commercially reasonable efforts to have the exchange offer registration statement declared effective by the SEC;
- (3) commence the exchange offer promptly after the exchange offer registration statement is declared effective by the SEC; and
- (4) use our commercially reasonable efforts to consummate the exchange offer (i) for the 6.75% Notes, on or before February 26, 2015 and (ii) for the 7.00% Notes, on or before June 16, 2015.

Upon the effectiveness of the exchange offer registration statement, we will offer the exchange notes in exchange for the private notes. A copy of each of the Registration Rights Agreements is filed as an exhibit to the registration statement of which this prospectus forms a part.

Resale of the exchange notes

Based upon an interpretation by the staff of the SEC contained in no-action letters issued to third parties, we believe that you may exchange private notes for exchange notes in the ordinary course of business. For further information on the SEC’s position, see *Exxon Capital Holdings Corporation*, available May 13, 1988, *Morgan Stanley & Co. Incorporated*, available June 5, 1991, *Shearman & Sterling*, available July 2, 1993, and other interpretive letters to similar effect. You will be allowed to resell exchange notes to the public without further registration under the Securities Act and without delivering to purchasers of the exchange notes a prospectus that satisfies the requirements of Section 10 of the Securities Act so long as you do not participate, do not intend to participate, and have no arrangement with any person to participate, in a distribution of the exchange notes. However, the foregoing does not apply to you if you are a broker-dealer who purchased the exchange notes directly from us to resell pursuant to Rule 144A or any other available exemption under the Securities Act or you are an “affiliate” of ours within the meaning of Rule 405 under the Securities Act.

By participating in the exchange offer, you must represent, warrant and confirm digitally in connection with DTC’s ATOP procedures that you:

- (i) are acquiring the exchange notes in your ordinary course of business;

Table of Contents

- (ii) are not engaged in, and do not intend to engage in, a distribution of the exchange notes; and
- (iii) have no arrangement or understanding with us, our affiliates or any other person to participate in a distribution of the exchange notes.

If you are a broker-dealer who holds the private notes acquired for your own account as a result of market-making activities or other trading activities and you receive exchange notes in exchange for such private notes pursuant to the exchange offer, you must acknowledge, and confirm digitally in connection with DTC's ATOP procedures, that:

- (i) you must deliver a prospectus meeting the requirements of the Securities Act in connection with any resale of exchange notes received in respect of such outstanding private notes pursuant to the exchange offer, and
- (ii) by delivering such a prospectus, you, who may be a statutory underwriter, will not be deemed to admit that you are an "underwriter" within the meaning of the Securities Act.

In addition, if you are a broker-dealer, or you acquire exchange notes in the exchange offer for the purpose of distributing or participating in the distribution of the exchange notes, you cannot rely on the position of the staff of the SEC contained in the no-action letters mentioned above and must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction, unless an exemption from registration is otherwise available.

The letter of transmittal for use in connection with any such resale will state that by so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an "underwriter" within the meaning of the Securities Act. A broker-dealer may use this prospectus, as it may be amended or supplemented from time to time, in connection with resales of exchange notes received in exchange for private notes which the broker-dealer acquired as a result of market-making or other trading activities.

Terms of the exchange offer

Upon the terms and subject to the conditions described in this prospectus, we will accept any and all private notes validly tendered and not withdrawn before the expiration date. We will issue \$1,000 principal amount of exchange notes in exchange for each \$1,000 principal amount of outstanding private notes surrendered pursuant to the exchange offer. You may tender private notes only in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

The form and terms of the exchange notes are the same as the form and terms of the private notes, except that:

- we will register the exchange notes under the Securities Act and, therefore, the exchange notes will not bear legends restricting their transfer; and
- holders of the exchange notes will not be entitled to any of the rights of holders of private notes under the Registration Rights Agreements, which rights will terminate upon the completion of the exchange offer.

The exchange 6.75% Notes will evidence the same debt as the private 6.75% Notes and will be issued under the same indenture dated February 26, 2014 between us and Wells Fargo Bank, National Association, as trustee (the "6.75% Indenture"), so the exchange 6.75% Notes and the private 6.75% Notes will be treated as a single class of debt securities under the 6.75% Indenture.

The exchange 7.00% Notes will evidence the same debt as the private 7.00% Notes and will be issued under the same indenture dated June 16, 2014 between us and Wells Fargo Bank, National Association, as trustee (the "7.00% Indenture" and together with the 6.75% Indenture, the "Indentures"), so the exchange 7.00% Notes and the private 7.00% Notes will be treated as a single class of debt securities under the 7.00% Indenture.

[Table of Contents](#)

As of the date of this prospectus, \$600,000,000 in aggregate principal amount of the private 6.75% Notes and \$500,000,000 in aggregate principal amount of the private 7.00% Notes are outstanding and registered in the name of Cede & Co., as nominee for DTC. Only registered holders of the private notes, or their legal representative or attorney-in-fact, as reflected on the records of the trustee under the applicable Indenture, may participate in the exchange offer. We will not set a fixed record date for determining registered holders of the private notes entitled to participate in the exchange offer.

You do not have any appraisal or dissenters' rights under the Indentures in connection with the exchange offer. We intend to conduct the exchange offer in accordance with the provisions of the Registration Rights Agreements and the applicable requirements of the Securities Act, the Securities Exchange Act of 1934, as amended (the "Exchange Act") and the rules and regulations of the SEC.

We will be deemed to have accepted validly tendered private notes when, as and if we had given oral or written notice of acceptance to the Exchange Agent. The Exchange Agent will act as your agent for the purposes of receiving the exchange notes from us.

If you tender private notes in the exchange offer you will not be required to pay brokerage commissions or fees or transfer taxes with respect to the exchange of private notes pursuant to the exchange offer. We will pay all charges and expenses, other than the applicable taxes described below under "—Fees and expenses," in connection with the exchange offer.

Expiration date; extensions; amendments

The term "expiration date" will mean 5:00 p.m., New York City time on _____, 2014, unless we, in our sole discretion, extend the exchange offer, in which case the term "expiration date" will mean the latest date and time to which we extend the exchange offer.

To extend the exchange offer, we will notify the Exchange Agent and each registered holder of any extension in writing by a press release or other public announcement before 9:00 a.m., New York City time, on the next business day after the previously scheduled expiration date. The notice of extension will disclose the aggregate principal amount of the private notes that have been tendered as of the date of such notice.

We reserve the right, in our reasonable discretion:

- to delay accepting any private notes due to an extension of the exchange offer; or
- if any conditions listed below under "—Conditions" are not satisfied, to terminate the exchange offer

in each case by giving written notice of the delay, extension or termination to the Exchange Agent and by press release or public announcement.

We will follow any delay in acceptance, extension or termination as promptly as practicable by written notice to the registered holders by a press release or other public announcement. If we amend the exchange offer in a manner we determine constitutes a material change, we will promptly disclose the amendment in a prospectus supplement that we will distribute to the registered holders. We will also extend the exchange offer for a period of five to ten business days, depending upon the significance of the amendment and the manner of disclosure, if the exchange offer would otherwise expire during the five to ten business day period.

Interest on the exchange notes

The exchange notes will bear interest at the same rate and on the same terms as the private notes. Consequently, the exchange 6.75% Notes and the exchange 7.00% Notes will bear interest at a rate equal to 6.75% per annum and 7.00% per annum, respectively (each calculated using a 360-day year). Interest will be payable (i) on the exchange 6.75% Notes, semi-annually on each March 1 and September 1 and (ii) on the exchange 7.00% Notes, semi-annually on each January 1 and July 1.

[Table of Contents](#)

Interest on the exchange notes will accrue from the last interest payment date on which interest was paid on the private notes. We will deem the right to receive any interest accrued but unpaid on the private notes waived by you if we accept your private notes for exchange.

Procedures for tendering

If you are a DTC, Euroclear or Clearstream participant that has private notes which are credited to your DTC, Euroclear or Clearstream account by book-entry and which are held of record by DTC, Euroclear or Clearstream's nominee, as applicable, you may tender your private notes by book-entry transfer as if you were the record holder. Because of this, references herein to registered or record holders include DTC, Euroclear and Clearstream participants with private notes credited to their accounts. If you are not a DTC, Euroclear or Clearstream participant, you may tender your private notes by book-entry transfer by contacting your broker, dealer or other nominee or by opening an account with a DTC, Euroclear or Clearstream participant, as the case may be.

To tender private notes in the exchange offer, you must:

- comply with DTC's ATOP procedures described below; and
- the Exchange Agent must receive a timely confirmation of a book-entry transfer of the private notes into its account at DTC through ATOP pursuant to the procedure for book-entry transfer described below, along with a properly transmitted agent's message, before the expiration date.

Participants in DTC's ATOP program must electronically transmit their acceptance of the exchange by causing DTC to transfer the private notes to the Exchange Agent in accordance with DTC's ATOP procedures for transfer. DTC will then send an agent's message to the Exchange Agent. With respect to the exchange of the private notes, the term "agent's message" means a message transmitted by DTC, received by the Exchange Agent and forming part of the book-entry confirmation, which states that:

- DTC has received an express acknowledgment from a participant in its ATOP that is tendering private notes that are the subject of the book-entry confirmation;
- the participant has received and agrees to be bound by the terms and subject to the conditions set forth in this prospectus; and
- we may enforce the agreement against such participant.

Participants in Euroclear's or Clearstream's book-entry transfer facility system must electronically transmit their acceptance of the exchange to Euroclear or Clearstream. The receipt of such electronic acceptance instruction by Euroclear or Clearstream will be acknowledged in accordance with the standard practices of such book-entry transfer facility and will result in the blocking of such private notes in that book-entry transfer facility. By blocking such private notes in the relevant book-entry transfer facility, each holder of private notes will be deemed to consent to have the relevant book-entry transfer facility provide details concerning such holder's identity to the Exchange Agent. The receipt of an electronic instruction by Euroclear or Clearstream shall mean:

- Euroclear or Clearstream, as applicable, has received an express acknowledgment from a participant in Euroclear or Clearstream, as the case may be, that such participant is tendering private notes that are the subject of the book-entry confirmation;
- the participant has received and agrees to be bound by the terms and subject to the conditions set forth in this prospectus; and
- we may enforce the agreement against such participant.

Your tender, if not withdrawn before the expiration date, will constitute an agreement between you and us in accordance with the terms and subject to the conditions described in this prospectus.

[Table of Contents](#)

DTC, Euroclear and Clearstream are collectively referred to herein as the “book-entry transfer facilities” and individually as a “book-entry transfer facility.”

We will determine in our sole discretion all questions as to the validity, form, eligibility, including time of receipt, acceptance and withdrawal of tendered private notes, which determination will be final and binding. We reserve the absolute right to reject any and all private notes not properly tendered or any private notes our acceptance of which would, in the opinion of our counsel, be unlawful. We also reserve the right to waive any defects, irregularities or conditions of tender as to particular private notes. Our interpretation of the terms and conditions of the exchange offer will be final and binding on all parties. Unless waived, you must cure any defects or irregularities in connection with tenders of private notes within the time we determine. Although we intend to notify you of defects or irregularities with respect to tenders of private notes, none of us, the Exchange Agent or any other person will incur any liability for failure to give you that notification. Unless waived, we will not deem tenders of private notes to have been made until you cure the defects or irregularities.

While we have no present plan to acquire any private notes that are not tendered in the exchange offer or to file a registration statement to permit resales of any private notes that are not tendered in the exchange offer, we reserve the right in our sole discretion to purchase or make offers for any private notes that remain outstanding after the expiration date. We also reserve the right to terminate the exchange offer, as described below under “—Conditions,” and, to the extent permitted by applicable law, purchase private notes in the open market, in privately negotiated transactions or otherwise. The terms of any of those purchases or offers could differ from the terms of the exchange offer.

If you wish to tender private notes in exchange for exchange notes in the exchange offer, we will require you to represent that:

- the private notes are, at the time of acceptance, and will continue to be, until exchanged in this offer, held by you;
- you acknowledge that all authority conferred or agreed to be conferred pursuant to these representations, warranties and undertakings and every obligation of yours shall be binding upon your successors, assigns, heirs, executors, administrators, trustees in bankruptcy and legal representatives and shall not be affected by, and shall survive, your death or incapacity (if an individual) or dissolution (if an entity);
- you will, upon request, execute and deliver any documents deemed by us or the Exchange Agent to be necessary or desirable to complete the exchange of the private notes that are the subject of an electronic acceptance instruction;
- you have full power and authority to tender, exchange, assign and transfer the private notes that are the subject of an electronic acceptance instruction and that when such notes are accepted for exchange by us, the notes will be transferred by you with full title guarantee free from all liens, restrictions, charges and encumbrances and not subject to any adverse claim or right, together with all rights attached thereto;
- you are not an affiliate of ours;
- you will acquire any exchange notes in the ordinary course of your business;
- you do not have an arrangement or understanding with any person to participate in the distribution of the exchange notes; and
- at the time of completion of the exchange offer, you are not engaged in, and do not intend to engage in, a distribution of the exchange notes.

You will be deemed to make such representations by tendering private notes in the exchange offer. In addition, in connection with the resale of exchange notes, any participating broker-dealer who acquired the private notes for its own account as a result of market-making or other trading activities acknowledges that it must deliver a

[Table of Contents](#)

prospectus meeting the requirements of the Securities Act. The SEC has taken the position that participating broker-dealers may fulfill their prospectus delivery requirements with respect to the exchange notes, other than a resale of an unsold allotment from the original sale of the notes, with this prospectus.

Book-entry transfer

The Exchange Agent will make a request to establish an account with respect to the private notes at DTC, as a book-entry transfer facility, for purposes of the exchange offer within two business days after the date of this prospectus. Any financial institution that is a participant in the book entry transfer facility's system may make book-entry delivery of private notes by causing the depository to transfer the private notes into the Exchange Agent's account at the facility in accordance with the facility's procedures for such transfer.

In all cases, we will issue exchange notes for private notes that we have accepted for exchange under the exchange offer only after the Exchange Agent timely receives:

- confirmation of book-entry transfer of your private notes into the Exchange Agent's account at DTC; and
- a properly transmitted agent's message.

If we do not accept any tendered private notes for any reason set forth in the terms of the exchange offer, we will credit the non-exchanged private notes to your account maintained at the applicable book-entry transfer facility.

Withdrawal of tenders

You may withdraw your tender of private notes at any time prior to 5:00 p.m., New York City time, on the expiration date.

For a withdrawal to be effective, the holder must cause to be transmitted to the Exchange Agent an agent's message, which agent's message must be received by the Exchange Agent prior to 5:00 p.m., New York City time, on the expiration date. In addition, the Exchange Agent must receive a timely confirmation of book-entry transfer of the private notes out of the Exchange Agent's account at DTC, under the applicable procedure for book-entry transfers described herein, along with a properly transmitted agent's message, on or before the expiration date.

We will determine in our sole discretion all questions as to the validity, form and eligibility of the notices, and our determination will be final and binding on all parties. We will not deem any properly withdrawn private notes to have been validly tendered for purposes of the exchange offer, and we will not issue exchange notes with respect to those private notes, unless you validly re-tender the withdrawn private notes. You may re-tender properly withdrawn private notes by following the procedures described above under "— Procedures for tendering" at any time before the expiration date.

Conditions

Notwithstanding any other term of the exchange offer, we will not be required to accept for exchange, or exchange the exchange notes for, any private notes, and may terminate the exchange offer as provided in this prospectus before the acceptance of the private notes, if, in our reasonable judgment, the exchange offer violates applicable law, rules or regulations or an applicable interpretation of the staff of the SEC.

If we determine in our reasonable discretion that any of these conditions are not satisfied, we may:

- refuse to accept any private notes and return all tendered private notes to you;
- extend the exchange offer and retain all private notes tendered before the exchange offer expires, subject, however, to your rights to withdraw the private notes; or
- waive the unsatisfied conditions with respect to the exchange offer and accept all properly tendered private notes that have not been withdrawn.

[Table of Contents](#)

If the waiver constitutes a material change to the exchange offer, we will promptly disclose the waiver by means of a prospectus supplement that we will distribute to the registered holders of the private notes, and we will extend the exchange offer for a period of five to ten business days, depending upon the significance of the waiver and the manner of disclosure to the registered holders, if the exchange offer would otherwise expire during the five to ten business day period.

Termination of rights

All of your rights under the Registration Rights Agreements will terminate upon consummation of the exchange offer except with respect to our continuing obligations:

- to indemnify you and parties related to you against liabilities, including liabilities under the Securities Act; and
- to provide, upon your request, the information required by Rule 144A(d)(4) under the Securities Act to permit resales of the notes pursuant to Rule 144A under the Securities Act.

Shelf registration

If:

- (1) we are not permitted to consummate the exchange offer because the exchange offer is not permitted by applicable law or SEC policy;
- (2) the exchange offer for the private 6.75% Notes has not been completed by February 26, 2015; or
- (3) the exchange offer is not available to any holder of transfer restricted securities,

we will file with the SEC a shelf registration statement to cover resales of the private 6.75% Notes by the holders thereof who satisfy certain conditions relating to the provision of information in connection with the shelf registration statement.

If:

- (1) we are not permitted to consummate the exchange offer because the exchange offer is not permitted by applicable law or SEC policy;
- (2) the exchange offer for the private 7.00% Notes has not been completed by June 16, 2015; or
- (3) the exchange offer is not available to any holder of transfer restricted securities,

we will file with the SEC a shelf registration statement to cover resales of the private 7.00% Notes by the holders thereof who satisfy certain conditions relating to the provision of information in connection with the shelf registration statement.

For purposes of the preceding, “transfer restricted securities” means each private note until:

- (1) the date on which such note has been exchanged by a person other than a broker-dealer for an exchange note in the exchange offer;
- (2) following the exchange by a broker-dealer in the exchange offer of a private note for an exchange note, the date on which such exchange note is sold to a purchaser who receives from such broker-dealer on or prior to the date of such sale a copy of the prospectus contained in the exchange offer registration statement;
- (3) the date on which such private note has been effectively registered under the Securities Act and disposed of in accordance with the shelf registration statement; or
- (4) the date on which such private note is distributed to the public pursuant to Rule 144 under the Securities Act.

[Table of Contents](#)

Liquidated damages

If:

- (1) we fail to consummate the exchange offer for the private 6.75% Notes on or before February 26, 2015;
- (2) any registration statements required by the 6.75% Registration Rights Agreement is not declared effective by the SEC on or prior to the date specified for such effectiveness; or
- (3) the shelf registration statement or the exchange offer registration statement is declared effective but thereafter ceases to be effective or usable in connection with resales or exchanges of transfer restricted securities during the periods specified in the registration rights agreement (each such event referred to in clauses (1) through (3) above, a registration default),

then we will pay to each holder of the outstanding private 6.75% Notes, as liquidated damages, for the period from the occurrence of the registration default (but only with respect to one registration default at any particular time) until such time as no registration default is in effect an amount per annum equal to 0.25% during the first 90-day period following the occurrence of such registration default which rate shall increase by an additional 0.25% during each subsequent 90-day period, up to a maximum of 1.00% in respect of the aggregate principal amount of transfer restricted securities held by such holder until the exchange offer is consummated, the applicable registration statement is declared effective or again becomes effective, as the case may be.

If:

- (1) we fail to consummate the exchange offer for the private 7.00% Notes on or before June 16, 2015;
- (2) any registration statements required by the 7.00% Registration Rights Agreement is not declared effective by the SEC on or prior to the date specified for such effectiveness; or
- (3) the shelf registration statement or the exchange offer registration statement is declared effective but thereafter ceases to be effective or usable in connection with resales or exchanges of transfer restricted securities during the periods specified in the registration rights agreement (each such event referred to in clauses (1) through (3) above, a registration default),

then we will pay to each holder of the outstanding private 7.00% Notes, as liquidated damages, for the period from the occurrence of the registration default (but only with respect to one registration default at any particular time) until such time as no registration default is in effect an amount per annum equal to 0.25% during the first 90-day period following the occurrence of such registration default which rate shall increase by an additional 0.25% during each subsequent 90-day period, up to a maximum of 1.00% in respect of the aggregate principal amount of transfer restricted securities held by such holder until the exchange offer is consummated, the applicable registration statement is declared effective or again becomes effective, as the case may be.

Fees and expenses

We will bear the expenses of soliciting tenders. We have not retained any dealer manager in connection with the exchange offer and will not make any payments to brokers, dealers or others soliciting acceptances of the exchange offer. We will, however, pay the Exchange Agent reasonable and customary fees for its services and will reimburse it for its reasonable out-of-pocket expenses.

We will pay the cash expenses incurred in connection with the exchange offer which we estimate to be approximately \$200,000. These expenses include registration fees, fees and expenses of the Exchange Agent and the trustee, accounting and legal fees and printing costs, among others.

We will pay all transfer taxes, if any, applicable to the exchange of notes pursuant to the exchange offer. If, however, a transfer tax is imposed for any reason other than the exchange of the private notes pursuant to the exchange offer, then you must pay the amount of the transfer taxes.

Consequence of failures to exchange

Participation in the exchange offer is voluntary. We urge you to consult your financial and tax advisors in making your decisions on what action to take. Private notes that are not exchanged for exchange notes pursuant to the exchange offer will remain restricted securities. Accordingly, those private notes may be resold only:

- to a person whom the seller reasonably believes is a qualified institutional buyer in a transaction meeting the requirements of Rule 144A under the Securities Act;
- in a transaction meeting the requirements of Rule 144 under the Securities Act;
- outside the United States to a foreign person in a transaction meeting the requirements of Rule 903 or 904 of Regulation S under the Securities Act;

[Table of Contents](#)

- in accordance with another exemption from the registration requirements of the Securities Act and based upon an opinion of counsel if we so request;
- to us; or
- pursuant to an effective registration statement.

In each case, the private notes may be resold only in accordance with any applicable securities laws of any state of the United States or any other applicable jurisdiction.

Use of proceeds

The exchange offer satisfies an obligation under each of the Registration Rights Agreements. We will not receive any cash proceeds from the exchange offer.

The net proceeds from the sale of the private 6.75% Notes were approximately \$589 million after deducting the initial purchasers' discounts and estimated transaction expenses payable by us. We used the net proceeds for the repurchase of approximately \$423 million aggregate principal amount of, and outstanding accrued interest on, our 6.00% Notes and approximately \$48 million aggregate principal amount of, and outstanding accrued interest on, our 8.125% Notes then outstanding.

The net proceeds from the sale of the private 7.00% Notes were approximately \$491 million after deducting the initial purchasers' discounts and estimated transaction expenses payable by us. We used the net proceeds plus available cash for the repurchase of the outstanding remaining aggregate principal amount of, and outstanding accrued interest on, our 8.125% Notes then outstanding.

Selected historical consolidated financial data

The following table sets forth, for the periods indicated, selected historical consolidated financial information of us and our subsidiaries and, for fiscal year 2009, GLOBALFOUNDRIES and its subsidiaries on a consolidated basis. Beginning in the first quarter of fiscal year 2010, we (i) concluded that we are no longer the primary beneficiary of GLOBALFOUNDRIES, (ii) deconsolidated GLOBALFOUNDRIES, and (iii) started to account for our investment in GLOBALFOUNDRIES under the equity method of accounting. In the first quarter of fiscal year 2011, we began accounting for GLOBALFOUNDRIES under the cost method of accounting. In the first quarter of fiscal year 2012, we transferred all of the capital stock that we owned in GLOBALFOUNDRIES to GLOBALFOUNDRIES in connection with the second amendment of the WSA. As a result of this transfer, we no longer have any equity interest in GLOBALFOUNDRIES. Accordingly, you should consider the effect of these events and changes in accounting treatment when comparing different periods.

- (1) The 2009 Net (income) loss attributable to noncontrolling interest and Class B preferred accretion relate to GLOBALFOUNDRIES. The net (income) loss attributable to noncontrolling interest represents the allocation of the operating results to Mubadala Tech, the noncontrolling partner of GLOBALFOUNDRIES during this period, whereas the Class B preferred accretion represents the guaranteed rate of return that Mubadala Tech earned on its ownership of GLOBALFOUNDRIES Class B preferred stock.
- (2) For purposes of computing the ratio of earnings to fixed charges, fixed charges primarily consist of interest expense on long-term debt and capital leases, interest capitalized and that portion of rental expense deemed to be representative of interest and for fiscal 2009, also includes the Class B preferred accretion. Earnings primarily consist of income (loss) from continuing operations before equity in net income (loss) and dilution gain in investee, income taxes and noncontrolling interest and fixed charges, less interest capitalized and for fiscal 2009, also excludes the Class B preferred accretion. For fiscal 2013, 2012 and 2011, earnings were insufficient to cover fixed charges by approximately \$74 million, \$1.2 billion and \$1 million, respectively. For the six months ended June 28, 2014 and June 29, 2013, earnings were insufficient to cover fixed charges by approximately \$50 million and \$215 million, respectively.

Description of certain indebtedness**Secured Revolving Line of Credit**

On November 12, 2013, we and our wholly-owned subsidiary, AMD International Sales & Service, Ltd., entered into a loan and security agreement (the “Loan Agreement”), by and among us, the financial institutions party thereto from time to time as lenders (the “Lenders”) and Bank of America, N.A., as agent for the Lenders (the “Agent”).

The Loan Agreement provides for our Secured Revolving Line of Credit for a principal amount up to \$500 million with up to \$75 million available for issuance of letters of credit. Borrowings under our Secured Revolving Line of Credit are limited to up to 85% of eligible accounts receivable, minus certain reserves. The size of the commitments under the Secured Revolving Line of Credit may be increased in an aggregate amount for all such increases not to exceed \$200 million.

Our Secured Revolving Line of Credit matures on November 12, 2018. Our obligations under the Loan Agreement are secured by a first priority security interest in the our accounts receivable, inventory, deposit accounts maintained with the Agent and other specified assets relating to the foregoing, including books and records.

We may elect that the loans under our Secured Revolving Line of Credit bear interest at a rate per annum equal to (a) the London Interbank Offered Rate (“LIBOR”), plus the applicable margin set forth in the applicable chart below (the “Applicable Margin”) as determined by the fixed charge coverage ratio for the most recently ended four-fiscal quarter period, or (b) (i) the greatest of (x) the Agent’s prime rate, (y) the federal funds rate, as published by the Federal Reserve Bank of New York plus 0.50%, and (z) LIBOR for a one-month period plus 1.00%, plus (ii) the Applicable Margin.

Applicable Margin from and after the four-fiscal quarter period ending June 28, 2014:

Level	Fixed Charge Coverage Ratio	Base Rate Revolver Loans: Applicable Margin	LIBOR Revolver Loans: Applicable Margin
I	³ 1.50:1:00	1.00%	2.00%
II	³ 1.25:1:00 < 1.50:1:00	1.25%	2.25%
III	< 1.25:1:00	1.50%	2.50%

At June 28, 2014, the outstanding loan balance under our Secured Revolving Line of Credit was \$55 million, with an interest rate of 4.75%, and up to \$445 million remained available for future borrowings. As of June 28, 2014, we were in compliance with all required covenants stated in the Loan Agreement. The fixed charge coverage ratio as of June 28, 2014 was 2.07:1.00.

Our Secured Revolving Line of Credit may be optionally prepaid, terminated or unutilized commitments reduced at any time without premium or penalty. In connection with our Secured Revolving Line of Credit, we will pay an unused line fee equal to 0.50% per annum, payable monthly on the unused amount of the commitments under our Secured Revolving Line of Credit. The unused line fee decreases to 0.375% per annum when more than 50% of our Secured Revolving Line of Credit is utilized. We will pay (i) a monthly fee on all letters of credit outstanding under our Secured Revolving Line of Credit equal to the applicable LIBOR margin and (ii) a fronting fee to the Agent equal to 0.125% of all such letters of credit, payable monthly in arrears.

The Loan Agreement contains covenants that place certain restrictions on our ability to, among other things, amend or modify certain terms of any debt of \$50 million or more or subordinated debt, create or suffer to exist any liens upon accounts or inventory, sell or transfer any of our accounts or inventory other than certain ordinary-course transfers, make certain changes to either our name or form or state of organization without notifying the Agent, or liquidate, dissolve, merge, combine or consolidate. Further restrictions apply during a

Domestic Cash Trigger Period, which occurs (i) upon an event of default or (ii) when the amount of domestic cash or cash equivalents held in certain accounts is at any time less than \$500 million, and ends when both (a) no event of default has existed for 45 days and (b) the amount of domestic cash or cash equivalents held in such accounts has been equal to or greater than \$500 million for 45 days. Such restrictions limit our ability to, among other things, allow certain subsidiaries that manufacture or process inventory for us to borrow secured debt or unsecured debt beyond a certain amount, create any liens upon any of our property (other than customary permitted liens and liens on up to \$1.5 billion of secured credit facilities debt (which amount includes our Secured Revolving Line of Credit)), declare or make any distributions, create any encumbrance on the ability of a subsidiary to make any upstream payments, make asset dispositions other than certain ordinary course dispositions, make certain loans, make payments with respect to subordinated debt or certain borrowed money prior to its due date, become a party to certain agreements restricting our ability to incur or repay debt, grant liens, make distributions, or modify loan agreements or enter into any non arm's-length transaction with an affiliate.

We are required to repurchase, redeem, defease, repay or create a segregated account for the repayment of all debt for borrowed money exceeding \$50 million, by no later than 120 days prior to its maturity date (not including our Secured Revolving Line of Credit). Any reserved funds for this purpose would not be included in domestic cash calculations.

During a Domestic Cash Trigger Period, we are required to maintain a fixed charge coverage ratio each four-fiscal quarter period ending on and after June 28, 2014. We were not in a Domestic Cash Trigger Period as of June 28, 2014. The events of default under the Loan Agreement include, among other things, payment defaults, the inaccuracy of representations or warranties, defaults in the performance of affirmative and negative covenants, bankruptcy and insolvency related defaults, certain ERISA events and change of control. During a Domestic Cash Trigger Period, additional events of default include, among other things, a cross-default related to indebtedness in an aggregate amount in excess of \$50 million, judgments entered against us in an amount that exceeds cumulatively \$50 million, and a loss, theft damage or destruction with respect to any collateral if the amount not covered by insurance exceeds \$50 million.

6.00% Convertible Senior Notes due 2015

On April 27, 2007, we issued \$2.2 billion aggregate principal amount of our 6.00% Notes. Our 6.00% Notes bear interest at 6.00% per annum. Interest is payable in arrears on May 1 and November 1 of each year beginning November 1, 2007 until the maturity date of May 1, 2015. The terms of our 6.00% Notes are governed by an indenture (the "6.00% Indenture"), dated April 27, 2007, by and between us and Wells Fargo Bank, National Association, as trustee. Upon the occurrence of certain events described in the 6.00% Indenture, the 6.00% Notes will be convertible into cash up to the principal amount, and if applicable, into shares of our common stock issuable upon conversion of our 6.00% Notes in respect of any conversion value above the principal amount, based on an initial conversion rate of 35.6125 shares of common stock per \$1,000 principal amount of 6.00% Notes, which is equivalent to an initial conversion price of \$28.08 per share. This initial conversion price represents a premium of 100% relative to the last reported sale price of our common stock on April 23, 2007 (the trading date preceding the date of pricing of our 6.00% Notes) of \$14.04 per share. The conversion rate will be adjusted for certain anti-dilution events. In addition, the conversion rate will be increased in the case of corporate events that constitute a fundamental change (as defined in the 6.00% Indenture) under certain circumstances. Holders of our 6.00% Notes may require us to repurchase our 6.00% Notes for cash equal to 100% of the principal amount to be repurchased plus accrued and unpaid interest upon the occurrence of a fundamental change or a termination of trading (as defined in the 6.00% Indenture). Additionally, an event of default (as defined in the 6.00% Indenture) may result in the acceleration of the maturity of our 6.00% Notes.

Our 6.00% Notes rank equally with our existing and future senior debt and are senior to all of our future subordinated debt. Our 6.00% Notes rank junior to all of our existing and future senior secured debt to the extent of the collateral securing such debt and are structurally subordinated to all existing and future debt and liabilities of our subsidiaries.

We may elect to purchase or otherwise retire our 6.00% Notes with cash, stock or other assets from time to time in open market or privately negotiated transactions, either directly or through intermediaries, or by tender offer, when we believe the market conditions are favorable to do so. Such purchases may have a material effect on our liquidity, financial condition and results of operations.

- make certain investments, including investments in our unrestricted subsidiaries;
- create or permit certain liens;
- create or permit restrictions on the ability of our subsidiaries to pay dividends or make other distributions to us;
- use the proceeds from sales of assets;
- enter into certain types of transactions with affiliates; and
- consolidate, merge or sell our assets as an entirety or substantially as an entirety.

Our 7.00% Notes rank equally with our existing and future senior debt and are senior to all of our future subordinated debt. Our 7.00% Notes rank effectively junior to all of our existing and future senior secured debt to the extent of the collateral securing such debt and are structurally subordinated to all existing and future debt and liabilities of our subsidiaries.

We may elect to purchase or otherwise retire our 7.00% Notes with cash, stock or other assets from time to time in open market or private negotiated transactions, either directly or through intermediaries, or by tender offer, when we believe the market conditions are favorable to do so. Such purchases may have a material effect on our liquidity, financial condition and results of operations.

The agreements governing our 7.75% Notes, 7.50% Notes, 7.00% Notes, 6.75% Notes, 6.00% Notes and our Secured Revolving Line of Credit contain cross-default provisions whereby a default under one agreement would likely result in cross defaults under agreements covering other borrowings. The occurrence of a default under any of these borrowing arrangements would permit the applicable note holders or the lenders under our Secured Revolving Line of Credit to declare all amounts outstanding under those borrowing arrangements to be immediately due and payable.

Description of the notes

We issued the private 6.75% Notes, and will issue the exchange 6.75% Notes, pursuant to the 6.75% Indenture, and we issued the private 7.00% Notes, and will issue the exchange 7.00% Notes, pursuant to the 7.00% Indenture. For purposes of this description, the private notes and the exchange notes will be generally referred to as the “Notes,” unless the context otherwise requires.

You can find the definitions of certain terms used in this description under the subheading “—Certain definitions.” In this description, the word “Company” refers only to Advanced Micro Devices, Inc., and not to any of its subsidiaries.

The Indentures are subject to and governed by the Trust Indenture Act of 1939, as amended (the “Trust Indenture Act”), and the terms of the Notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act.

The following description is a summary of the material provisions of the Indentures. It does not restate that agreement in its entirety. We urge you to read the Indenture because it contains additional information and defines your rights as a holder of the Notes. Copies of the Indentures are available upon request to the Company at the address indicated under “Where you can obtain additional information.”

Principal, maturity and interest

The Company will issue up to an aggregate principal amount of \$600 million of exchange 6.75% Notes and \$500 million of exchange 7.00% Notes in the exchange offer. The Indentures provide for the issuance of additional notes having identical terms and conditions to the Notes (the “Additional Notes”), subject to compliance with the covenants contained in the Indenture, including without limitation the provisions described under “—Certain covenants—Limitation on debt.” Any Additional Notes will be part of the same issue as the Notes and will vote on all matters with the Notes. It is possible, however, that such Additional Notes will not be treated as part of the same issue as the Notes for U.S. federal income tax purposes.

The 6.75% Notes will mature on March 1, 2019 and the 7.00% Notes will mature on July 1, 2024.

Interest on the 6.75% Notes accrues at a rate of 6.75% per annum and will be payable semi-annually in arrears on March 1 and September 1, commencing on September 1, 2014. The Company will pay interest to those persons who were holders of record of the 6.75% Notes on February 15 or August 15 immediately preceding each interest payment date.

Interest on the 7.00% Notes accrues at a rate of 7.00% per annum and will be payable semi-annually in arrears on January 1 and July 1, commencing on January 1, 2015. The Company will pay interest to those persons who were holders of record of the 7.00% Notes on June 15 or December 15 immediately preceding each interest payment date.

Interest on the Notes will accrue from the date of original issuance or, if interest has already been paid, from the date it was most recently paid. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Ranking

The Notes are the general unsecured senior obligations of the Company. The Notes:

- rank *pari passu* with any current and future unsecured senior Debt of the Company;
- are effectively subordinated to any existing and future secured Debt of the Company, including the Revolving Credit Facility, to the extent of the value of the assets securing such Debt;

Table of Contents

- are effectively subordinated to any Debt and other liabilities, including trade payables, of the Company's Subsidiaries with respect to the assets and earnings of those Subsidiaries; and
- are senior in right of payment to all of the Company's Subordinated Obligations, if any.

As of June 28, 2014:

- the Company had consolidated Debt of \$2.2 billion (\$2.2 billion principal amount), which included \$14 million of consolidated Debt of its Subsidiaries, which are its Subsidiaries' capital lease obligations;
- none of the Debt directly borrowed (or issued) by the Company as described above is guaranteed by the Company's Subsidiaries;
- \$69 million of the Company's consolidated Debt was secured, consisting of \$55 million of borrowings under the Revolving Credit Facility and \$15 million of the Company's Subsidiaries' capital lease obligations; and
- in addition to the Debt described above, the Company had other liabilities as shown on its balance sheet of approximately \$1.5 billion.

The Company and its Subsidiaries may incur additional Debt (including secured and guaranteed Debt) and other liabilities in the future.

The Company conducts a substantial portion of its operations through its Subsidiaries. The claims of creditors (including trade creditors) of any Subsidiary will generally have priority as to the assets of such Subsidiary over the claims of holders of the Notes. In the event of a liquidation of any of the Company's Subsidiaries, the Company's right to receive the assets of any such Subsidiary (and the resulting right of the holders of the Notes to participate in the distribution of the proceeds of those assets) will be effectively subordinated by operation of law to the claims of creditors (including trade creditors) of such Subsidiary and holders of such Subsidiary's Preferred Stock and any guarantees by such Subsidiary of Debt of the Company. If the Company were a creditor of such Subsidiary or a holder of its Preferred Stock, the Company would be entitled to participate in the distribution of the proceeds of such Subsidiary's assets. The Company's claims would, however, remain subordinate to any Debt or Preferred Stock of such Subsidiary which is senior in right of payment to the Debt or Preferred Stock held by the Company. In the event of the liquidation, bankruptcy, reorganization, insolvency, receivership or similar proceedings or any assignment for the benefit of the Company's creditors or a marshaling of the Company's assets or liabilities, holders of the Notes may receive ratably less than other such creditors or interest holders.

Optional redemption

6.75% Notes

The Company may elect to redeem all or any portion of the 6.75% Notes, after giving the notice required under the 6.75% Indenture, at a redemption price equal to the sum of:

- (1) 100% of the principal amount of exchange notes to be redeemed; and
- (2) the excess of
 - (a) the sum of the present values of (1) the principal amount of the 6.75% Notes to be redeemed, and (2) the remaining scheduled payments of interest (based on the rate of interest in effect on the date notice of redemption is provided) from the redemption date to March 1, 2019, but excluding accrued and unpaid interest to the redemption date, discounted to the date of redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus 50 basis points, over
 - (b) 100% of the principal amount of the Notes to be redeemed,

[Table of Contents](#)

plus accrued and unpaid interest to, but excluding, the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

In addition, at any time and from time to time, prior to March 1, 2017, the Company may redeem up to a maximum of 35% of the aggregate principal amount of the 6.75% Notes (including any Additional Notes) with the proceeds of one or more Qualified Equity Offerings, at a redemption price equal to 106.750% of the principal amount, plus accrued and unpaid interest to, but excluding, the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date); *provided, however*, that after giving effect to any such redemption, at least 65% of the aggregate principal amount of the Notes (including any Additional Notes) remains outstanding. Any such redemption shall be made within 90 days of such Qualified Equity Offering upon not less than 30 nor more than 60 days' prior notice.

7.00% Notes

Except as set forth below, the 7.00% Notes will not be redeemable at the option of the Company prior to July 1, 2019.

At any time and from time to time, prior to July 1, 2019, the Company may elect to redeem all or any portion of the 7.00% Notes, after giving the notice required under the 7.00% Indenture, at a redemption price equal to the sum of:

- (1) 100% of the principal amount of exchange notes to be redeemed; and
- (2) the excess of
 - (a) the sum of the present values of (1) the redemption price of the 7.00% Notes to be redeemed at July 1, 2019 (as set forth in the next paragraph), and (2) the remaining scheduled payments of interest (based on the rate of interest in effect on the date notice of redemption is provided) from the redemption date to July 1, 2019, but excluding accrued and unpaid interest to the redemption date, discounted to the date of redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus 50 basis points, over
 - (b) 100% of the principal amount of the Notes to be redeemed,

plus accrued and unpaid interest to, but excluding, the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

In addition, at any time and from time to time on or after July 1, 2019, the Company may redeem the 7.00% Notes, in whole or in part, at the redemption prices (expressed as percentages of principal amount of the Notes to be redeemed) set forth below, plus accrued and unpaid interest thereon to, but excluding, the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date) if redeemed during the twelve-month period beginning on July 1 of each of the years indicated below:

<u>Year</u>	<u>Redemption Price</u>
2019	103.500%
2020	102.333%
2021	101.167%
2022	100.000%

In addition, at any time and from time to time, prior to July 1, 2017, the Company may redeem up to a maximum of 35% of the aggregate principal amount of the Notes (including any Additional Notes) with the proceeds of one or more Qualified Equity Offerings, at a redemption price equal to 107.000% of the principal amount, plus accrued and unpaid interest to, but excluding, the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date); *provided, however*, that after

[Table of Contents](#)

giving effect to any such redemption, at least 65% of the aggregate principal amount of the Notes (including any Additional Notes) remains outstanding. Any such redemption shall be made within 90 days of such Qualified Equity Offering upon not less than 30 nor more than 60 days' prior notice.

Selection and notice

If less than all of the Notes are to be redeemed at any time, the Trustee will select Notes for redemption by lot, on a pro rata basis, or in accordance with over-the-counter (OTC) applicable procedures (with such adjustments as may be deemed appropriate by the Trustee so that only Notes in denominations of \$2,000, or integral multiples of \$1,000 in excess thereof shall be purchased); *provided*, that no Notes of \$2,000 or less may be redeemed in part.

Notices of redemption for the 6.75% Notes will be mailed by first class mail (or in the case of Notes held in book-entry form, by electronic transmission) at least 30 but not more than 60 days before the redemption date to each holder of Notes to be redeemed at its registered address, except that redemption notices may be mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the 6.75% Notes or a satisfaction and discharge of the Indenture. Notices of redemption may not be conditional.

Notices of redemption for the 7.00% Notes will be mailed by first class mail (or in the case of Notes held in book-entry form, by electronic transmission) at least 15 but not more than 60 days before the redemption date to each holder of Notes to be redeemed at its registered address, except that redemption notices may be mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the 7.00% Notes or a satisfaction and discharge of the Indenture.

If any Note is to be redeemed in part only, the notice of redemption that relates to that Note will state the portion of the principal amount of that Note that is to be redeemed. A new Note in principal amount equal to the unredeemed portion of the original Note will be issued in the name of the holder of the original Note upon cancellation of the original Note. Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on Notes or portions of them called for redemption.

Sinking fund

There is no mandatory sinking fund payments for the Notes.

Repurchase at the option of holders upon a change of control

Upon the occurrence of a Change of Control, each holder of Notes shall have the right to require the Company to repurchase all or any part of such holder's Notes pursuant to the offer described below (the "Change of Control Offer") at a purchase price (the "Change of Control Purchase Price") equal to 101% of the principal amount thereof, plus accrued and unpaid interest, if any, to, but excluding, the repurchase date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date); *provided, however*, that notwithstanding the occurrence of a Change of Control, the Company shall not be obligated to purchase the Notes pursuant to this covenant in the event that it has mailed the notice to exercise its right to redeem all the Notes under the terms of the covenant entitled "—Optional redemption" at any time prior to the requirement to consummate the Change of Control Offer and redeems the Notes in accordance with such notice.

Within 30 days following any Change of Control, the Company shall:

- (a) cause a notice of the Change of Control Offer to be sent at least once to the Dow Jones News Service or similar business news service in the United States; and
- (b) send, by first-class mail, with a copy to the Trustee, to each holder of Notes, at such holder's address appearing in the Note register, a notice stating:
 - (1) that a Change of Control has occurred and a Change of Control Offer is being made pursuant to the covenant entitled "Repurchase at the option of holders upon a change of control" and that all Notes timely tendered will be accepted for payment;

Table of Contents

- (2) the Change of Control Purchase Price and the repurchase date, which shall be, subject to any contrary requirements of applicable law, a business day no earlier than 30 days nor later than 60 days from the date such notice is mailed;
- (3) the circumstances and relevant facts regarding the Change of Control; and
- (4) the procedures that holders of Notes must follow in order to tender their Notes (or portions thereof) for payment, and the procedures that holders of Notes must follow in order to withdraw an election to tender Notes (or portions thereof) for payment.

The Company will not be required to make a Change of Control Offer following a Change of Control if (1) a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Company and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer or (2) notice of redemption has been given pursuant to the Indenture as described under the caption “—Optional redemption,” unless and until there is a default in payment of the applicable redemption price. Notwithstanding anything to the contrary contained herein, a Change of Control Offer may be made in advance of a Change of Control, conditioned upon the consummation of such Change of Control, if a definitive agreement is in place for the Change of Control at the time the Change of Control Offer is made.

The Company will comply, to the extent applicable, with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws or regulations in connection with the repurchase of Notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of this covenant, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under this covenant by virtue of such compliance.

Management has no present intention to engage in a transaction involving a Change of Control, although it is possible that the Company would decide to do so in the future. Subject to certain covenants described below, the Company could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the Indenture, but that could increase the amount of Debt outstanding at such time or otherwise affect the Company’s capital structure or credit ratings.

The definition of Change of Control includes a phrase relating to the sale, transfer, assignment, lease, conveyance or other disposition of “all or substantially all” the Property of the Company and the Restricted Subsidiaries, considered as a whole. Although there is a developing body of case law interpreting the phrase “substantially all,” there is no precise established definition of the phrase under applicable law. Accordingly, if the Company and the Restricted Subsidiaries, considered as a whole, dispose of less than all this Property by any of the means described above, the ability of a holder of Notes to require the Company to repurchase its Notes may be uncertain. In such a case, holders of the Notes may not be able to resolve this uncertainty without resorting to legal action.

The definition of Change of Control also provides that a Change of Control would occur if during any period of two consecutive years, individuals who at the beginning of such period constituted the Board of Directors (together with any new directors whose election or appointment by such Board or whose nomination for election by the stockholders of the Company was approved by a vote of not less than a majority of the directors then still in office who were either directors at the beginning of such period or whose election or nomination for election was previously so approved) cease for any reason to constitute at least a majority of the Board of Directors then in office. A Delaware Chancery Court has interpreted a similar “Continuing Directors” provision and found that, under Delaware law, for purposes of such definition, a board of directors may approve a slate of shareholder-nominated directors without endorsing them or while simultaneously recommending and endorsing its own slate instead, in each case without such action resulting in a Change of Control. If a New York court were to adopt a similar interpretation under New York law, the foregoing interpretation would permit our Board of Directors to

[Table of Contents](#)

approve a slate of directors that included a majority of dissident directors nominated pursuant to a proxy contest, and the ultimate election of such dissident slate would not constitute a Change of Control that would trigger your right to require Change of Control Offer by us to repurchase your Notes as described above.

Existing Debt of the Company contains, and future Debt of the Company or any Subsidiary of the Company may contain, limitations on certain events that would constitute a Change of Control or require such Debt to be repurchased upon a Change of Control. Moreover, the exercise by holders of Notes of their right to require the Company to repurchase such Notes could cause a default under existing or future Debt of the Company or its Subsidiaries, even if the Change of Control itself does not. In addition, the Company's ability to pay cash to holders of Notes upon a repurchase may be limited by the Company's then existing financial resources. The Company cannot assure you that sufficient funds will be available when necessary to make any required repurchases. The Company's failure to repurchase Notes in connection with a Change of Control would result in a default under the indenture. Such a default would, in turn, constitute a default under existing Debt of the Company and may constitute a default under future Debt as well. The Company's obligation to make an offer to repurchase the Notes as a result of a Change of Control may be waived or modified at any time prior to the occurrence of such Change of Control with the written consent of the holders of at least a majority in aggregate principal amount of the Notes. See "—Amendments and waivers." See also "Risk factors—Risks related to the notes—In the event of a change of control, we may not be able to repurchase the notes as required by the indenture, which would result in a default under the indenture."

Certain covenants

Covenant suspension. During any period of time (such period, the "Suspension Period") that:

- (a) the Notes have Investment Grade Ratings from both Rating Agencies; and
- (b) no Default or Event of Default has occurred and is continuing under the Indenture, the Company and the Restricted Subsidiaries will not be subject to the following provisions of the Indenture:
 - "—Limitation on debt;"
 - "—Limitation on restricted payments;"
 - "—Limitation on asset sales;"
 - "—Limitation on restrictions on distributions from restricted subsidiaries;"
 - "—Limitation on transactions with affiliates;"
 - clauses (a) and (b) of the first paragraph and clause (x) of the fifth paragraph of "—Designation of restricted and unrestricted subsidiaries;" and
 - clause (d) of the first paragraph of "—Merger, consolidation and sale of property"

(collectively, the "Suspended Covenants"). In the event that the Company and the Restricted Subsidiaries are not subject to the Suspended Covenants for any period of time as a result of the preceding sentence and, subsequently, one or both of the Rating Agencies withdraws its ratings or downgrades the ratings assigned to the Notes below the required Investment Grade Ratings or a Default or Event of Default occurs and is continuing (such date, the "Reversion Date"), then the Company and the Restricted Subsidiaries will thereafter again be subject to the Suspended Covenants and compliance with the Suspended Covenants with respect to Restricted Payments made after the time of such withdrawal, downgrade, Default or Event of Default will be calculated in accordance with the terms of the covenant described below under "—Limitation on restricted payments" as though such covenant had been in effect during the entire Suspension Period. On the Reversion Date, all Debt Incurred during the Suspension Period will be classified to have been Incurred pursuant to the first paragraph of "—Limitation on debt" or one of the clauses set forth in the second paragraph of "—Limitation on debt" (to the extent such Debt would be permitted to be Incurred thereunder as of the Reversion Date and after giving effect to the Debt Incurred prior to the Suspension Period and outstanding on the Reversion Date and, in the case of any

Table of Contents

clause set forth in the second paragraph of “—Limitation on debt,” shall reduce amounts available to be Incurred under such clause thereafter). To the extent such Debt would not be so permitted to be Incurred pursuant to the first and second paragraphs of “—Limitation on debt,” such Debt will be deemed to have been outstanding on the Issue Date, so that it is classified as permitted under clause (j) of the definition of “Permitted Debt.”

Limitation on debt. The Company shall not, and shall not permit any Restricted Subsidiary to, Incur, directly or indirectly, any Debt unless, after giving effect to the application of the proceeds therefrom, no Default or Event of Default would occur as a consequence of such Incurrence or be continuing following such Incurrence and either:

- (1) in the case of an Incurrence of Debt by the Company or a Guarantor (including any Restricted Subsidiary that becomes a Guarantor concurrently with the Incurrence of such Debt), after giving effect to the Incurrence of such Debt and the application of the proceeds thereof, the Consolidated Fixed Charge Coverage Ratio would be at least 2.0 to 1.0; or
- (2) such Debt is Permitted Debt.

The term “Permitted Debt” is defined to include the following:

- (a) Debt of the Company evidenced by the Notes (excluding any Additional Notes) issued in this offering and any notes issued in exchange for the Notes (excluding any Additional Notes) pursuant to the Registration Rights Agreement and Debt of any Guarantor under a Guarantee of the Notes or any Guarantee of any such exchange notes;
- (b) Debt of the Company or a Restricted Subsidiary under Credit Facilities, *provided* that the aggregate principal amount of all such Debt under Credit Facilities at any one time outstanding shall not exceed \$1,500 million;
- (c) Debt of the Company or a Restricted Subsidiary in respect of Capital Lease Obligations and Purchase Money Debt, *provided* that:
 - (1) the aggregate principal amount of such Debt does not exceed the Fair Market Value (on the date of the Incurrence thereof) of the Property acquired, constructed or leased; and
 - (2) the aggregate principal amount of all Debt Incurred and then outstanding pursuant to this clause (c) (together with all Permitted Refinancing Debt Incurred and then outstanding in respect of Debt previously Incurred pursuant to this clause (c)) does not exceed 15% of Total Assets;
- (d) Debt of the Company owing to and held by any Restricted Subsidiary and Debt of a Restricted Subsidiary owing to and held by the Company or any Restricted Subsidiary; *provided*, that if the Company or a Guarantor is the obligor on such Debt Incurred after the Issue Date, then such Debt is expressly subordinated by its terms to the prior payment in full in cash of the Notes or the Guarantee of such Guarantor, as the case may be; *provided, however*, that any subsequent issue or transfer of Capital Stock or other event that results in any such Restricted Subsidiary ceasing to be a Restricted Subsidiary or any subsequent transfer of any such Debt (except to the Company or a Restricted Subsidiary) shall be deemed, in each case, to constitute the Incurrence of such Debt by the issuer thereof;
- (e) Debt of a Restricted Subsidiary outstanding on the date on which such Restricted Subsidiary is acquired by the Company or otherwise becomes a Restricted Subsidiary (other than Debt Incurred as consideration in, or to provide all or any portion of the funds or credit support utilized to consummate, the transaction or series of transactions pursuant to which such Restricted Subsidiary became a Subsidiary of the Company or was otherwise acquired by the Company); *provided* that after giving effect to the Incurrence of such Debt either (i) the Consolidated Fixed Charge Coverage Ratio for the Company would be at least 2.0 to 1.0 or (ii) the Consolidated Fixed Charge Coverage Ratio would be greater than such ratio immediately prior to such Incurrence;
- (f) Debt under Interest Rate Agreements entered into by the Company or a Restricted Subsidiary for the purpose of managing interest rate risk in the ordinary course of the financial management of the Company or such Restricted Subsidiary and not for speculative purposes;

Table of Contents

- (g) Debt under Currency Exchange Protection Agreements entered into by the Company or a Restricted Subsidiary for the purpose of managing currency exchange rate risks in the ordinary course of business and not for speculative purposes;
- (h) guarantees by (i) the Company of Debt or any other obligation of any Restricted Subsidiary otherwise permitted pursuant to this covenant, (ii) any Restricted Subsidiary that is not a Guarantor of Debt or any other obligation of any Restricted Subsidiary that is not a Guarantor otherwise permitted pursuant to this covenant, (iii) any Guarantor of Debt or any other obligation of the Company or any Restricted Subsidiary otherwise permitted pursuant to this covenant or (iv) any Restricted Subsidiary of Debt of the Company that is incurred pursuant to clause (b) above or is secured by a Permitted Lien;
- (i) Debt in connection with one or more standby letters of credit or performance or surety bonds issued by the Company or a Restricted Subsidiary in the ordinary course of business or pursuant to self-insurance obligations and not in connection with the borrowing of money or the obtaining of advances or credit not to exceed 2.5% of Total Assets at any time outstanding;
- (j) (i) For the 6.75% Notes, Debt of the Company or a Restricted Subsidiary outstanding on the Issue Date not otherwise described in clauses (a) through (i) above, including without limitation the Convertible Notes, the 2017 Notes, the 2020 Notes and the 2022 Notes and (ii) for the 7.00% Notes, Debt of the Company or a Restricted Subsidiary outstanding on the Issue Date not otherwise described in clauses (a) through (i) above, including without limitation the Convertible Notes, the 2019 Notes, the 2020 Notes and the 2022 Notes;
- (k) Debt of the Company or a Guarantor in an aggregate principal amount outstanding at any one time not to exceed the sum of (i) \$500.0 million plus (ii) 5% of Consolidated Net Tangible Assets (which amount can include guarantees of Debt of Unrestricted Subsidiaries, *provided* such guarantee is Incurred in compliance with the covenant described under “—Limitation on restricted payments”);
- (l) Debt of the Company or a Restricted Subsidiary in connection with any customary receivables discounting, factoring or securitization facility that is Non-Recourse Debt (other than pursuant to customary undertakings (as determined in good faith by the Company) in connection with off-balance sheet securitization and factoring facilities) outstanding at any one time not to exceed \$300.0 million; and
- (m) Permitted Refinancing Debt Incurred in respect of Debt Incurred pursuant to clause (1) of the first paragraph of this covenant and clauses (a), (c), (e) and (j) above and this clause (m).

Notwithstanding anything to the contrary in this covenant:

- (a) the Company shall not Incur any Debt pursuant to this covenant if the proceeds thereof are used, directly or indirectly, to Refinance any Subordinated Obligations unless such Debt shall be subordinated to the Notes to at least the same extent as such Subordinated Obligations; and
- (b) accrual of interest, accretion or amortization of original issue discount and the payment of interest or dividends in the form of additional Debt will be deemed not to be an Incurrence of Debt for the purposes of this covenant.

For purposes of determining compliance with this covenant, (i) subject to clause (ii) below, in the event that an item of Debt meets the criteria of more than one of the categories of Permitted Debt described in clauses (a) through (m) above or is entitled to be Incurred pursuant to clause (1) of the first paragraph of this covenant, the Company shall, in its sole discretion, classify (or later reclassify in whole or in part, in its sole discretion) such item of Debt in any manner that complies with this covenant and (ii) all Debt outstanding on the Issue Date under the Revolving Credit Facility shall be deemed incurred on the Issue Date under clause (b) of Permitted Debt and may not be reclassified at any time.

For purposes of determining compliance with any dollar-denominated restriction on the Incurrence of Debt, with respect to any Debt which is denominated in a foreign currency, the dollar-equivalent principal amount of such Debt Incurred pursuant thereto shall be calculated based on the relevant currency exchange rate in effect on the date that such Debt was Incurred, and any such foreign-denominated Debt may be Refinanced or replaced or

Table of Contents

subsequently Refinanced or replaced in an amount equal to the dollar equivalent principal amount of such Debt on the date of such refinancing or replacement whether or not such amount is greater or less than the dollar equivalent principal amount of the Debt on the date of initial Incurrence.

Limitation on restricted payments. The Company shall not make, and shall not permit any Restricted Subsidiary to make, directly or indirectly, any Restricted Payment if at the time of, and after giving effect to, such proposed Restricted Payment,

- (a) a Default or Event of Default shall have occurred and be continuing,
- (b) the Company could not Incur at least \$1.00 of additional Debt pursuant to clause (1) of the first paragraph of the covenant described under “—Limitation on debt,” or
- (c) the aggregate amount of such Restricted Payment and all other Restricted Payments declared or made since November 30, 2009 (the amount of any Restricted Payment, if made other than in cash, to be based upon Fair Market Value at the time of such Restricted Payment) would exceed an amount equal to the sum of:
 - (1) 50% of the aggregate amount of Consolidated Net Income accrued during the period (treated as one accounting period) from September 27, 2009 to the end of the most recently ended fiscal quarter for which internal financial statements are available (or if the aggregate amount of Consolidated Net Income for such period shall be a deficit, minus 100% of such deficit), plus
 - (2) 100% of Capital Stock Sale Proceeds, plus
 - (3) the sum of:
 - (A) the aggregate net cash proceeds received by the Company or any Restricted Subsidiary from the issuance or sale after November 30, 2009 of convertible or exchangeable Debt or Disqualified Stock that has been converted into or exchanged for Capital Stock (other than Disqualified Stock) of the Company, and
 - (B) the aggregate amount by which Debt (other than Subordinated Obligations) of the Company or any Restricted Subsidiary is reduced on the Company’s consolidated balance sheet on or after November 30, 2009 upon the conversion or exchange of any such Debt issued or sold on or prior to November 30, 2009 that is convertible or exchangeable for Capital Stock (other than Disqualified Stock) of the Company,excluding, in the case of clause (A) or (B):

 - (4) an amount equal to the sum of:

provided, however, that the amounts in (A), (B) and (C) shall not exceed, in the case of any Person, the amount of Investments previously made (and treated as a Restricted Payment) by the Company or any Restricted Subsidiary in such Person, plus

(5) \$100.0 million.

Notwithstanding the foregoing limitation, the Company and its Restricted Subsidiaries, as applicable, may:

- (a) pay dividends on its Capital Stock within 60 days of the declaration thereof if, on the declaration date, such dividends could have been paid in compliance with the Indenture; *provided, however*, that such dividend shall be included in the calculation of the amount of Restricted Payments at the time declared;

 - (1) such purchase, repurchase, redemption, legal defeasance, acquisition or retirement shall be excluded in the calculation of the amount of Restricted Payments, and
 - (2) the Capital Stock Sale Proceeds from such exchange or sale shall be excluded from the calculation pursuant to clause (c)(2) above;
- (c) purchase, repurchase, redeem, legally defease, acquire or retire for value any Subordinated Obligations in exchange for, or out of the proceeds of the substantially concurrent sale of, Permitted Refinancing Debt; *provided, however*, that such purchase, repurchase, redemption, legal defeasance, acquisition or retirement shall be excluded in the calculation of the amount of Restricted Payments;
- (d) repurchase shares of, or options to purchase shares of, common stock of the Company or any of its Subsidiaries from current or former officers, directors or employees of the Company or any of its Subsidiaries (or permitted transferees of such current or former officers, directors or employees), pursuant to the terms of agreements (including employment agreements) or plans (or amendments thereto) approved by the Board of Directors under which such individuals purchase or sell, or are granted the option to purchase or sell, shares of such common stock; *provided, however*, that:
 - (1) the aggregate amount of such repurchases shall not exceed \$10.0 million in any calendar year; and
 - (2) at the time of such repurchase, no other Default or Event of Default shall have occurred and be continuing (or result therefrom);

provided further, however, that such repurchases shall be excluded in the calculation of the amount of Restricted Payments;

- (e) make payments on intercompany Debt, the Incurrence of which was permitted pursuant to the covenant described under “—Limitation on debt;” *provided* that such purchase, repurchase, redemption, legal defeasance, acquisition or retirement shall be excluded in the calculation of the amount of Restricted Payments;

- (h) repurchase or redeem, for nominal consideration, preferred stock purchase rights issued in connection with any shareholder rights plan of the Company; *provided* that any such payments shall not be included in the calculation of the amount of Restricted Payments; and
- (i) make cash payments in connection with any conversion of Convertible Debt in an aggregate amount since the Issue Date not to exceed the sum of (y) the principal amount of such Convertible Debt plus (z) any payments received by the Company or any of its Restricted Subsidiaries pursuant to the exercise, settlement or termination of any related Permitted Bond Hedge Transaction; *provided* that any such payments shall not be included in the calculation of the amount of Restricted Payments;

- (k) make other Restricted Payments in an aggregate amount not to exceed \$100.0 million.

Limitation on liens. The Company shall not directly or indirectly, Incur or permit any Guarantor to Incur or suffer to exist, any Lien (other than Permitted Liens) upon any of the Property of the Company or a Guarantor (including Capital Stock of a Restricted Subsidiary), whether owned at the Issue Date or thereafter acquired, or any interest therein or any income or profits therefrom, unless it has made or will make effective provision whereby the Notes will be secured by such Lien equally and ratably with (or, if such other Debt constitutes Subordinated Obligations, prior to) all other Debt or other obligations of the Company or such Guarantor secured by such Lien for so long as such other Debt or other obligations are secured by such Lien; *provided, however*, that if the Debt or other obligations so secured are expressly subordinated to the Notes or the Guarantee of such Guarantor, then the Lien securing such Debt or other obligations shall be subordinated and junior to the Lien securing the Notes.

Limitation on asset sales. The Company shall not, and shall not permit any Restricted Subsidiary to, directly or indirectly, consummate any Asset Sale unless:

- (a) the Company or such Restricted Subsidiary receives consideration at the time of such Asset Sale at least equal to the Fair Market Value of the Property subject to such Asset Sale;
- (b) at least 75% of the consideration paid to the Company or such Restricted Subsidiary in connection with such Asset Sale is in the form of cash or Cash Equivalents; and
- (c) the Company delivers an Officers' Certificate to the Trustee certifying that such Asset Sale complies with the foregoing clauses (a) and (b).

Solely for the purposes of clause (b) above of this "Limitation on asset sales" provision, the following will be deemed to be cash:

- (x) the assumption by the purchaser of liabilities of the Company or any Restricted Subsidiary (other than contingent liabilities or liabilities that are by their terms subordinated to the Notes) as a result of which the Company and the Restricted Subsidiaries are no longer obligated with respect to such liabilities;
- (y) any securities, notes or other obligations received by the Company or any such Restricted Subsidiary from such purchaser to the extent they are promptly converted or monetized by the Company or such Restricted Subsidiary into cash (to the extent of the cash received); and
- (z) Additional Assets.

Table of Contents

The Net Available Cash (or any portion thereof) from Asset Sales may be applied by the Company or a Restricted Subsidiary, to the extent the Company or such Restricted Subsidiary elects (or is required by the terms of any Debt) to:

- (a) permanently prepay or permanently repay any (1) Debt under any Credit Facility permitted by clause (b) of the definition of Permitted Debt, (2) Debt evidenced by the Convertible Notes, (3) Debt which had been secured by the assets sold in the relevant Asset Sale, and (4) Debt of a Restricted Subsidiary that is not a Guarantor; and/or
- (b) to reinvest in Additional Assets (including by means of an Investment in Additional Assets by a Restricted Subsidiary with Net Available Cash received by the Company or another Restricted Subsidiary).

Any Net Available Cash from an Asset Sale not applied in accordance with the preceding paragraph within 365 days from the date of the receipt of such Net Available Cash shall constitute "Excess Proceeds."

When the aggregate amount of Excess Proceeds exceeds \$25.0 million (taking into account income earned on such Excess Proceeds, if any), the Company will be required to make an offer to repurchase (the "Prepayment Offer") the Notes, which offer shall be in the amount of the Allocable Excess Proceeds (rounded to the nearest \$1,000), on a *pro rata* basis according to principal amount, at a purchase price equal to 100% of the principal amount thereof, plus accrued and unpaid interest to, but excluding, the repurchase date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date), in accordance with the procedures (including prorating in the event of oversubscription) set forth in the Indenture. To the extent that any portion of the amount of Net Available Cash remains after compliance with the preceding sentence and *provided* that all holders of Notes have been given the opportunity to tender their Notes for repurchase in accordance with the Indenture, the Company or such Restricted Subsidiary may use such remaining amount for any purpose permitted by the Indenture, and the amount of Excess Proceeds will be reset to zero.

The term "Allocable Excess Proceeds" shall mean the product of:

- (a) the Excess Proceeds; and
- (b) a fraction,
 - (1) the numerator of which is the aggregate principal amount of the Notes outstanding on the date of the Prepayment Offer, and
 - (2) the denominator of which is the sum of the aggregate principal amount of the Notes outstanding on the date of the Prepayment Offer and the aggregate principal amount of other Debt of the Company (other than Subordinated Obligations) outstanding on the date of the Prepayment Offer and subject to terms and conditions in respect of Asset Sales similar in all material respects to this covenant and requiring the Company to make an offer to repurchase such Debt at substantially the same time as the Prepayment Offer.

Within five business days after the Company is obligated to make a Prepayment Offer as described in the preceding paragraph, the Company shall send a written notice, by first-class mail, to the holders of Notes, accompanied by such information regarding the Company and its Subsidiaries as the Company in good faith believes will enable such holders to make an informed decision with respect to such Prepayment Offer. Such notice shall state, among other things, the purchase price and the repurchase date, which shall be, subject to any contrary requirements of applicable law, a business day no earlier than 30 days nor later than 60 days from the date such notice is mailed.

The Company will comply, to the extent applicable, with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws or regulations in connection with the repurchase of Notes pursuant to this covenant. To the extent that the provisions of any securities laws or regulations conflict with provisions of this covenant, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under this covenant by virtue thereof.

Limitation on restrictions on distributions from restricted subsidiaries. The Company shall not, and shall not permit any Restricted Subsidiary to, directly or indirectly, create or otherwise cause or suffer to exist any consensual restriction on the right of any Restricted Subsidiary to:

- (a) pay dividends, in cash or otherwise, or make any other distributions on or in respect of its Capital Stock, or pay any Debt or other obligation owed, to the Company or any other Restricted Subsidiary;
- (b) make any loans or advances to the Company or any other Restricted Subsidiary; or
- (c) transfer any of its Property to the Company or any other Restricted Subsidiary.

The foregoing limitations will not apply:

- (1) with respect to clauses (a), (b) and (c), to restrictions:
 - (A) in effect on the Issue Date (including, without limitation, restrictions pursuant to the Notes and the Indenture);
 - (B) relating to Debt of a Restricted Subsidiary and existing at the time it became a Restricted Subsidiary if such restriction was not created in connection with or in anticipation of the transaction or series of transactions pursuant to which such Restricted Subsidiary became a Restricted Subsidiary or was acquired by the Company;
 - (C) that result from the Refinancing of Debt Incurred pursuant to an agreement referred to in clause (1)(A) or (B) above or in clause (2)(A) or (B) below, *provided* such restrictions are not materially less favorable, taken as a whole, to the holders of Notes than those under the agreement evidencing the Debt so Refinanced;
 - (D) relating to Debt Incurred after the Issue Date, so long as such restrictions (x) are not materially less favorable, taken as a whole, to the holders of Notes than those restrictions in effect on the Issue Date pursuant to the Notes and the Indenture, (y) will not, in the good faith judgment of the Company, materially impair the ability of the Company to make regularly scheduled payments of interest and principal on the Notes when due or (z) relate to Debt Incurred pursuant to clause (c) of the definition of Permitted Debt contained herein, so long as the respective restrictions apply only to specific Property or projects financed with the respective Incurrence of Debt and/or to any Subsidiary substantially of all whose assets consist of Property or a project financed with proceeds of such Debt;
 - (E) existing under or by reason of applicable law or governmental regulation; or
 - (F) that constitute customary restrictions contained in joint venture agreements, asset sale agreements, sale-leaseback agreements, stock sale agreements and other similar agreements entered into in good faith and not otherwise prohibited by the Indenture; and
- (2) with respect to clause (c) only, to restrictions:
 - (A) relating to Debt that is permitted to be Incurred and secured without also securing the Notes pursuant to the covenants described under “—Limitation on debt” and “—Limitation on liens” that limit the right of the debtor to dispose of the Property securing such Debt;
 - (B) encumbering Property at the time such Property was acquired by the Company or any Restricted Subsidiary, so long as such restrictions relate solely to the Property so acquired and were not created in connection with or in anticipation of such acquisition;
 - (C) resulting from customary provisions restricting subletting or assignment of leases or customary provisions in other agreements that restrict assignment of such agreements or rights thereunder;
 - (D) restrictions on cash or other deposits or net worth imposed by customers under contracts entered into in the ordinary course of business; or
 - (E) customary restrictions contained in asset sale agreements limiting the transfer of such Property pending the closing of such sale.

Limitation on transactions with affiliates. The Company shall not, and shall not permit any Restricted Subsidiary to, directly or indirectly, conduct any business or enter into or suffer to exist any transaction or series of related transactions (including the purchase, sale, transfer, assignment, lease, conveyance or exchange of any Property or the rendering of any service) with, or for the benefit of, any Affiliate of the Company (an “Affiliate Transaction”), unless:

- (a) the terms of such Affiliate Transaction are:
 - (1) set forth in writing; and
 - (2) no less favorable to the Company or such Restricted Subsidiary, as the case may be, than those that could be obtained in a comparable arm’s-length transaction with a Person that is not an Affiliate of the Company;
- (b) if such Affiliate Transaction involves aggregate payments or value in excess of \$25.0 million, the Board of Directors (including at least a majority of the disinterested members of the Board of Directors) approves such Affiliate Transaction and, in its good faith judgment, believes that such Affiliate Transaction complies with clause (a)(2) of this paragraph as evidenced by a resolution of the Board of Directors; and
- (c) if such Affiliate Transaction involves aggregate payments or value in excess of \$50.0 million, the Company obtains a written opinion from an Independent Financial Advisor to the effect that the consideration to be paid or received in connection with such Affiliate Transaction is fair, from a financial point of view, to the Company and any relevant Restricted Subsidiaries.

Notwithstanding the foregoing limitation, the Company or any Restricted Subsidiary may enter into or suffer to exist the following:

- (a) any transaction or series of transactions between the Company and one or more Restricted Subsidiaries or between two or more Restricted Subsidiaries;
- (b) any Restricted Payment permitted to be made pursuant to the covenant described under “—Limitation on restricted payments” or any Permitted Investment;
- (c) any employment, indemnification or other similar agreement or employee benefit plan entered into by the Company or a Restricted Subsidiary with an employee, officer or director (and payments pursuant thereto) in the ordinary course of business and consistent with past practice that is not otherwise prohibited by the Indenture;
- (d) loans and advances to employees made in the ordinary course of business consistent with past practices of the Company or a Restricted Subsidiary, as the case may be; *provided* that such loans and advances do not exceed \$10.0 million in the aggregate at any one time outstanding;
- (e) payment of reasonable directors’ fees to persons who are not otherwise Affiliates of the Company;
- (f) any issuances of Capital Stock (other than Disqualified Stock) of the Company to Affiliates of the Company; and
- (g) agreements (and the transactions contemplated thereunder) in effect on the Issue Date (including agreements with GLOBALFOUNDRIES) and any modifications, extensions or renewals thereto that are not materially less favorable, taken as a whole, to the Company or any Restricted Subsidiary than such agreements as in effect on the Issue Date.

Designation of restricted and unrestricted subsidiaries. The Board of Directors may designate any Subsidiary of the Company to be an Unrestricted Subsidiary if:

- (a) either (1) the Company or a Restricted Subsidiary, as the case may be, is permitted to make an Investment in such Subsidiary equal to the sum of the (A) Fair Market Value of the Capital Stock of such Subsidiary plus

Table of Contents

(B) the amount of any Debt owed by such Subsidiary to the Company, in each case pursuant to the first paragraph of the covenant under the caption “—Limitation on restricted payments,” or (2) such Investment constitutes a Permitted Investment;

- (b) immediately after giving *pro forma* effect to such designation, the Company could Incur at least \$1.00 of additional Debt pursuant to clause (1) of the first paragraph of the covenant described under “—Limitation on debt;” and
- (c) such Subsidiary does not own any Capital Stock or Debt of, or own or hold any Lien on any Property of, the Company or any Restricted Subsidiary and does not have any Debt other than Non-Recourse Debt.

Unless so designated as an Unrestricted Subsidiary, any Person that becomes a Subsidiary of the Company will be classified as a Restricted Subsidiary; *provided, however*, that such Subsidiary shall not be designated a Restricted Subsidiary and shall be automatically classified as an Unrestricted Subsidiary if such Person is a Subsidiary of an Unrestricted Subsidiary.

Except as provided in the first sentence of the first paragraph of this covenant, and except as provided in the immediately preceding paragraph, no Restricted Subsidiary may be redesignated as an Unrestricted Subsidiary, and neither the Company nor any Restricted Subsidiary shall at any time be directly or indirectly liable for any Debt (other than Debt pursuant to the Indenture) that provides that the holder thereof may (with the passage of time or notice or both) declare a default thereon or cause the payment thereof to be accelerated or payable prior to its Stated Maturity upon the occurrence of a default with respect to any Debt, Lien or other obligation of any Unrestricted Subsidiary (including any right to take enforcement action against any such Unrestricted Subsidiary).

The Board of Directors may designate any Unrestricted Subsidiary to be a Restricted Subsidiary if, immediately after giving *pro forma* effect to such designation,

- (x) the Company could Incur at least \$1.00 of additional Debt pursuant to clause (1) of the first paragraph of the covenant described under “—Limitation on debt;” and
- (y) no Default or Event of Default shall have occurred and be continuing or would result therefrom.

Any such designation or redesignation by the Board of Directors will be evidenced to the Trustee by filing with the Trustee a resolution of the Board of Directors giving effect to such designation or redesignation and an Officers’ Certificate that:

- (a) certifies that such designation or redesignation complies with the foregoing provisions; and
- (b) gives the effective date of such designation or redesignation,

such filing with the Trustee to occur within 60 days after the end of the fiscal quarter of the Company in which such designation or redesignation is made (or, in the case of a designation or redesignation made during the last fiscal quarter of the Company’s fiscal year, within 90 days after the end of such fiscal year).

Merger, consolidation and sale of property

The Company shall not merge or consolidate with or into any other Person (other than a merger of a Wholly Owned Restricted Subsidiary and the Company) or sell, transfer, assign, lease, convey or otherwise dispose of all or substantially all its Property (other than sales, transfers, assignments, leases, conveyances or dispositions to a Wholly Owned Restricted Subsidiary) in any one transaction or series of transactions unless:

- (a) the Company shall be the Surviving Person in such merger or consolidation, or the Surviving Person (if other than the Company) formed by such merger or consolidation or to which such sale, transfer, assignment, lease, conveyance or disposition is made shall be a corporation organized and existing under the laws of the United States of America, any State thereof or the District of Columbia;

Table of Contents

- (b) the Surviving Person (if other than the Company) expressly assumes, by supplemental indenture in form reasonably satisfactory to the Trustee, executed and delivered to the Trustee by such Surviving Person, the due and punctual payment of the principal of, and premium, if any, and interest on, all the Notes, according to their tenor, and the due and punctual performance and observance of all the covenants and conditions of the Indenture to be performed by the Company;
- (c) immediately before and after giving effect to such transaction or series of transactions on a *pro forma* basis (and treating, for purposes of this clause (c) and clause (d) below, any Debt that becomes, or is anticipated to become, an obligation of the Surviving Person or any Restricted Subsidiary as a result of such transaction or series of transactions as having been Incurred by the Surviving Person or such Restricted Subsidiary at the time of such transaction or series of transactions), no Default or Event of Default shall have occurred and be continuing;
- (d) immediately after giving effect to such transaction or series of transactions on a *pro forma* basis, (x) the Company or the Surviving Person, as the case may be, would be able to Incur at least \$1.00 of additional Debt under clause (1) of the first paragraph of the covenant described under “—Certain covenants—Limitation on debt,” or (y) the Consolidated Fixed Charge Coverage Ratio for the Company or the Surviving Person would be greater than such ratio immediately prior to such transaction or series of transactions; and
- (e) the Company shall deliver, or cause to be delivered, to the Trustee, in form and substance reasonably satisfactory to the Trustee, an Officers’ Certificate and an Opinion of Counsel, each stating that such transaction or series of transactions and the supplemental indenture, if any, in respect thereto comply with this covenant and that all conditions precedent herein provided for relating to such transaction or series of transactions have been satisfied.

The Surviving Person shall succeed to, and be substituted for, and may exercise every right and power of the Company under the Indenture; *provided* that the predecessor company in the case of:

- (a) a sale, transfer, assignment, conveyance or other disposition of all or substantially all of its Property (unless such sale, transfer, assignment, conveyance or other disposition is of all the Property of the Company as an entirety or virtually as an entirety), or
- (b) a lease,

shall not be released from any of the obligations or covenants under the Indenture, including with respect to the payment of the Notes.

Payments for consents

The Company will not, and will not permit any of its Subsidiaries to, directly or indirectly, pay or cause to be paid any consideration, whether by way of interest, fee or otherwise, to any holder of any Notes for or as an inducement to any consent, waiver or amendment of any of the terms or provisions of the Indenture or the Notes unless such consideration is offered to be paid or is paid to all holders of the Notes that consent, waive or agree to amend in the time frame set forth in the solicitation documents relating to such consent, waiver or agreement.

SEC reports

Notwithstanding that the Company may not be subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, the Company shall file with the Commission and provide the Trustee and holders of Notes with such annual reports and such information, documents and other reports as are specified in Sections 13 and 15(d) of the Exchange Act and applicable to a U.S. corporation subject to such Sections, such information, documents and reports to be so filed with the Commission and provided at the times specified for the filing of such information, documents and reports under such Sections; *provided, however*, that the Company shall not be so obligated to file such information, documents and reports with the Commission if the Commission does not permit such filings.

Table of Contents

Events of default

Events of Default in respect of the Notes include:

- (1) failure to make the payment of any interest on the Notes when the same becomes due and payable, and such failure continues for a period of 30 days;
- (2) failure to make the payment of any principal of, or premium, if any, on, any of the Notes when the same becomes due and payable at its Stated Maturity, upon acceleration, redemption, optional redemption, required repurchase or otherwise;
- (3) failure to comply with the covenant described under “—Merger, consolidation and sale of property;”
- (4) failure to comply with any other covenant or agreement in the Notes or in the Indenture (other than a failure that is the subject of the foregoing clause (1), (2) or (3)), and such failure continues for 45 days after written notice is given to the Company as provided below;
- (5) a default under any Debt by the Company or any Restricted Subsidiary that results in acceleration of the maturity of such Debt, or failure to pay any such Debt at maturity, in an aggregate amount greater than \$50.0 million or its foreign currency equivalent at the time (the “cross acceleration provisions”);
- (6) any judgment or judgments for the payment of money in an aggregate amount in excess of \$50.0 million (or its foreign currency equivalent at the time) that shall be rendered against the Company or any Significant Subsidiary and that shall not be waived, satisfied or discharged for any period of 60 consecutive days during which a stay of enforcement shall not be in effect (the “judgment default provisions”); and
- (7) certain events involving bankruptcy, insolvency or reorganization of the Company or any Significant Subsidiary (the “bankruptcy provisions”).

A Default under clause (4) is not an Event of Default until the Trustee or the holders of not less than 25% in aggregate principal amount of the Notes then outstanding notify the Company of the Default and the Company does not cure such Default within 45 days after receipt of such notice. Such notice must specify the Default, demand that it be remedied and state that such notice is a “Notice of Default.”

The Company shall deliver to the Trustee, within 30 days after the occurrence thereof, written notice in the form of an Officers’ Certificate of any event that with the giving of notice or the lapse of time or both would become an Event of Default, its status and what action the Company is taking or proposes to take with respect thereto.

If an Event of Default with respect to the Notes (other than an Event of Default resulting from certain events involving bankruptcy, insolvency or reorganization with respect to the Company) shall have occurred and be continuing, the Trustee or the holders of not less than 25% in aggregate principal amount of the Notes then outstanding may declare to be immediately due and payable the principal amount of all the Notes then outstanding, plus accrued but unpaid interest to the date of acceleration. In case an Event of Default resulting from certain events of bankruptcy, insolvency or reorganization with respect to the Company shall occur, such amount with respect to all the Notes shall be due and payable immediately without any declaration or other act on the part of the Trustee or the holders of the Notes. After any such acceleration, but before a judgment or decree based on acceleration is obtained by the Trustee, the holders of at least a majority in aggregate principal amount of the Notes then outstanding may, under certain circumstances, rescind and annul such acceleration if all Events of Default, other than the nonpayment of accelerated principal, premium or interest, have been cured or waived as provided in the Indenture.

Notwithstanding the foregoing, the Indenture will provide that, to the extent elected by the Company, the sole remedy for an Event of Default relating to the failure to file any documents or reports that the Company is required to file with the Commission pursuant to Section 13 or 15(d) of the Exchange Act and for any failure to comply with the requirements of Section 314(a)(1) of the Trust Indenture Act or of the covenant described above in “—SEC reports,” will for the first 60 days after the occurrence of such an Event of Default consist exclusively

Table of Contents

of the right to receive an extension fee on the Notes in an amount equal to 0.25% of the principal amount of the Notes. The extension fee will be in addition to any additional interest that may accrue as a result of a registration default as described below under the caption "Exchange offer and registration rights agreement." If the Company so elects, such extension fee will be payable on all outstanding Notes on or before the date on which such Event of Default first occurs. On the 61st day after such Event of Default (if the Event of Default relating to the reporting obligations is not cured or waived prior to such 61st day), the Notes will be subject to acceleration as provided above. The provisions of the Indenture described in this paragraph will not affect the rights of holders of Notes in the event of the occurrence of any other Event of Default. In the event the Company does not elect to pay the extension fee in accordance with this paragraph, the Notes will be subject to acceleration as provided above.

In order to elect to pay the extension fee as the sole remedy during the first 60 days after the occurrence of an Event of Default relating to the failure to comply with the reporting obligations in accordance with the immediately preceding paragraph, the Company must (i) notify all holders of Notes and the Trustee and paying agent of such election and (ii) pay such extension fee on or before the close of business on the date on which such Event of Default occurs. Upon the Company's failure to timely give such notice or pay the extension fee, the Notes will be subject to acceleration as provided above.

Subject to the provisions of the Indenture relating to the duties of the Trustee, in case an Event of Default shall occur and be continuing, the Trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request or direction of any of the holders of the Notes, unless such holders shall have offered to the Trustee reasonable indemnity. Subject to such provisions for the indemnification of the Trustee, the holders of at least a majority in aggregate principal amount of the Notes then outstanding will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee with respect to the Notes.

No holder of Notes will have any right to institute any proceeding with respect to the Indenture, or for the appointment of a receiver or trustee, or for any remedy thereunder, unless:

- (a) such holder has previously given to the Trustee written notice of a continuing Event of Default;
- (b) the holders of at least 25% in aggregate principal amount of the Notes then outstanding have made a written request and offered reasonable indemnity to the Trustee to institute such proceeding as trustee; and
- (c) the Trustee shall not have received from the holders of at least a majority in aggregate principal amount of the Notes then outstanding a direction inconsistent with such request and shall have failed to institute such proceeding within 60 days.

However, such limitations do not apply to a suit instituted by a holder of any Note for enforcement of payment of the principal of, and premium, if any, or interest on, such Note on or after the respective due dates expressed in such Note.

No personal liability of directors, officers, employees and stockholders

No director, officer, employee, incorporator or stockholder of the Company, as such, will have any liability for any obligations of the Company under the Notes or the Indenture for any claim based on, in respect of, or by reason of, such obligations or their creation. Each holder of Notes by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes. The waiver may not be effective to waive liabilities under federal securities laws.

Amendments and waivers

Subject to certain exceptions, the Company and the Trustee with the consent of the holders of at least a majority in aggregate principal amount of the Notes then outstanding (including consents obtained in connection with a

Table of Contents

tender offer or exchange offer for the Notes) may amend the Indenture, the Notes and the Guarantees, and the holders of at least a majority in aggregate principal amount of the Notes outstanding may waive any past Default or compliance with any provisions of the Indenture and the Notes (except a Default in the payment of principal, premium, interest, and certain covenants and provisions of the Indenture which cannot be amended without the consent of each holder of an outstanding Note). However, without the consent of each affected holder of an outstanding Note, no amendment may, among other things:

- (1) reduce the amount of Notes whose holders must consent to an amendment or waiver;
- (2) reduce the rate of, or extend the time for payment of, interest on any Note;
- (3) reduce the principal of, or extend the Stated Maturity of, any Note;

- (c) 123 days pass after the deposit is made, and during the 123-day period, no Default described in clause (7) under "—Events of default" occurs with respect to the Company or any other Person making such deposit which is continuing at the end of the period;

- (h) in the case of the covenant defeasance option, the Company delivers to the Trustee an Opinion of Counsel to the effect that the holders of the Notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such covenant defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such covenant defeasance had not occurred; and

Book-entry; delivery and form

We will issue exchange notes only in fully registered form, without interest coupons, in denominations of \$2,000 and integral multiples of \$1,000. We will not issue Notes in bearer form. We initially issued the private notes, and will initially issue the exchange notes, in the form of one or more global notes (“Global Notes”). We will deposit the Global Notes upon issuance with the Trustee as custodian for The Depository Trust Company (“DTC”), in New York, New York, and register the Global Notes in the name of DTC or its nominee, in each case for credit to an account of a direct or indirect participant in DTC as described below.

Exchanges of book-entry notes for certificated notes

You may not exchange your beneficial interest in a Global Note for a Note in certificated form unless:

- (1) DTC (a) notifies us that it is unwilling or unable to continue as depository for the Global Note or (b) has ceased to be a clearing agency registered under the Exchange Act, and in either case we thereupon fail to appoint a successor depository; or
- (2) ‘We, at our option, notify the Trustee in writing that we are electing to issue the Notes in certificated form; or
- (3) an event of default shall have occurred and be continuing with respect to the notes represented by such Global Note.

In all cases, certificated Notes delivered in exchange for any Global Note or beneficial interests therein will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depository (in accordance with its customary procedures). Any certificated Notes issued in exchange for an interest in a Global Note will bear the legend restricting transfers that is borne by such Global Note. Any such exchange will be effected through the DTC Deposit/Withdraw at Custodian system and an appropriate adjustment will be made in the records of the Security Registrar to reflect a decrease in the principal amount of the relevant Global Note.

Certain book-entry procedures

The description of the operations and procedures of DTC, Euroclear Bank S.A./N.V. (as operator of the Euroclear system, “Euroclear”) and Clearstream Banking Luxembourg (“Clearstream”), that follows is provided solely as a matter of convenience. These operations and procedures are solely within their control and are subject to changes by them from time to time. We take no responsibility for these operations and procedures and urges you to contact the system or their participants directly to discuss these matters.

DTC has advised us as follows: DTC is a limited purpose trust company organized under the laws of the State of New York, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the Uniform Commercial Code and a “Clearing Agency” registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participants (“participants”) and facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes in accounts of its participants, thereby eliminating the need for physical transfer and delivery of certificates. Participants include securities brokers and dealers, banks, trust companies and clearing corporations and may include certain other organizations. Indirect access to the DTC system is available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly (“indirect participants”).

DTC has advised us that its current practice, upon the issuance of the Global Notes, is to credit, on its internal system, the respective principal amount of the individual beneficial interests represented by such Global Notes to the accounts with DTC of the participants through which such interests are to be held. Ownership of beneficial interests in the Global Notes will be shown on, and the transfer of that ownership will be effected only through, records maintained by DTC or its nominees (with respect to interests of participants).

[Table of Contents](#)

As long as DTC, or its nominee, is the registered holder of a Global Note, DTC or such nominee, as the case may be, will be considered the sole owner and holder of the Notes represented by such Global Note for all purposes under the Indentures and the Notes. Except in the limited circumstances described above under “—Exchanges of book-entry notes for certificated notes,” you will not be entitled to have any portions of a Global Note registered in your names, will not receive or be entitled to receive physical delivery of Notes in definitive form and will not be considered the owner or holder of a Global Note (or any Note represented thereby) under the Indentures or the Notes.

You may hold your interests in the Global Notes directly through DTC, if you are participants in such system, or indirectly through organizations (including Euroclear and Clearstream) which are participants in such system. Euroclear and Clearstream will hold interests in the Regulation S Global Note on behalf of their participants through customers’ securities accounts in their respective names on the books of their respective depositories. The depositories, in turn, will hold such interests in such Global Note in customers’ securities accounts in the depositories’ names on the books of DTC. All interests in a Global Note, including those held through Euroclear or Clearstream, will be subject to the procedures and requirements of DTC. Those interests held through Euroclear or Clearstream will also be subject to the procedures and requirements of such system.

The laws of some states require that certain persons take physical delivery in definitive form of securities that they own. Consequently, your ability to transfer your beneficial interests in a Global Note to such persons may be limited to that extent. Because DTC can act only on behalf of its participants, which in turn act on behalf of indirect participants and certain banks, your ability to pledge your interests in a Global Note to persons or entities that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

We will make payments of the principal of, premium, if any, and interest on Global Notes to DTC or its nominee as the registered owner thereof. Neither we nor the Trustee nor any of our or their respective agents will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

We expect that DTC or its nominee, upon receipt of any payment of principal or interest in respect of a Global Note representing any Notes held by it or its nominee, will immediately credit participants’ accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of such Global Note for such Notes as shown on the records of DTC or its nominee. We also expect that payments by participants to owners of beneficial interests in such Global Note held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in “street name.” Such payment will be the responsibility of such participants.

Except for trades involving only Euroclear and Clearstream participants, interests in the Global Note will trade in DTC’s settlement system, and secondary market trading activity in such interests will therefore settle in immediately available funds, subject in all cases to the rules and procedures of DTC and its participants. Transfers between participants in DTC will be effected in accordance with DTC’s procedures, and will be settled in same-day funds. Transfers between participants in Euroclear and Clearstream will be effected in the ordinary way in accordance with their respective rules and operating procedures.

Subject to compliance with the transfer and exchange provisions applicable to the Notes described elsewhere herein, cross-market transfers between DTC participants, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected by DTC in accordance with DTC’s rules on behalf of Euroclear or Clearstream, as the case may be, by its respective depository; however, such cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in such system in accordance with the rules and procedures and within the established deadlines (Brussels time) of such system. Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements,

[Table of Contents](#)

deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant Global Note in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream participants may not deliver instructions directly to the depositories for Euroclear or Clearstream.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a Global Note from a DTC participant will be credited, and any such crediting will be reported to the relevant Euroclear or Clearstream participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream) immediately following the DTC settlement date. Cash received in Euroclear or Clearstream as a result of sales of interests in a Global Note by or through a Euroclear or Clearstream participant to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant Euroclear or Clearstream cash account only as of the business day for Euroclear or Clearstream following the DTC settlement date.

DTC has advised us that DTC will take any action permitted to be taken by a holder of Notes (including the presentation of Notes for exchange as described above) only at the direction of one or more participants to whose account with DTC interests in the Global Notes are credited and only in respect of such portion of the aggregate principal amount of the Notes as to which such participant or participants has or have given such direction. However, if there is an Event of Default under the Notes, the Global Notes will be exchanged for legended Notes in certificated form, and distributed to DTC's participants.

Although DTC, Euroclear and Clearstream have agreed to the foregoing procedures in order to facilitate transfers of beneficial ownership interests in the Global Notes among participants of DTC, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. None of us, the Trustee or any of our or their respective agents will have any responsibility for the performance by DTC, Euroclear and Clearstream, their participants or indirect participants of their respective obligations under the rules and procedures governing their operations, including maintaining, supervising or reviewing the records relating to, or payments made on account of, beneficial ownership interests in Global Notes.

Certain U.S. federal income tax considerations

The following discussion is a summary of certain U.S. federal income tax considerations relevant to the exchange of the private notes for the exchange notes pursuant to the exchange offer, but does not purport to be a complete analysis of all potential tax effects. The effects of other U.S. federal tax laws, such as estate and gift tax laws, and any applicable state, local or foreign tax laws are not discussed. This discussion is based on the Internal Revenue Code of 1986, as amended (the “Code”), applicable Treasury Regulations promulgated and proposed thereunder, judicial decisions, and published rulings and administrative pronouncements of the U.S. Internal Revenue Service (the “IRS”) in effect as of the date of this prospectus. These authorities may change or be subject to differing interpretations. Any such change may be applied retroactively in a manner that could adversely affect a holder of the notes. We have not sought and will not seek any rulings from the IRS regarding the matters discussed below. There can be no assurance the IRS or a court will not take a contrary position regarding the tax consequences of the exchange of private notes for exchange notes.

This discussion does not address all U.S. federal income tax consequences relevant to a holder’s particular circumstances. In addition, it does not address consequences relevant to holders subject to particular rules, including, without limitation:

- U.S. expatriates and certain former citizens or long-term residents of the United States;
- persons subject to the alternative minimum tax;
- U.S. persons (as defined in the Code) whose functional currency is not the U.S. dollar;
- persons holding the notes as part of a hedge, straddle or other risk reduction strategy or as part of a conversion transaction or other integrated investment;
- banks, insurance companies, and other financial institutions;
- real estate investment trusts or regulated investment companies;
- brokers, dealers or traders in securities;
- “controlled foreign corporations,” “passive foreign investment companies,” and corporations that accumulate earnings to avoid U.S. federal income tax;
- S corporations, partnerships or other entities or arrangements treated as partnerships for U.S. federal income tax purposes;
- tax-exempt organizations or governmental organizations;
- United States persons that hold their notes through non-United States brokers or other non-United States intermediaries; and
- persons deemed to sell our notes under the constructive sale provisions of the Code.

THIS DISCUSSION IS FOR INFORMATION PURPOSES ONLY AND IS NOT INTENDED AS TAX ADVICE. HOLDERS SHOULD CONSULT THEIR TAX ADVISORS WITH RESPECT TO THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AS WELL AS ANY TAX CONSEQUENCES OF EXCHANGING THE PRIVATE NOTES FOR THE EXCHANGE NOTES ARISING UNDER THE U.S. FEDERAL ESTATE OR GIFT TAX LAWS OR UNDER THE LAWS OF ANY STATE, LOCAL OR NON-U.S. TAXING JURISDICTION OR UNDER ANY APPLICABLE INCOME TAX TREATY.

Exchange Pursuant to the Exchange Offer

The exchange of private notes for exchange notes pursuant to the exchange offer will not be treated as an “exchange” for U.S. federal income tax purposes, because the exchange notes will not be considered to differ materially in kind or extent from the private notes. Accordingly, the exchange of private notes for exchange notes will not be a taxable event to holders for U.S. federal income tax purposes. Moreover, the exchange notes will have the same tax attributes as the private notes exchanged therefor and the same tax consequences to holders as the private notes have to holders, including without limitation, the same issue price, tax basis and holding period.

Plan of distribution

Based on interpretations by the staff of the SEC in no-action letters issued to third parties, we believe that you may transfer the exchange notes issued pursuant to the exchange offer in exchange for the private notes if:

- you acquire exchange notes in the ordinary course of your business; and
- you are not engaged in, and do not intend to engage in, and have no arrangement or understanding with any person to participate in, a distribution of exchange notes.

You may not participate in the exchange offer if you are:

- an “affiliate” of ours within the meaning of Rule 405 under the Securities Act; or
- a broker-dealer that acquired private notes directly from us.

Each broker-dealer that receives exchange notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of the exchange notes. Broker-dealers may use this prospectus, as it may be amended or supplemented from time to time, in connection with the resale of exchange notes received in exchange for private notes where the broker-dealer acquired the private notes as a result of market-making activities or other trading activities. We have agreed that for a period of up to 90 days after the date that this registration statement is declared effective by the SEC, we will make this prospectus, as amended or supplemented, available to any broker-dealer that requests it in the letter of transmittal for use in connection with any such resale.

If you wish to exchange private notes for your exchange notes pursuant to the exchange offer, you will be required to make representations to us as described in “The exchange offer—Procedures for tendering” in this prospectus. In addition, if you are a broker-dealer who receives the exchange notes for your own account in exchange for the private notes that were acquired by you as a result of market-making activities or other trading activities, you will be required to acknowledge that you will deliver a prospectus in connection with any resale by you of such exchange notes and you will be required to make representations to us as described in the letter of transmittal.

We will not receive any proceeds from any sale of exchange notes by broker-dealers or any other persons. Broker-dealers may sell exchange notes received by broker-dealers for their own account pursuant to the exchange offer from time to time in one or more transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the exchange notes or a combination of such methods of resale, at market prices prevailing at the time of resale, at prices related to the prevailing market prices or negotiated prices. Broker-dealers may resell exchange notes directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any broker-dealer and/or the purchasers of the exchange notes. Any broker-dealer that resells exchange notes that were received by it for its own account pursuant to the exchange offer and any broker or dealer that participates in a distribution of the exchange notes may be deemed to be “underwriters” within the meaning of the Securities Act and any profit on any resale of exchange notes and any commissions or concessions received by any such persons may be deemed to be underwriting compensation under the Securities Act. The letter of transmittal for use in connection with any such resale will state that by acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an “underwriter” within the meaning of the Securities Act.

We have agreed to pay all expenses incident to our performance of, or compliance with, the registration rights agreement and will indemnify the holders of the notes (including any broker-dealers) against liabilities under the Securities Act.

By its acceptance of the exchange offer, any broker-dealer that receives exchange notes pursuant to the exchange offer agrees to notify us before using the prospectus in connection with the sale or transfer of exchange notes.

[Table of Contents](#)

The broker-dealer further acknowledges and agrees that, upon receipt of notice from us of the happening of any event which makes any statement in the prospectus untrue in any material respect or which requires the making of any changes in the prospectus to make the statements in the prospectus not misleading or which may impose upon us disclosure obligations that may have a material adverse effect on us, which notice we agree to deliver promptly to the broker-dealer, the broker-dealer will suspend use of the prospectus until we have notified the broker-dealer that delivery of the prospectus may resume and have furnished copies of any amendment or supplement to the prospectus to the broker-dealer.

Legal matters

Certain legal matters with regard to the validity of the exchange notes will be passed upon by Latham & Watkins LLP, Menlo Park, California.

PART II
INFORMATION NOT REQUIRED IN PROSPECTUS

Item 20. Indemnification of Officers and Directors

We are a Delaware corporation. Section 102(b)(7) of the Delaware General Corporation Law (the “DGCL”), enables a corporation in its original certificate of incorporation or an amendment thereto to eliminate or limit the personal liability of a director to the corporation or its stockholders for monetary damages for violations of the director’s fiduciary duty, except (i) for any breach of the director’s duty of loyalty to the corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) pursuant to Section 174 of the DGCL (providing for liability of directors for unlawful payment of dividends or unlawful stock purchases or redemptions), or (iv) for any transaction from which a director derived an improper personal benefit.

Section 145(a) of the DGCL empowers a corporation to indemnify any director or officer, or former director or officer, who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation), against expenses (including attorneys’ fees), judgments, fines and amounts paid in settlement actually and reasonably incurred in connection with such action, suit or proceeding provided that such director or officer acted in good faith in a manner reasonably believed to be in, or not opposed to, the best interests of the corporation, and, with respect to any criminal action or proceeding, provided further that such director or officer had no reasonable cause to believe his conduct was unlawful.

Section 145(b) of the DGCL empowers a corporation to indemnify any director or officer, or former director or officer, who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that such person acted in any of the capacities set forth above, against expenses (including attorneys’ fees) actually and reasonably incurred in connection with the defense or settlement of such action or suit provided that such director or officer acted in good faith and in a manner reasonably believed to be in, or not opposed to, the best interests of the corporation, except that no indemnification may be made in respect to any claim, issue or matter as to which such director or officer shall have been adjudged to be liable to the corporation unless and only to the extent that the Delaware Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all of the circumstances of the case, such director or officer is fairly and reasonably entitled to indemnity for such expenses which the Delaware Court of Chancery or such other court shall deem proper.

Section 145 of the DGCL further provides that to the extent a director or officer of a corporation has been successful in the defense of any action, suit or proceeding referred to in Sections 145(a) or (b) of the DGCL or in the defense of any claim, issue or matter therein, he shall be indemnified against expenses (including attorneys’ fees) actually and reasonably incurred by him in connection therewith; that indemnification and advancement of expenses provided for, by, or granted pursuant to Section 145 of the DGCL shall not be deemed exclusive of any other rights to which the indemnified party may be entitled; and empowers the corporation to purchase and maintain insurance on behalf of a director or officer of the corporation against any liability asserted against him or incurred by him in any such capacity, or arising out of his status as such, whether or not the corporation would have the power to indemnify him against such liabilities under Section 145 of the DGCL.

We have the power to indemnify our directors, officers and other persons against liability for certain acts pursuant to Section 145 of the DGCL and pursuant to Article 8 of our Bylaws.

In addition, we maintain a standard form of directors’ and officers’ liability insurance policy. Insofar as indemnification for liabilities arising under the Securities Act may be permitted for our directors, officers and controlling persons, we have been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

A list of exhibits filed with this registration statement is set forth on the Exhibit Index and is incorporated in this Item 21 by reference.

Item 22. Undertakings.

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the SEC pursuant to Rule 424(b) under the Securities Act if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that

(A) paragraphs (a)(1)(i) and (a)(1)(ii) of this section do not apply if the registration statement is on Form S-8, and the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the SEC by the registrant pursuant to Section 13 or Section 15(d) of the Exchange Act that are incorporated by reference in the registration statement; and

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act to any purchaser, each prospectus filed pursuant to Rule 424(b) under the Securities Act as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B under the Securities Act or other than prospectuses filed in reliance on Rule 430A under the Securities Act, shall be deemed to

be part of and included in the registration statement as of the date it is first used after effectiveness. *Provided, however*, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

(5) That, for the purpose of determining liability of the registrant under the Securities Act to any purchaser in the initial distribution of the securities: The undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

- (i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424 under the Securities Act;
- (ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
- (iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and
- (iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act, each filing of the registrant's annual report pursuant to Section 13(a) or 15(d) of the Exchange Act (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Exchange Act) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions described under Item 20 above, or otherwise, the registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

(d) The undersigned registrant hereby undertakes to respond to requests for information that is incorporated by reference into this prospectus pursuant to Items 4, 10(b), 11, or 13 of this Registration Statement, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.

(e) The undersigned registrant hereby undertakes to supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in the registration statement when it became effective.

\$500,000,000 Aggregate Principal Amount of 7.00% Senior Notes due 2024

Ladies and Gentlemen:

We have acted as special counsel to Advanced Micro Devices, Inc., a Delaware corporation (the “*Company*”), in connection with the issuance of (i) up to \$600,000,000 aggregate principal amount of 6.75% Senior Notes due 2019 (the “*6.75% Notes*”) by the Company under an Indenture dated as of February 26, 2014 (the “*6.75% Notes Indenture*”) between the Company and Wells Fargo Bank, National Association, as trustee (the “*Trustee*”), and (ii) up to \$500,000,000 aggregate principal amount of 7.00% Senior Notes due 2024 (the “*7.00% Notes*”) and together with the 6.75% Notes, the “*Notes*”) by the Company under an Indenture dated as of June 16, 2014 (the “*7.00% Notes Indenture*”, and together with the 6.75% Notes Indenture, the “*Indentures*”) between the Company and the Trustee, pursuant to a registration statement on Form S-4 under the Securities Act of 1933, as amended (the “*Act*”), filed with the Securities and Exchange Commission (the “*Commission*”) on August 1, 2014 (the “*Registration Statement*”). The Notes will be issued in exchange for the Company’s outstanding 6.75% Senior Notes due 2019 (the “*Old 6.75% Notes*”) and 7.00% Senior Notes due 2024 (the “*Old 7.00% Notes*”, and together with the Older 6.75% Notes, the “*Old Notes*”) on the terms set forth in the prospectus contained in the Registration Statement (the “*Prospectus*”). This opinion is being furnished in connection with the requirements of Item 601(b)(5) of Regulation S-K under the Act, and no opinion is expressed herein as to any matter pertaining to the contents of the Registration Statement or Prospectus, other than as expressly stated herein with respect to the issuance of the Notes.

As such counsel, we have examined such matters of fact and questions of law as we have considered appropriate for purposes of this letter. With your consent, we have relied upon certificates and other assurances of officers of the Company and others as to factual matters without having independently verified such factual matters. We are opining herein as to the

LATHAM & WATKINS LLP

internal laws of the State of New York and the General Corporation Law of the State of Delaware, and we express no opinion with respect to the applicability thereto, or the effect thereon, of the laws of any other jurisdiction or, in the case of Delaware, any other laws, or as to any matters of municipal law or the laws of any local agencies within any state.

Subject to the foregoing and the other matters set forth herein, it is our opinion that, as of the date hereof, when the Notes have been duly executed, issued and authenticated in accordance with the terms of the Indentures and delivered in exchange for the Old Notes in the circumstances contemplated by the Registration Statement and Prospectus, the Notes will have been duly authorized by all necessary corporate action of the Company and will be legally valid and binding obligations of the Company, enforceable against the Company in accordance with their terms.

Our opinion is subject to: (i) the effect of bankruptcy, insolvency, reorganization, preference, fraudulent transfer, moratorium or other similar laws relating to or affecting the rights and remedies of creditors; (ii) the effect of general principles of equity, whether considered in a proceeding in equity or at law (including the possible unavailability of specific performance or injunctive relief), concepts of materiality, reasonableness, good faith and fair dealing, and the discretion of the court before which a proceeding is brought; (iii) the invalidity under certain circumstances under law or court decisions of provisions providing for the indemnification of or contribution to a party with respect to a liability where such indemnification or contribution is contrary to public policy; and (iv) we express no opinion as to (a) any provision for liquidated damages, default interest, late charges, monetary penalties, make-whole premiums or other economic remedies to the extent such provisions are deemed to constitute a penalty, (b) consents to, or restrictions upon, governing law, jurisdiction, venue, arbitration, remedies or judicial relief, (c) the waiver of rights or defenses contained in Section 4.05 of the Indentures, (d) any provision requiring the payment of attorneys' fees, where such payment is contrary to law or public policy, (e) any provision permitting, upon acceleration of the Notes, collection of that portion of the stated principal amount thereof which might be determined to constitute unearned interest thereon, (f) advance waivers of claims, defenses, rights granted by law, or notice, opportunity for hearing, evidentiary requirements, statutes of limitation, trial by jury or at law, or other procedural rights, (g) waivers of broadly or vaguely stated rights, (h) provisions for exclusivity, election or cumulation of rights or remedies, (i) provisions authorizing or validating conclusive or discretionary determinations, (j) provisions prohibiting, restricting, or requiring consent to assignment or transfer of any right or property, and (k) the severability, if invalid, of provisions to the foregoing effect.

With your consent, we have assumed (a) that the Indentures and the Notes (collectively, the "**Documents**") have been duly authorized, executed and delivered by the parties thereto other than the Company, (b) the genuineness of all signatures and the legal capacity of all natural persons, (c) that the Documents constitute legally valid and binding obligations of the parties thereto other than the Company, enforceable against each of them in accordance with their respective terms, and (d) that the status of the Documents as legally valid and binding obligations of the parties is not affected by any (i) breaches of, or defaults under, agreements or instruments, (ii) violations of statutes, rules, regulations or court or governmental orders, or (iii) failures to obtain required consents, approvals or authorizations from, or make required registrations, declarations or filings with, governmental authorities.

LATHAM & WATKINS LLP

This opinion is for your benefit in connection with the Registration Statement and may be relied upon by you and by persons entitled to rely upon it pursuant to the applicable provisions of the Act. We consent to your filing this opinion as an exhibit to the Registration Statement and to the reference to our firm contained in the Prospectus under the heading "Legal matters." In giving such consent, we do not thereby admit that we are in the category of persons whose consent is required under Section 7 of the Act or the rules and regulations of the Commission thereunder.

Very truly yours,
